

Using marking workflow

The Marking Workflow options

Overview:

This guide will show you how to implement Marking Workflow within your Assignment Activity.

What to know:

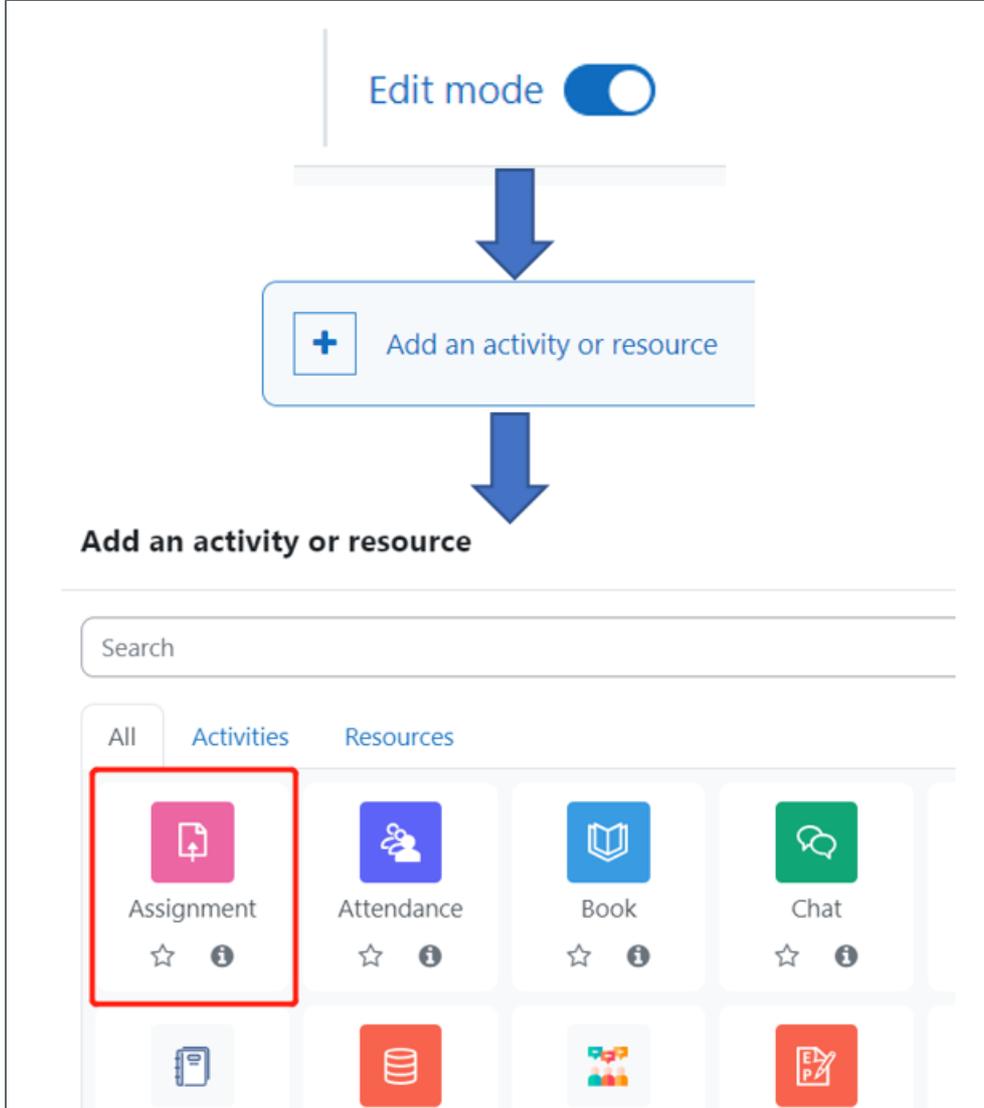

The Marking Workflow within the Assignment activity affords the teachers to manage the marking process by switching the stages. By using the Workflow, students grade and feedback will be kept hidden until teachers release them. **If you are not using Marking Workflow, students will be able to see the grade as soon as you update the grades online.**

Table of Contents

- [Step 1: The Assignment activity](#)
- [Step 2: Name and Description](#)
- [Step 3: The Grade section](#)
- [Step 4: Save settings](#)
- [Step 5: Marking online](#)
- [Step 6: Change marking workflow state](#)
- [Step 7: Release the grades to students](#)

Step 1: The Assignment activity

Click the 'Edit mode' button on the top right hand corner of your screen, next 'Add an activity or resource' then click on the 'Assignment activity icon'

Step 2: Name and Description

Add the 'Assignment name' and 'Description'

The image shows the "General" settings section for an assignment. It features a "General" header with a downward arrow. Below the header, there are two main input fields: "Assignment name" and "Description". The "Assignment name" field is a simple text input box, highlighted with a red border, and has a red exclamation mark icon to its right. The "Description" field is a rich text editor with a toolbar containing various icons for text formatting (bold, italic, underline, list, link, unlink, undo, redo), image insertion, video insertion, and other media. The description text area is also highlighted with a red border. At the bottom of the form, there is a checkbox labeled "Display description on course page" with a question mark icon to its right.

Step 3: The Grade section

Go down to the 'Grade' section on the assignment settings page (if grade settings are not displayed click on the arrow symbol to display).

Adding a new Assignment to Topic 1 ?

