What is Mahara/Connect?

Mahara/Connect ePortfolio is an online tool to document your work both in progress and finished, as well as collaborate with others on pages using groups, and allows for submission of pages as assessment items to the Learning Mall Core.

At the simplest level, Mahara/Connect is two things: an ePortfolio and a social networking system combined. An ePortfolio is a system in which students can record ‘evidence of lifelong learning’ – such as essays, artwork or other such things they produce that can be stored digitally. Such things are known as artefacts in Mahara/Connect. Social networking systems give a way for people to interact with their friends and create their own online communities.

But Mahara/Connect is much more than just a place to store files. Mahara/Connect also includes blogging, and a résumé builder.
