

Switching roles

An example of switching roles in your module

Overview:

This guide will show you how to switch roles in your module, for example switching from the teacher view to the student view. This function can be very helpful when you want to check what other roles see on your module. For example, if you have hidden a topic, you can double-check if students are no longer able to see that topic.

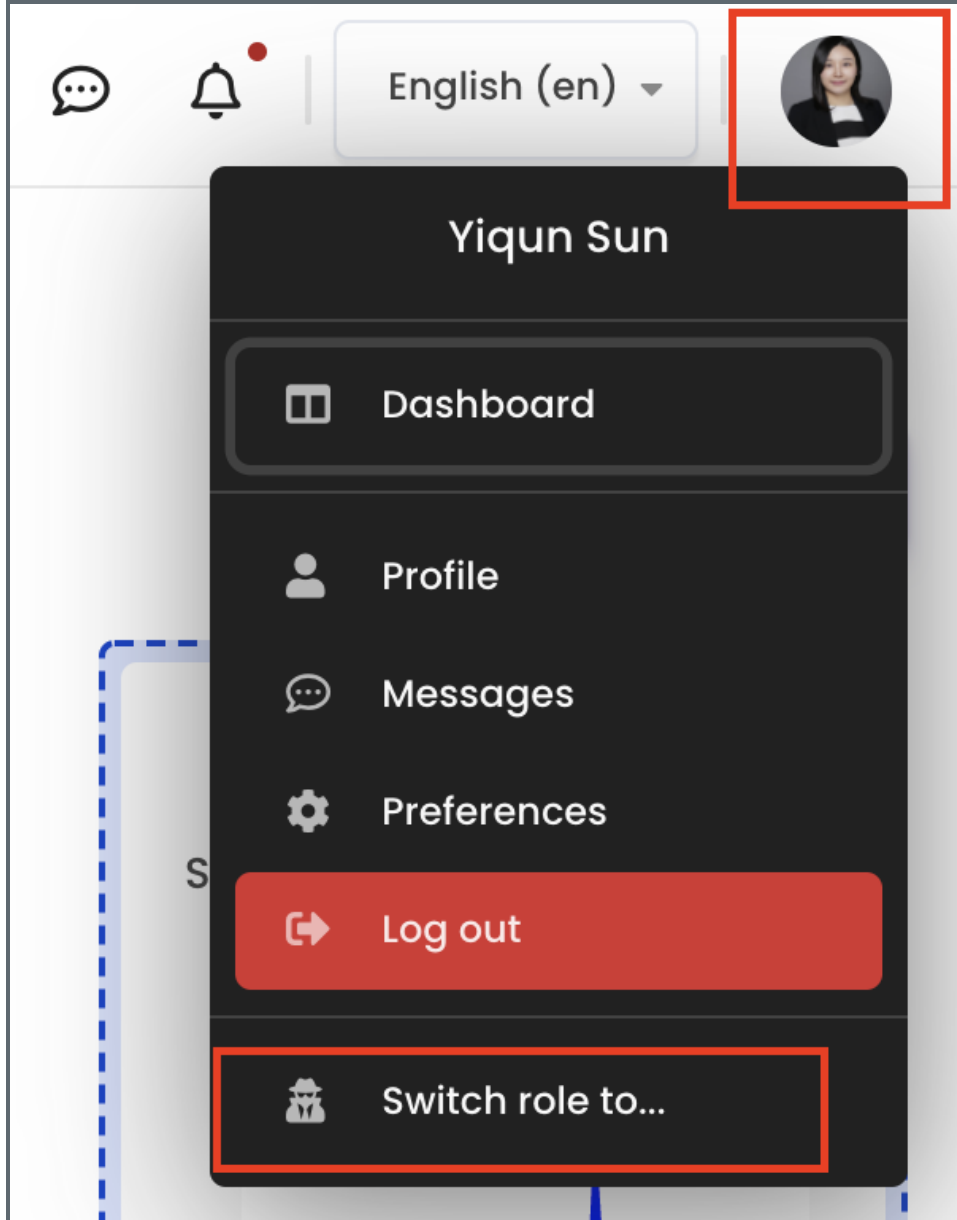

Table of Contents

Step 1: [Click on your profile picture and "Switch role to..."](#)

Step 2: [Choose the roles that you want to switch into](#)

Step 3: [Switch back to your normal role](#)

Step 1: Click on your profile picture and "Switch role to..."

Step 2: Choose the roles that you want to switch into

The screenshot below demonstrates the roles that an admin account can switch into. Depending on your permissions, you will probably see fewer roles than the screenshot.

Choose a role to get an idea of how someone with that role will see this course.

Please note that this view may not be perfect ([See details and alternatives](#)).
