Double-marking Assignment - How to show all the students submission

An example of a submission list not allocated to you

Overview:

This guide will show you how to view other submission informations which are not allocated to you.

What to know:

If the Double-marking Assignment uses multiple assessors, usually only the module leader can view all the submissions. Other teachers can only see the submissions which are allocated to them. But there's a way to show the other submission status too. However, the information you see doesn't include the submitted files.
