An example of importing question page

## Overview:

This guide will show you how to import questions from existing files into the Question Bank.

## What to know:

Importing questions function allows users to import questions from existing files, instead of creating questions in the system one by one.

## Table of Contents

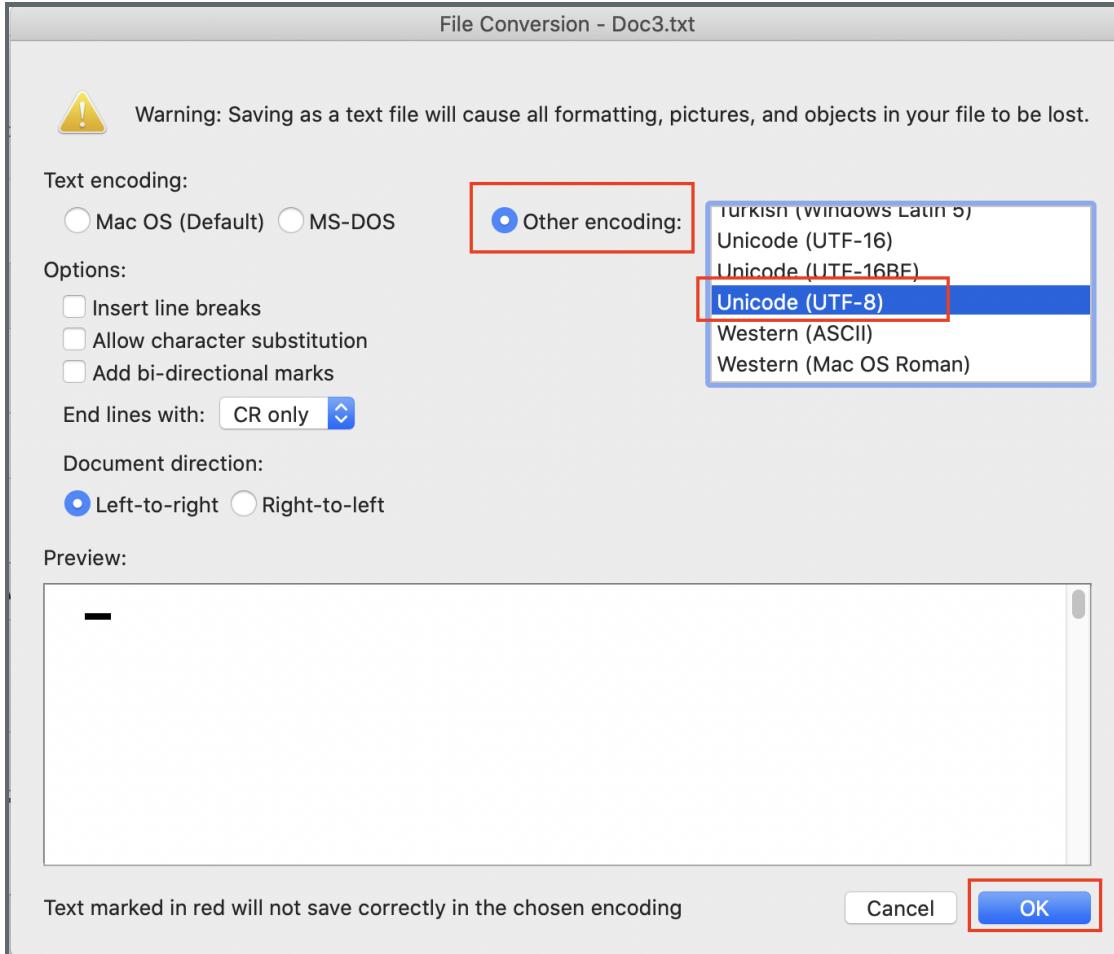

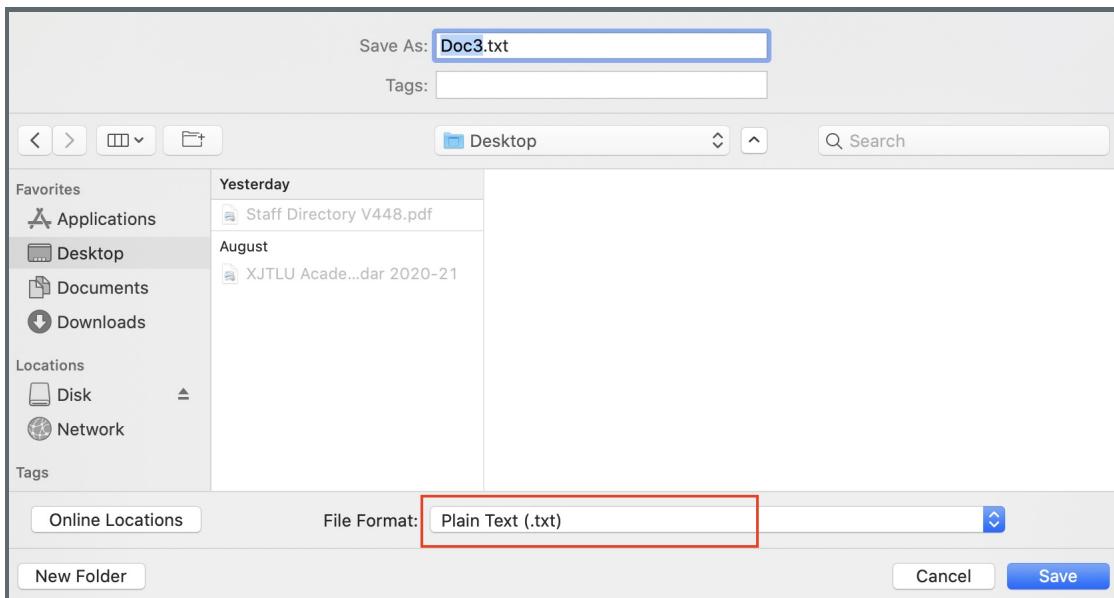

- Step 1: Write questions in a Word file
- Step 2: Save the file
- Step 3: Click the 'Editing' icon
