An example of released student grade from student view

Overview:

This guide will show you how to release the grade to students on the LM Core, so that the students can see the grade and feedback on their own device.

What to know:

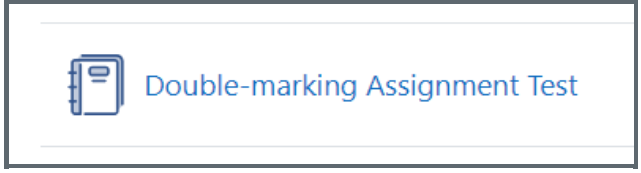

Normally, only the module leader can release the grade. Once we released the grade, the action will not be able to be undone.

Table of Contents

Step 1: Go to Double-marking Assignment information page
Step 2: Click 'Release all grades' button

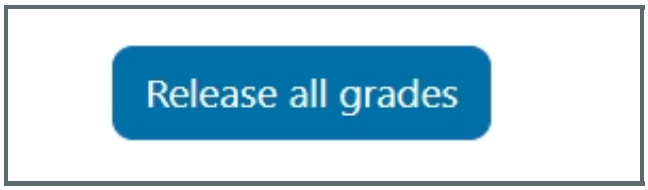

Step 1: Go to Double-marking Assignment information page

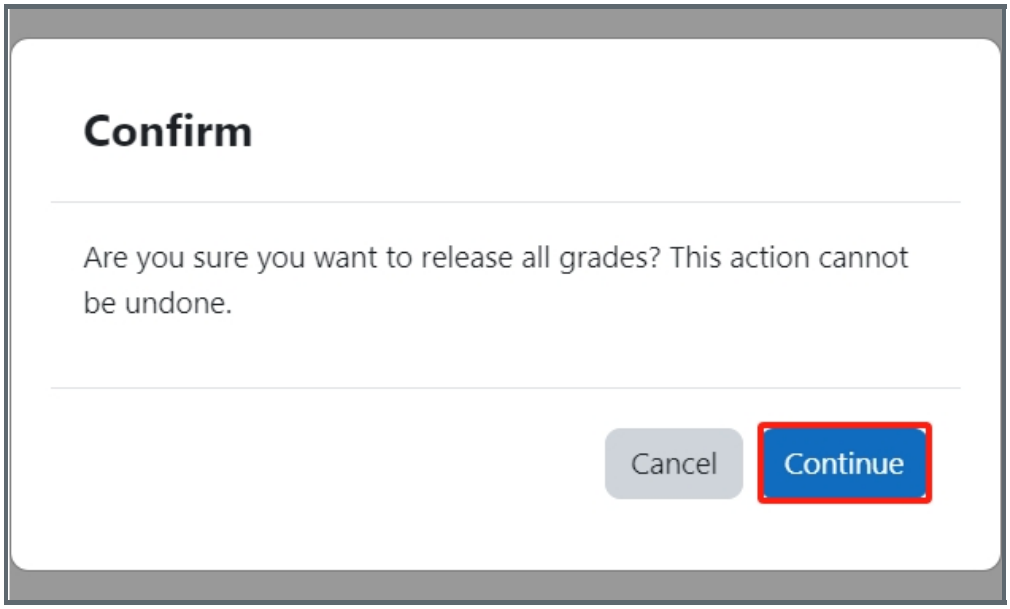

Go to the module, and click the Double-marking Assignment activity:

Step 2: Click ’Release all grades’ button

Scroll down to the bottom, you will find a button called "*Release all grades*". (Only module leader or much higher role in the module can see this.) Please click it to release all grades.