[Expand all](#)

▼ **General**

Assignment name !

Enable the Marking Workflow:

Grade

Grade ?

Type

Maximum grade

Grading method ?

Grade category ?

Grade to pass ?

Anonymous submissions ?

Hide grader identity from students ?

Use marking workflow ?

Step 4: Save settings

Now "Save and return to course"

Step 5: Marking online

Now you can mark students online. The grades and feedback will be hidden to students. More information about grade online, please click [here](#)

Course: Chenhui's Test Module

Marking workflow state

Notify student Save changes Save and show next Reset

Step 6: Change marking workflow state

You can change the state of the marking workflow to show the scoring phase.

Go to the assignment and click "View all submissions":

Filter and select the students (or all students) and then open the "Marking Workflow" setting page:

<input checked="" type="checkbox"/>	SF	Student Five	student5@nonmail.com	Submitted for grading Not marked	Grade 90.00 / 100.00	Edit	Tuesday, 20 June 2023, 3:02 PM
<input checked="" type="checkbox"/>	SS	Student Six	student6@nonmail.com	Submitted for grading Not marked	Grade 95.00 / 100.00	Edit	Tuesday, 20 June 2023, 3:03 PM

With selected...

Options

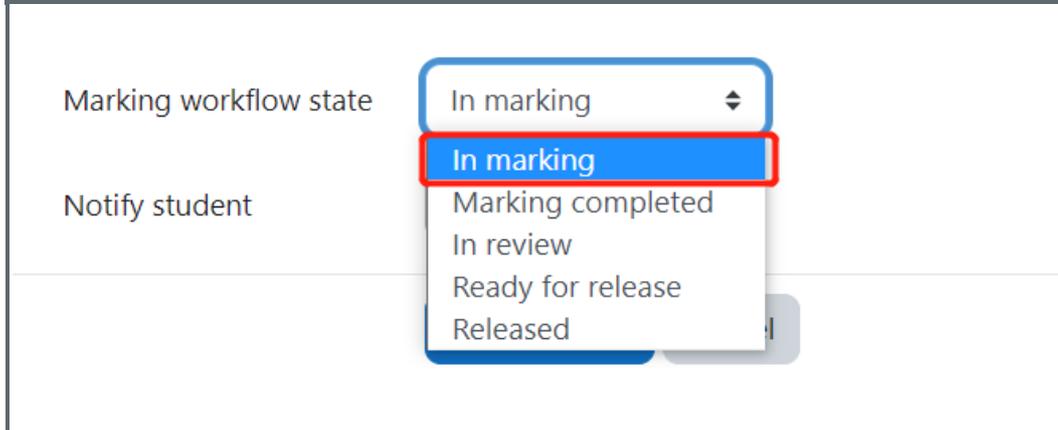

- Assignments per page
- Filter: No filter
- Workflow filter: No filter

Lock submissions (dropdown menu)

- Lock submissions
- Unlock submissions
- Download selected submissions
- Remove submission
- Grant extension
- Set marking workflow state** (highlighted with a red box)

Go (button, highlighted with a red box)

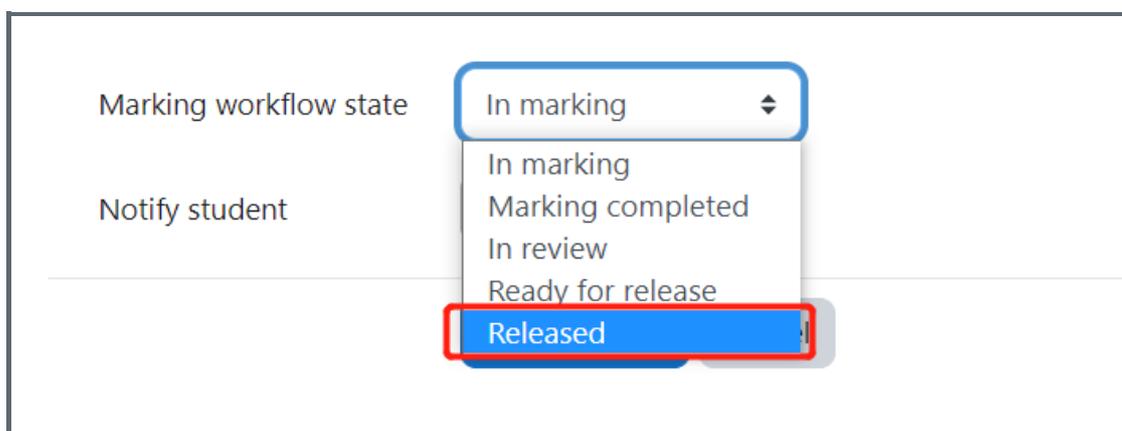

Change the status to "In marking" :

Save the setting, and now you can start grading.

Step 7: Release the grades to students

To release the grades to students, you can change the state to "Released" and save the setting:

Tips:

With the Marking Workflow opened, you can also manage your workflow as you want. Please refer to the following information about each state when you want to do so:

In marking --- the marker has started but not yet finished. All the grades will be saved but hidden to students.

Marking completed --- the marker has finished but might need to go back for checking/corrections.

In review --- the marking is now with the teacher in charge for quality checking

Ready for release --- the teacher in charge is satisfied with the marking but wait before giving students access to the marking

Released --- the student can access the grades/feedback
