Overview:

This guide will show you how to self-check the similarity of your work on the Learning Mall Core page.

What to know:

This area has been created to provide all XJTLU students and academic staff with a quick and easy way to check work with Turnitin, an automated plagiarism and collusion detection service.

Turnitin provides the ability to compare the contents of a submitted file with the contents of millions of websites, journals, periodicals and other scholarly resources. To learn more about Turnitin in general, please click here, and to view further information about submitting files to the service, please click here.

This facility has been provided for all currently enrolled XJTLU students and active staff members to use; however, please note that certain responsibilities accompany use of this area, and therefore users must view and acknowledge the Terms of Use below before they are able to make use of the Turnitin Check functionality.

By uploading and submitting work to the Turnitin Check area on Learning Mall Core you acknowledge the following:

If you are a student, the work you submit MUST be your own, i.e. it **MUST NOT** be work authored by another student Teaching staff may submit work on behalf of a student only when the student concerned is a member of the class the teacher is responsible for teaching

Following a user's initial 3 submissions, Turnitin requires that generation of an Originality Report for each subsequent submission occurs only after a period of 24-hours has passed

The use of Turnitin in this way does not affect the right of the submitted work's author to assert copyright ownership - as detailed here

Due to Turnitin's servers being physically located in the United States, and dependent on network traffic conditions as well as the size of the file being submitted, uploading can sometimes take 30 seconds
