

Step 2 - Define activity completion

Activity completion

Completion tracking [?] Show activity as complete when conditions are met ▾

Require view Student must view this activity to complete it

Require grade Student must receive a grade to complete this activity [?]

Require passing grade [?] Require passing grade Or all available attempts completed

Expect completed on [?] 15 ▾ April ▾ 2021 ▾ 15 ▾ 26 ▾ Enable

Save and return to course Save and display Cancel

An example of completion conditions

Overview:

This guide will show you how to define the activity completion for each activity that you want to be applied to the Level-Up rule. Please refer to the [Level-up information portal](#) for an example of the tool and best practices.

What to know:

You have to have some activities created on the module before the settings. If not, please create the activities first. The [Completion tracking](#) should be enabled on the module page.

Different activities will have different completion tracking conditions, you have to set it one by one.

Table of Contents

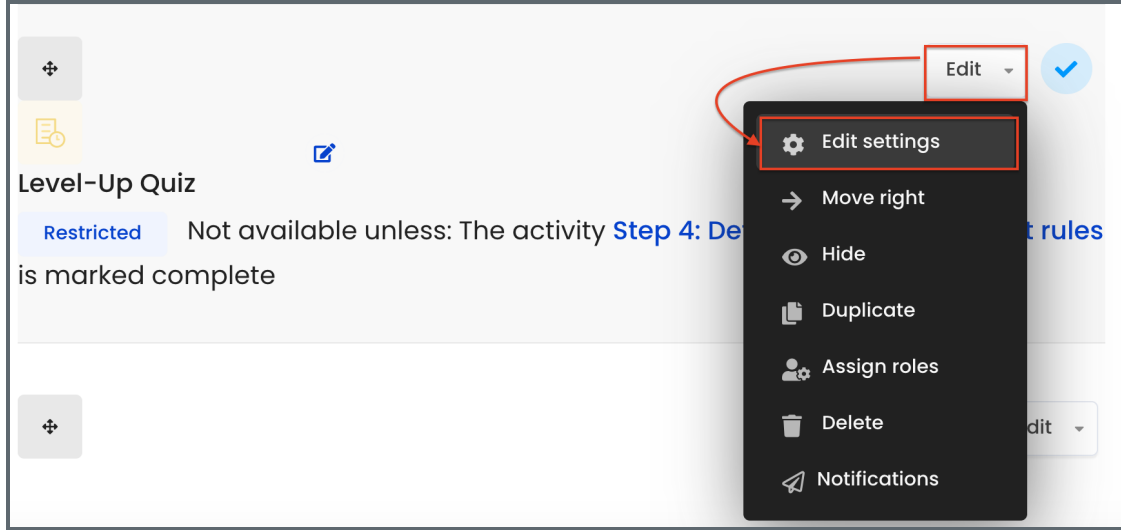

[Step 1: Go to the completion tracking setting](#)

[Step 2: Activity Completion for the Forum activity](#)

[Step 3: Activity Completion for the Quiz activity](#)

Step 1: Go to the completion tracking setting

Turn editing on and go to the editing setting of the activity:

Step 2: Activity Completion for the Forum activity

While in module area editing mode, access the Activity Settings page and scroll down to the Activity Completion tab. Here you will have several options to choose from in order to define what it means to complete this activity. In the example below, to complete the Forum activity, students need to view this activity, create one discussion and post one reply to an existing discussion.

A screenshot of the 'Activity completion' settings page in Moodle. The page is titled 'Activity completion' and has a dropdown arrow. The settings are as follows:

- Completion tracking: Show activity as complete when conditions are met
- Require view: Student must view this activity to complete it
- Require grade: Grade not required
- Require posts: Student must post discussions or replies: 1
- Require discussions: Student must create discussions: 1
- Require replies: Student must post replies: 1
- Expect completed on: 14 April 2021 13:24. There is an 'Enable' checkbox which is currently unchecked.

Step 3: Activity Completion for the Quiz activity

In the example below, to complete the Quiz activity, students need to view this activity, and receive a passing grade. However, the passing grade also needs to be defined under the Grade tab.

Activity completion

Completion tracking [?] Show activity as complete when conditions are met ▾

Require view Student must view this activity to complete it

Require grade Student must receive a grade to complete this activity [?]

Require passing grade Require passing grade Or all available attempts completed

Expect completed on [?] 14 ▾ April ▾ 2021 ▾ 13 ▾ 31 ▾  Enable

Save and return to course Save and display Cancel

Grade

Grade category [?] Uncategorized ▾

Grade to pass [?] 85

Attempts allowed 1 ▾

Tips:

It is important to remember that Level-Up works with a range of different Learning Mall Core activities and resources and each of these activities/resources include different Activity Completion settings. Therefore, there are many different ways to configure these settings to work with Level-Up depending on your educational goals. Simply, think about what you would like your students to achieve, select appropriate Learning Mall Core activities which will help them to achieve these goals, and then configure the Activity Completion settings appropriately.

Basic steps about using Level-Up to gamify your page:

1. [Enable Completion tracking on the module](#)
2. [Add the level up Block](#)
3. [Define activity Completion](#)
4. [Define the levels in level up setting](#)
5. [Create badges - Level up](#)
6. [Define Experience Point rules - Level Up](#)
