An example of the BigBlueButton activity

Overview:

This guide will show you how to create BigBlueButton links in your Learning Mall module area and how to configure the activity settings so that you can tailor the activity to your specific needs.

What to know:

BigBlueButton (BBB) is an activity on Learning Mall you can use to create a virtual classroom where you can deliver and record a scheduled video lecture. There are two types of sessions you can deliver. Interactive sessions allow students to join in and use the chat, as well as shared notes, to interact, contribute to the discussion, and ask questions. Non-interactive sessions only involve the teacher delivering the content and there is no interaction with students. Both sessions can be recorded and published on Learning Mall for students to view. Finally, access to the activity as well as recorded sessions can be restricted based on groups and groupings.

Table of Contents

- [Step 1: Turn on editing mode in your module area/course](#)
- [Step 2: Click 'Add an activity or resource' link](#)
- [Step 3: Choose the BigBlueButton activity](#)
- [Step 4: Choose the BigBlueButton activity](#)
- [Step 5: Configuring the General Settings](#)
- [Step 6: Uploading a PowerPoint presentation](#)
- [Step 7: Configuring the session schedule](#)
- [Step 8: Restricting access to your BBB session](#)
- [Step 9: Joining a BBB session](#)
- [Step 10: Rejoining a BBB session](#)

Step 1: Turn on editing mode in your module area/course

Click the 'Turn editing on' button displayed near the upper right of the module area/course.

The screenshot shows the XJTLU Learning Mall interface. At the top, there is a navigation bar with the XJTLU logo, 'LEARNING MALL ONLINE', and various utility icons. Below the navigation bar, the breadcrumb trail reads 'Dashboard - My courses - Sample module area'. The main heading is 'Sample module area'. In the top right corner of this section, there is a settings gear icon and a blue button labeled 'Turn editing on', which is highlighted with a red box. Below the heading, there is a 'Welcome!' section with two main items: 'Module handbook and other important resources' and 'Announcements'. To the right, there is a 'Utilities' section with a 'Statistics' chart showing a single data point at value 2. A 'More details' link is located at the bottom of the Utilities section.

Step 2: Click 'Add an activity or resource' link

1. When editing mode is turned on, navigate to the section where you want to add the BigBlueButton activity.
2. Next, click the 'Add an activity or resource' button displayed at the bottom of the section.

The screenshot shows two topic sections in editing mode. Each section has an 'Edit' dropdown menu and a pencil icon. The first section is titled 'Topic 1' and the second is 'Topic 2'. Below each title, there is a blue button with a plus icon and the text 'Add an activity or resource', which is highlighted with a red box. Below each button, there is a dashed-line box containing a crosshair icon, indicating a drag-and-drop area for adding content.

Step 3: Choose the BigBlueButton activity

From the pop-up activity chooser window, locate and select the BigBlueButton activity.

Step 4: Configuring the General Settings

Choose the 'Room/Activity with recordings' as a session type and provide a descriptive name for your session.

Step 5: Uploading a PowerPoint presentation

If you would like to use presentation slides during your session, simply upload the presentation by dragging-and-dropping it onto the file upload area, or choose the file to upload from your desktop. You can also upload a presentation during the session.

Step 6: Configuring the session schedule

Use these settings to set a schedule for your BBB session. This is the period of time during which students will be allowed to join the session. If you want to deliver a non-interactive session, you do not need to enable these settings.

Schedule for session

Join open 4 September 2020 13 47 Enable

Join closed 4 September 2020 13 47 Enable

Step 7: Restricting access to your BBB session

Finally, you can restrict access to your BBB session based on a group of students or several groups in a grouping. Simply click 'Add Restriction' and select the appropriate group or grouping.

Restrict access

Access restrictions

None

Add restriction...

Step 8: Joining a BBB session

After adding a BBB activity, simply click on the BBB link in your module area and then click 'Join Session' to start the session.

Tips:

Apart from restricting the BBB activity using the Restrict Access settings, you can also simply hide/unhide the activity from the module area main page.