- Step 4: The 'Question bank' area
- Step 5: Choose a file format of the importing file
- Step 6: Choose the category you want the questions to be imported into
- Step 7: Upload the importing file

### Step 1: Write questions in a Word file

Write questions in a Word file.

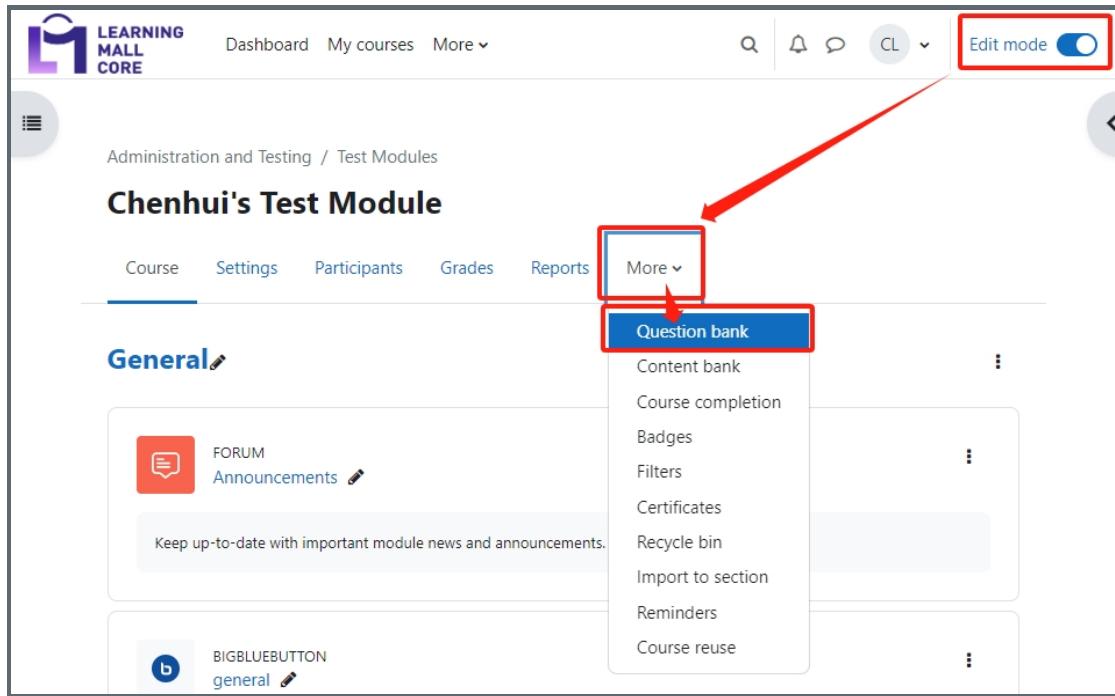

## Step 2: Save the file

1. Click 'Save as' to save your file
2. Choose to save the file as a '.txt' (plain text) file
3. Choose the encoding format to be UTF-8 format .

