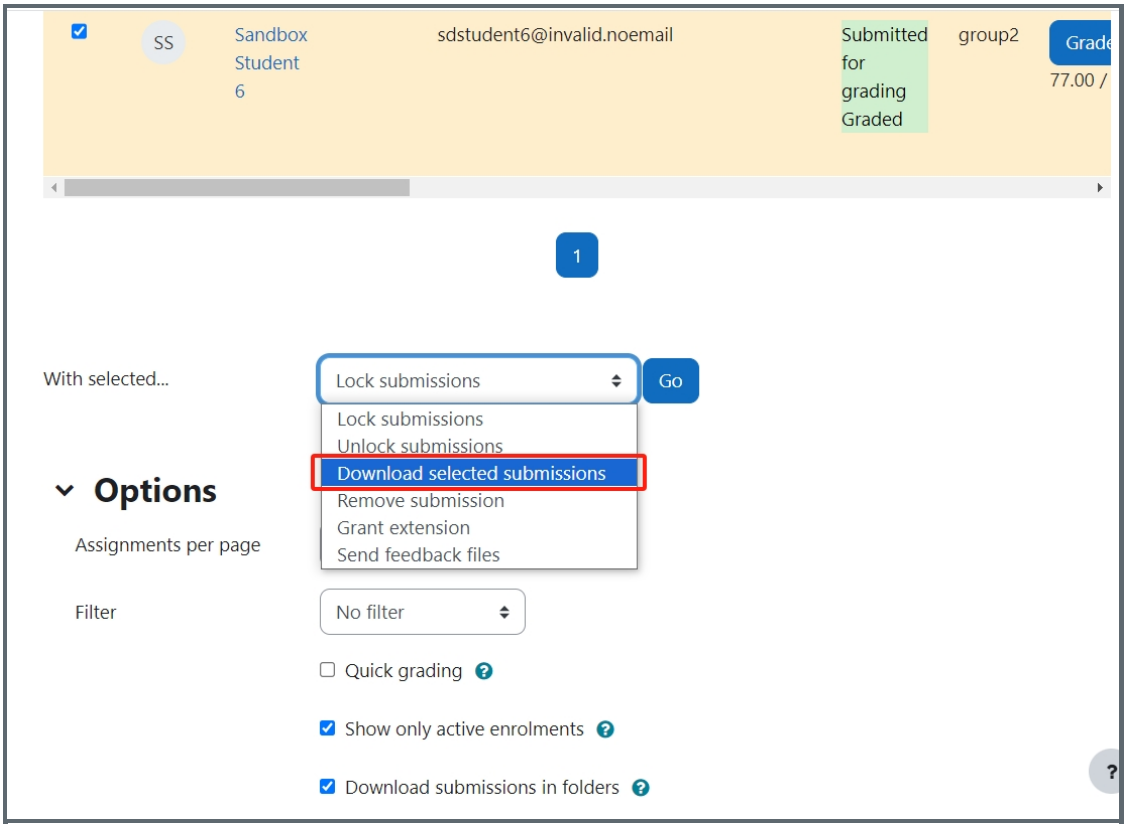
Download selected submissions

155 Bowen Zhang Wed, Oct 18, 2023 4. Manage submissions and feedback 8779 0



An example of downloading selected student submissions

Overview:

This guide will show you how to download a selected submission within the Assignment activity.

What to know:

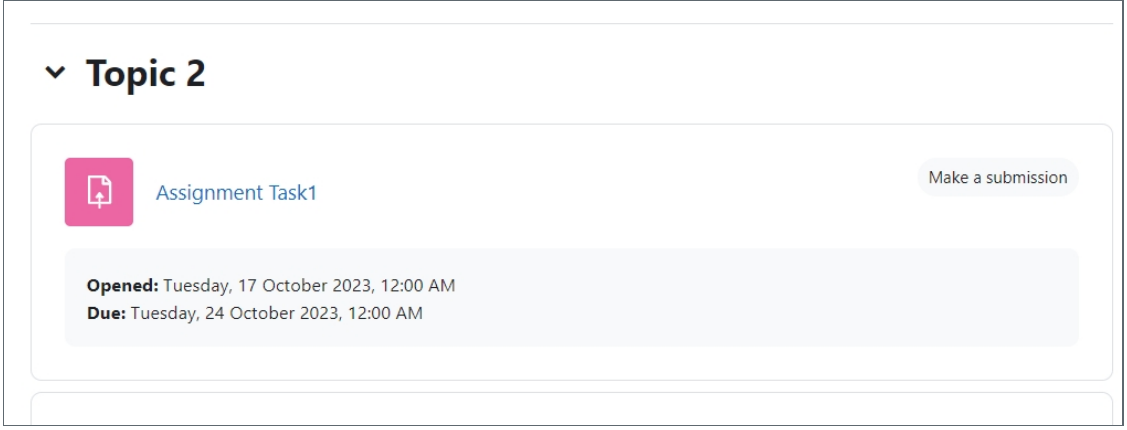
The downloading of submissions within a group will provide the user with the flexibility to filter out submissions by specific groups within their module, if they have groups setup and applied within

