How to submit a group connect page/collection to LM Core?

An example of group project

Overview:

This guide will show you how to submit a group work in connect to the Learning Mall Core assignment. If the "Assignment" activity is well set by the teacher, students will only need to work together on the Connect page(connect.xjtlu.edu.cn), and one representative will be in charge of submitting for all at the end. However, at this moment, project created in a Connect group can't be found on the list when students are trying to submit (they can only find their personal pages). The only solution now is to ask the group administrator copy the page/collection into his/her own account, and submit to LM Core later.

What to know:

Only Group administrator can mange the group and change the work copying allowed. After copying the page/collection, you can disable the function as you like.

Table of Contents

Step 1: Allow copyingStep 2: Copy to your own accountStep 3: Submit to the LM Core

Step 1: Allow copying

1. Go to the group you are working with:

My groups:
