Overview:

This guide will show you how to use the BigBlueButton (BBB) breakout rooms for group discussion within the virtual classroom.

What to know:

Only teachers will have the option to create breakout rooms. Students won't have the option unless you have granted teacher's permission to the particular student in your module.

Table of Contents

[Step 1: Click the "Create breakout rooms" option in the user management list](#)

[Step 2: Switch between the main room and breakout rooms](#)

Step 1: Click the "Create breakout rooms" option in the user management list

Please access the BBB room and click the cogwheel icon at the right top of the users' list on the left side of your BBB page. Click "Create breakout rooms" from the list.

Then you will see a pop-up page as the below screenshot shows. You can select the "Number of rooms" from the dropdown list, the maximum is 16 rooms. You can set the "Duration" in the box by inputting the number of minutes for the breakout session.

There are three options for you to assign your students to different groups.

- You can tick the "Allow users to choose a breakout room to join" check box, and in that way, your students will be able to choose which room they want to join. (Tip: If you want your students to choose their room according to some rules, you can add the rules on the [default] presentation before you create the breakout rooms.)
- You can click "Randomly assign" and the system will automatically assign your students into the breakout rooms.
- You can manually assign your students by dragging their names from the "Not assigned" box and dropping on each room box.

After all these settings, please click "Create" and then the system will start the breakout rooms immediately. Your students will be guided to separate rooms.

Breakout Rooms

Cancel

Create

Complete the steps below to create rooms in your session. To add participants to a room.

The interface shows the following configuration:

- 1**: Number of rooms: 2
- 2**: Duration (minutes): 1
- 3**: Room 1 and Room 2 are empty.
- 4**: Randomly assign (button)
- 5**: List of participants: Instructor, Jane, John, Sarah, Eric
- 6**: A bracket groups the Room 1 and Room 2 sections, with an arrow pointing to the Randomly assign button.

Student's view for option A:

The interface shows:

- Choose a **Breakout Room** to join: **Fred's Room (Room - 2)**
- By accepting, you will automatically leave the audio and the video conferences.
- Join Session** button.

Student's view for options B & C:

The interface shows:

- Join breakout room**
- Do you want to join test upload3 (Room - 2)?
- Join room** button.

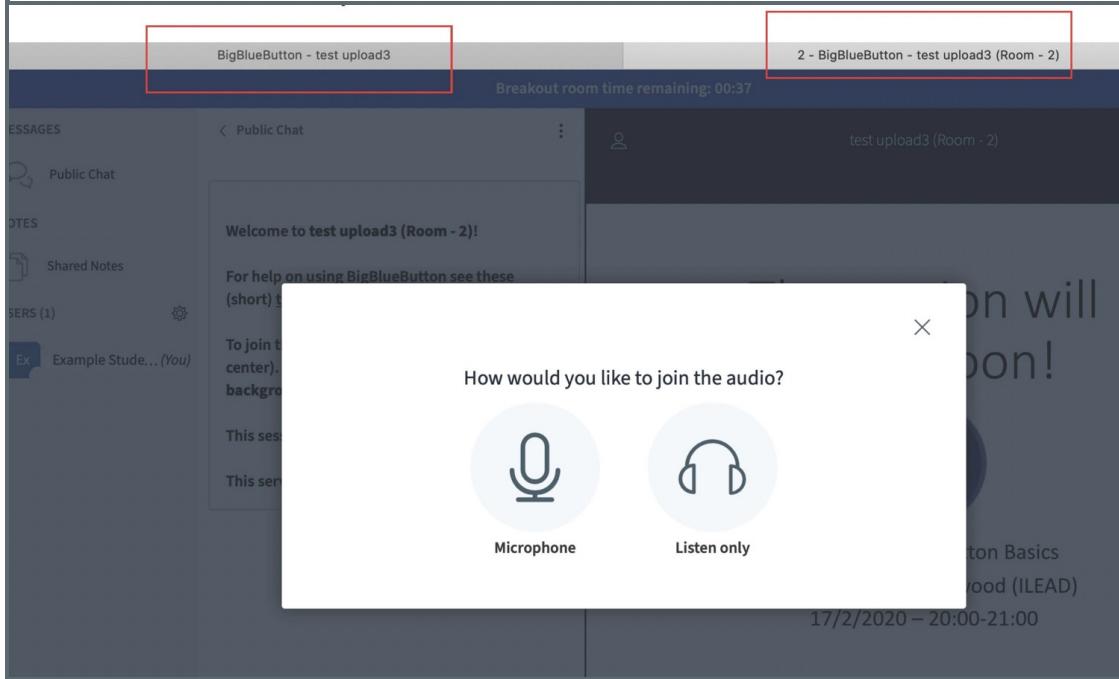

Step 2: Switch between the main room and breakout rooms

As a teacher, you will stay at the main room page, if you want to join the students in the breakout rooms, you can click "Breakout Rooms" on the left menu, and then you can see all the breakout rooms. You can click "Join room" to access the breakout room and join the students.

The interface shows:

- MESSAGES**: Public Chat
- NOTES**: Shared Notes
- BREAKOUT ROOMS**:
 - 1 Breakout Rooms**
 - Room 1 (2)**: Eric, Jane
 - Room 2 (2)**: John, Sarah
 - Join room** and **Join audio** buttons
- Duration 12:50**
- End all breakout rooms** button
- USERS (5)**

Most of the browsers support opening the new window in a new tab, so that you can switch your view between the main room and breakout rooms by clicking on the different tabs. To avoid audio disturbance, you can mute yourself in the breakout rooms.