Table of Contents

Step 1: The Assignment activity
Step 2: View submissions
Step 3: The submission page
Step 4: Selecting a specific submission
Step 5: Downloading the submission

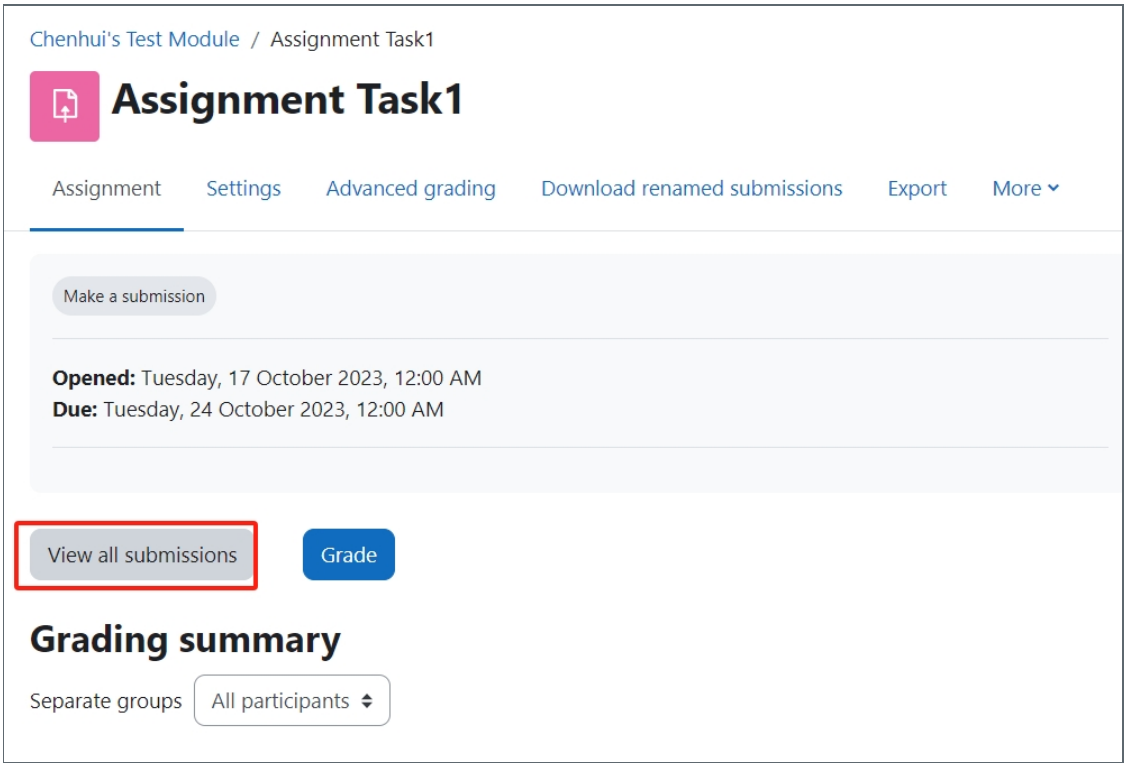
Step 1: The Assignment activity

Go to your Assignment activity on your module page



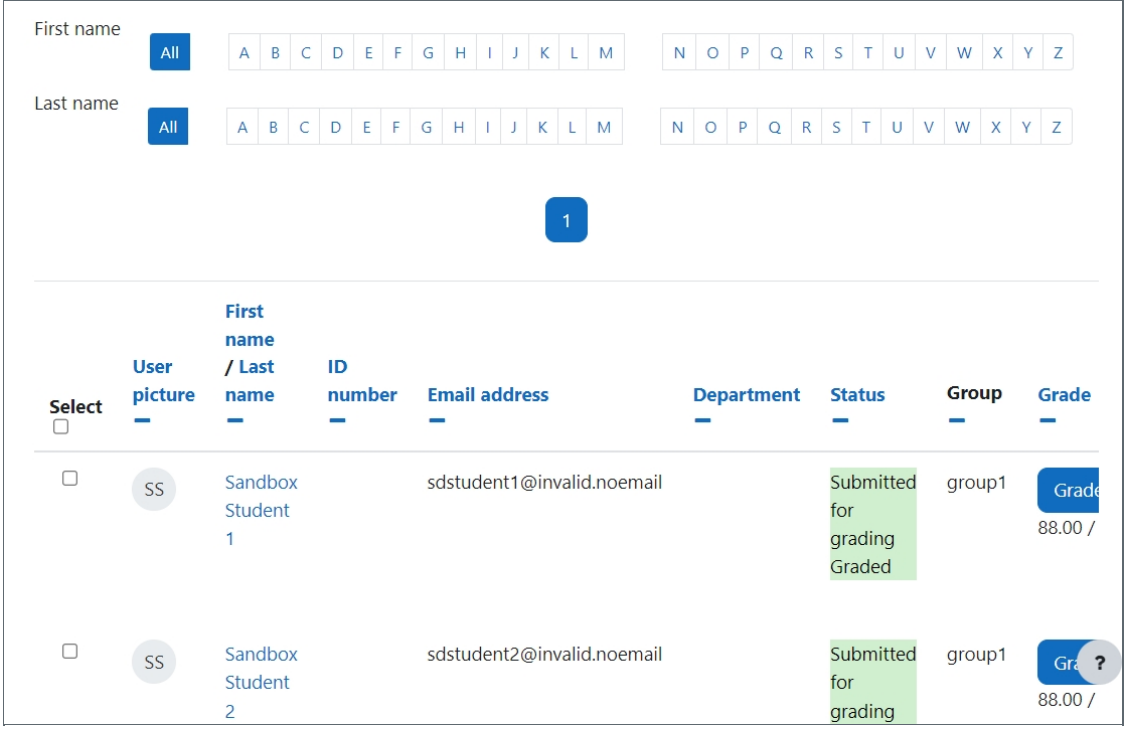
Step 2: View submissions

Click on the 'View all submissions' button



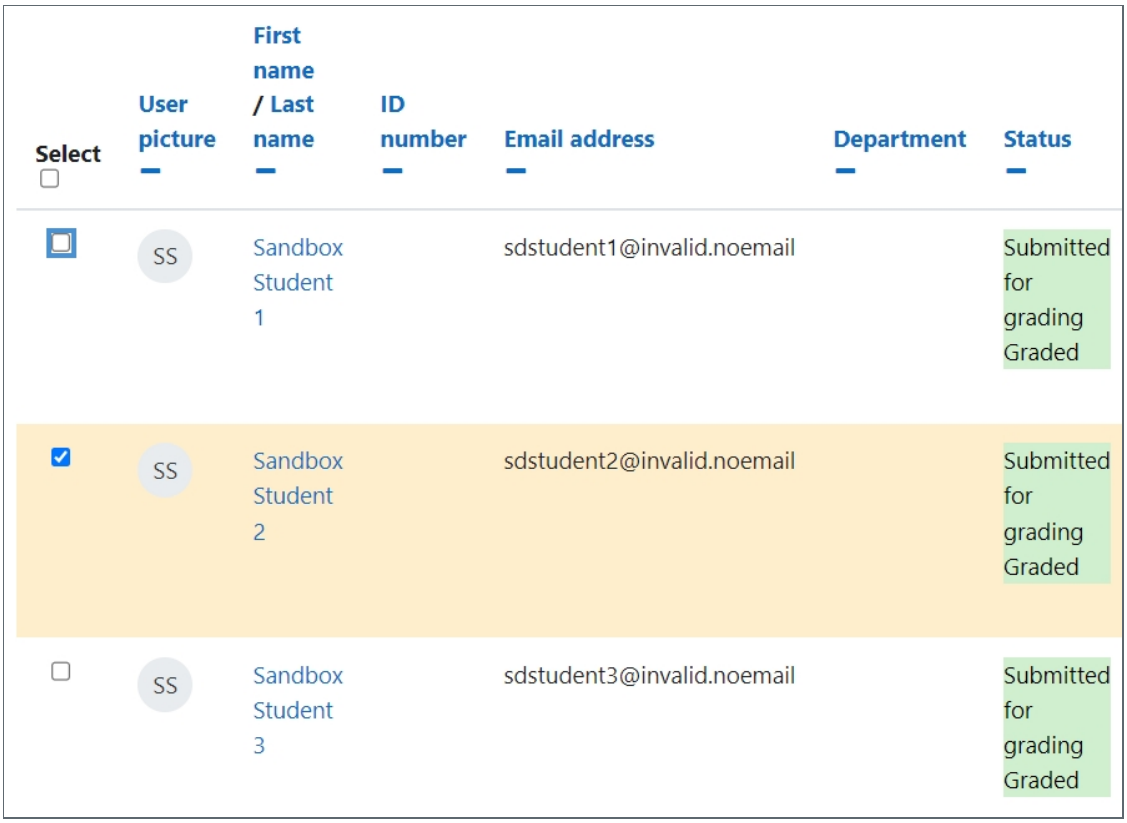
Step 3: The submission page

You will see the submissions that have been submitted by the students.



Step 4: Selecting a specific submission

You can select a specific submission by simple clicking on the 'select' tick box next to the students name.



Step 5: Downloading the submission

Now go down to the 'With selected' drop-down menu click on the 'Download selected submissions' and then click 'Go' you will now download the submission.
