An example of the H5P activity

Overview:

This guide will show you how to create an H5P activity on the LM Core.

#### What to know:

The H5P activity affords you the ability to display rich and interactive content on the LM Core. There are more than 45 different kinds of H5P activities available on the LM Core including interactive quizzes, interactive images, and audio recordings. Find out more about the different kinds of H5P activities on the H5P Information Portal . After creating the H5P contents on the LM Core, you can download and reuse the contents on other platforms that support H5P contents.

There are two ways of displaying H5P content on the LM Core: as an H5P activity or as a label. Adding the contents as a label will allow you to display the H5P contents directly on your module page.

## Table of Contents

Step 1: Locate the content bank
Step 2: Select the H5P content
Step 3: Finish creating the H5P content
Step 4: Turn on the editing mode in your module area/course
Step 5: Click 'Add an activity or resource ' link
Step 6: Choose the H5P activity
Step 7: Fill in the details and insert the H5P content
Step 5: Insert the H5P content
Step 6: Insert the H5P content as a label (alternative)

### Step 1: Locate the content bank

It is recommended to create H5P contents in the content bank first and then insert into your module because, in this way, you will be able to manage and reuse your contents in different modules.

To do that, click "content bank" on any module.