## Step 3: Click the 'Editing' icon

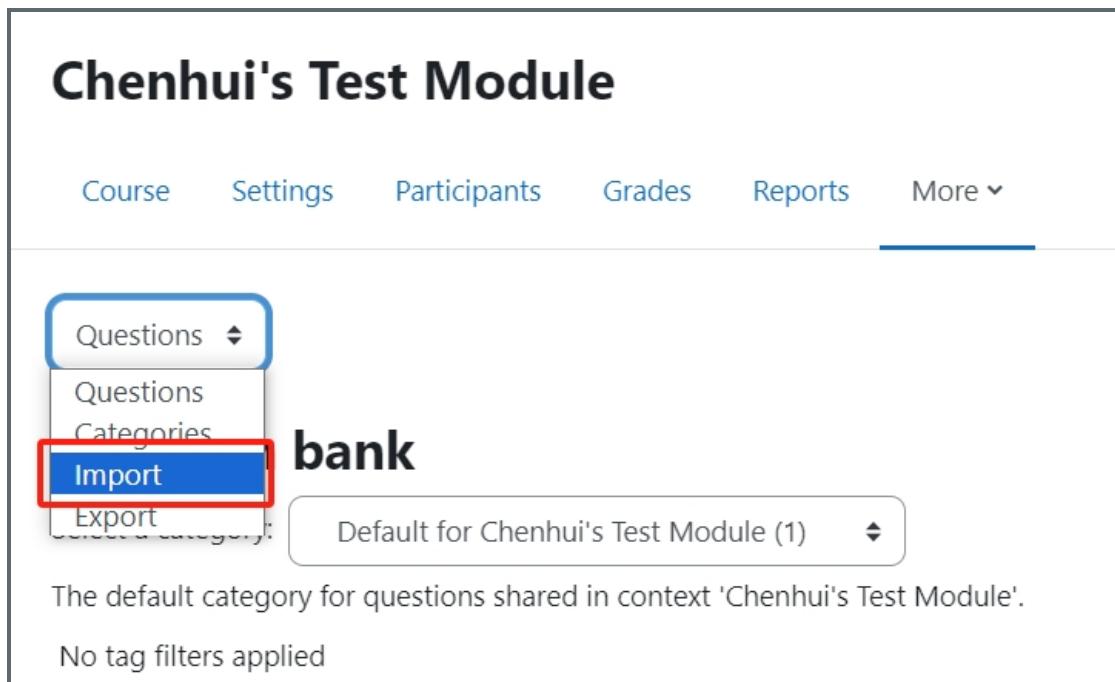

Enable the 'Edit mode' icon on the top right of the module page. Then choose 'more' > 'Question bank'.

The screenshot shows the 'Chenhui's Test Module' page. At the top right, there is an 'Edit mode' toggle switch with a red box and arrow pointing to it. Below the toggle is a 'More' dropdown menu with a red box and arrow pointing to it. The 'Question bank' option in the dropdown menu is highlighted with a blue box. The 'Question bank' option is also highlighted with a blue box in the main content area.

#### Step 4: The 'Question bank' area

1. Click the 'Import' link.

The screenshot shows the 'Question bank' area. On the left, there is a dropdown menu with 'Import' highlighted with a red box. The word 'bank' is written in large, bold, black letters. Below the dropdown menu, there is a text box with the text 'Default for Chenhui's Test Module (1)'. At the bottom, there is a message: 'The default category for questions shared in context 'Chenhui's Test Module''. Below that, it says 'No tag filters applied'.

#### Step 5: Choose a file format of the importing file

Under the 'File format' section, choose the file format below that your existing file belongs to:

Aiken format: to import multiple choice questions with one option as the correct answer.

Blackboard: to import from a Learning Management System called Blackboard.

Embedded answers (Cloze): to import questions in 'Embedded answers (Cloze)' question type.

GIFT format: to import multiple choice, true/false, short answer, matching, missing word, numerical and essay questions.

Missing word format: to import questions in 'Missing word' question type.

Moodle XML format: to import questions through XML programming language.

## Import questions from file?
