An example of hiding initial grading to assessors

Overview:

This guide will show you how to prevent teachers to see other's marks before their marking is completed. This feature will reduce the initial grades influence to later assessors.

What to know:

This function is available for Coursework activity which is set to allow more than 1 assessors:

Table of Contents

Step 1: Find the Coursework activity

Please go to your module page, enable Edit mode, and then find the coursework activity you want to change the setting:
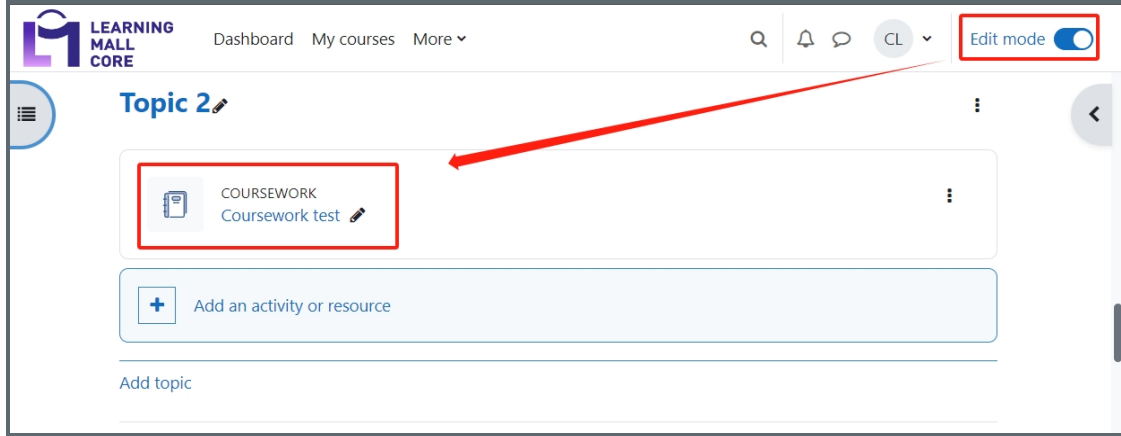

Click the "Three dots icon"->"Edit settings"

In the marking workflow section, the option of "*view initial assessors grades*" should be "No". If not, please change it to "No":

Marking workflow
