Overview:

This guide will show you how to implement Anonymous submissions within your Assignment Activity.

What to know:

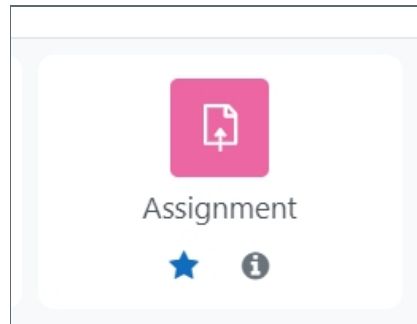

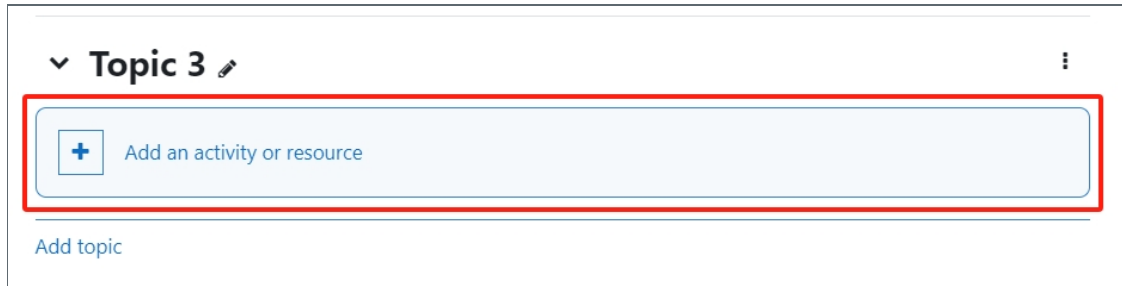

The Anonymous submissions tool within the Assignment activity affords the user the ability to institute a feature that provides student anonymity, and impartial reviews and marking of their work.

Step 1: The Assignment activity

Click the 'Turn editing on' button on the top right hand corner of your screen, next 'Add an activity or resource' then click on the 'Assignment activity icon'

Step 2: Name and Description

Add the 'Assignment name' and 'Description'

A screenshot of the 'General' section of an assignment settings page. The section is titled 'General' with a dropdown arrow. It contains two main fields: 'Assignment name' and 'Description'. The 'Assignment name' field is a text input box with a red border and a red information icon to its left. The 'Description' field is a rich text editor with a red border, containing a toolbar with various icons (bold, italic, list, link, etc.) and a large text area. At the bottom of the form is a checkbox labeled 'Display description on course page' with a red border and a red question mark icon to its right.

Step 3: The Grade section

Go down to the 'Grade' section on the assignment settings page (if grade settings are not displayed click on the arrow symbol to the left to display).

Important:

If you disable the Anonymous submissions and enable it again, or reveal student identities and use Anonymous submissions again, the student number in Anonymous submissions will change. It may cause confusion to your colleagues.

Tips:

Always ensure that you institute anonymous submissions when setting up your Assignment activity at the beginning of the process, as it will not function once an assignment has been received.
