An example of gradebook

Overview:

This guide will show you how to view gradebook of your module.

What to know:

All the grades for each student in a module can be found in the module gradebook. The Gradebook is only accessible by module leaders, teachers and non-editing teachers. Students won't be able to access it.

Table of Contents

[Step 1: Click the "Grades" link](#)

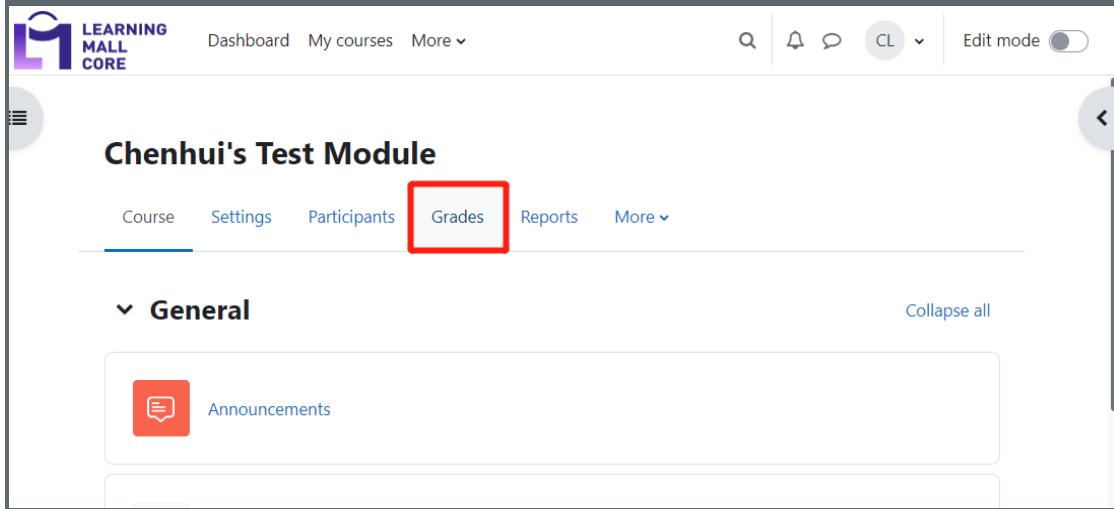

[Step 2: Select the grade report type](#)

[Step 3: View Grader Report](#)

[Step 4: Sorting by columns](#)

Step 1: Click the "Grades" link

Access to your own module page, click the "Grades" link on the left menu list.

