

# How to use the workshop activity for peer review (teacher view)

An example of the workshop activity (teacher's view)

## Overview:

This guide will show you how to use the workshop activity to encourage your students to do peer review for each other's work. The workshop activity is a powerful peer assessment activity. Students add submissions which are then distributed amongst their peers for assessment based on a grading scale specified by the teacher.

## What to know:

This user guide aims to provide information about how to use the workshop activity. If you want to know more about how to set it up, please check this user guide. [How to add a workshop activity](#)

## Table of Contents

- [Step 1: Setup phase](#)
- [Step 2: Submission phase](#)
- [Step 3: Assessment phase](#)
- [Step 4: Grading evaluation phase](#)
- [Step 5: Close the workshop](#)

### Step 1: Setup phase

Once a Workshop activity has been created and saved, it is in the Setup phase. It must be in the Submission phase for students to be able to submit work and then moved to the Assessment phase for them to review each other's submissions. The switch may automatic or manual.

\* Click 'Edit assessment form' to provide detailed grading criteria for your students to use. When finished, click 'Save and close', and all ticks on the Setup phase will be the same colour.

\* You are ready to switch to the Submission phase which lets students send in their work. Click the icon or text at

the top of Submission phase. This phase will be highlighted.

The screenshot shows the 'workshop user guide' interface with the 'Setup phase' selected. The interface is divided into five columns: Setup phase, Submission phase, Assessment phase, Grading evaluation phase, and Closed. The 'Setup phase' column is highlighted in blue and contains a list of tasks: 'Set the workshop description', 'Provide instructions for submission', 'Edit assessment form', and 'Switch to the next phase'. The other columns show their respective tasks and progress indicators.

## Step 2: Submission phase

\* Students will now be able to submit their work during this time, until any deadline you specified - unless you also allowed late submissions.

\* Click the link 'Allocate submissions' to decide if you yourself want to choose which student assesses whose work (Manual allocation), or if you want Moodle to choose for you (Random allocation) And do you want students to assess others' work even if they have not submitted anything themselves?

\* If, in the Availability section you set the workshop to switch to the submission phase automatically once the submission deadline is over, choose Scheduled allocation.

\* You can see how many have submitted and how many still need to submit. Click the icon or text to move to the Assessment phase if you chose to switch phases yourself. The phase will be highlighted. (Remember that you can move back a phase if you need to, for example, if you want to allow a student to resubmit.)

The screenshot shows the 'workshop user guide' interface with the 'Submission phase' selected. The interface is divided into five columns: Setup phase, Submission phase, Assessment phase, Grading evaluation phase, and Closed. The 'Submission phase' column is highlighted in blue and contains a list of tasks: 'Provide instructions for assessment', 'Allocate submissions', 'There is at least one author who has not yet submitted their work', and 'Switch to the next phase'. The other columns show their respective tasks and progress indicators. Below the phase selection, there is a section for 'Instructions for submission' and a section for 'Your submission'. The 'Your submission' section shows a message: 'You have not submitted your work yet' and a red-bordered button labeled 'Add submission'. A red text annotation points to the button: 'Students will see the add submission button here'.

## Step 3: Assessment phase

\* Students will assess the work of their peers according to the instructions and criteria you gave them.

\* You can monitor their progress by looking at the grades underneath the phases screen:

\* When you are ready, click the icon or text to move to the Grading evaluation phase. This phase will be

highlighted.

## Step 4: Grading evaluation phase

- \* Here, the workshop activity calculates the final grades for submission and for assessment. The user guide about grading calculation [Workshop-grading calculation strategies](#) gives more details on how the grading works.
- \* For the grade for assessment, you can decide how strict you want the comparison to be. If you are not sure, leave it as the default 'fair'.
- \* You can recalculate the grades several times.
- \* You can change grades here if you need to.
- \* You can show to other students selected submissions if you wish. Click on a submission in the workshop grades report (image above) and scroll down to 'Feedback for the author'. Tick the box to publish this submission. Other students will see it once the workshop is closed.

## Step 5: Close the workshop

When you are satisfied with the final grading, click the icon or text to close the workshop. The Closed phase will be highlighted and students will be able to see their grades, any published submissions and a conclusion if you added one.