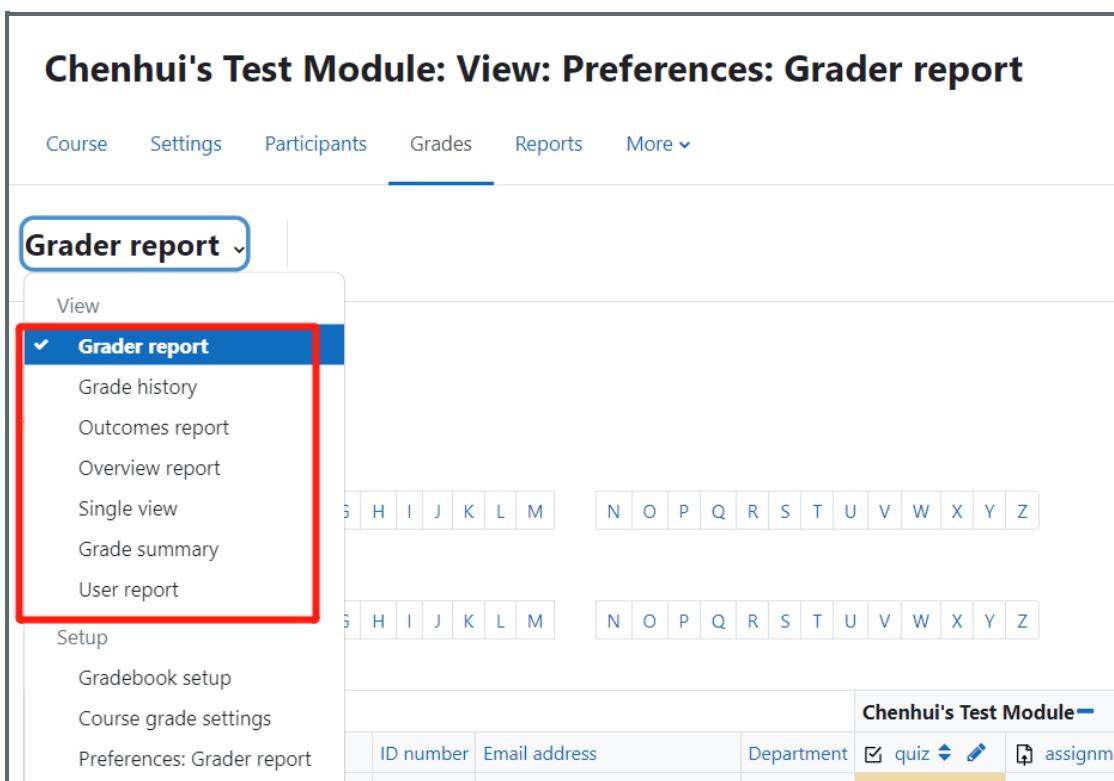

The screenshot shows the Learning Mall Core interface. At the top, there is a navigation bar with the 'LEARNING MALL CORE' logo, a search bar, and various user icons. Below the navigation bar, the title 'Chenhui's Test Module' is displayed. A horizontal menu bar below the title includes 'Course', 'Settings', 'Participants', 'Grades' (which is highlighted with a red box), 'Reports', and 'More'. Under the 'Grades' tab, a section titled 'General' is expanded, showing a box for 'Announcements' with a red icon. There is also a 'Collapse all' link.

Step 2: Select the grade report type

The default home page is the grader report view. You can select different report type from the sub tabs of the view tab.

If you change the course settings Group mode to Visible groups or Separate groups a drop-down menu will appear in the gradebook to allow you to filter your students by groups.

It is also possible to search students by first name and last name:

The screenshot shows the 'Chenhui's Test Module: View: Preferences: Grader report' page. The top navigation bar includes 'Course', 'Settings', 'Participants', 'Grades' (selected and highlighted with a blue box), 'Reports', and 'More'. A dropdown menu titled 'Grader report' is open, showing options: 'Grade history', 'Outcomes report', 'Overview report', 'Single view', 'Grade summary', and 'User report'. Below the dropdown, there are sections for 'Setup', 'Gradebook setup', 'Course grade settings', and 'Preferences: Grader report'. At the bottom right, the title 'Chenhui's Test Module' is displayed, along with search and filter fields for 'ID number', 'Email address', 'Department', and buttons for 'quiz' and 'assignment'.

Step 3: View Grader Report

The grader report collects items that have been graded from the various activities of LM Core that are assessed, and allows you to view and change them as well as sort them out into categories and calculate totals in various ways. When you add an assessed item in your LM Core module, the gradebook automatically creates space for the grades it will produce and also adds the grades themselves as they are generated, either by the system (e.g. self-assessed online quiz) or by you (manually input the grades and feedbacks). The grades displayed are initially displayed as the raw marks from the assessments themselves, so will depend on how you set those up e.g. an essay out of 36 will appear as however many raw marks that student got, not a percentage (although this can be

changed later).

Along the top of the grader report are several rows: first the module name, then the category, then the columns for each graded activity (for example: Attendance, Assignment, Quiz). Any activities settings which were left "uncategorized" will appear in the general category which is named after the module by default (any category name can be changed).

The gradebook allows for smooth and stable scrolling horizontally and vertically through grades. It uses the whole window, making it accessible on all platforms. (Note: horizontal scrolling is at the bottom of the browser window, and there is no horizontal scrollbar at the top.)

Step 4: Sorting by columns

You can sort by any column. Click the symbol near the top of a column to sort by that column (1 below). This will change the symbol to a single down arrow. Clicking again will sort lowest-to-highest, changing the symbol to an up arrow. The arrows will toggle between these two states until you click on a different column.

You can also access the Single view by clicking the pencil icon next to the arrows (2 below).
