

How to learn in a Gamified course

An example of Level Up leaderboard

Overview:

This guide will show you how to learn in a gamified course, including the features it has if the page is using Level Up feature.

What to know:

Students will need to manage their time and learning pace themselves, when learning in a course under the design of gamification. Teachers will support students like a facilitator when they have questions, that is different from traditional course in which the teachers will lead all the learning process from the beginning to the end.

Step 1: What is a gamified course page

A gamified course page is designed by teachers who wants to motivate students in learning. Learning in the module, you will:

1. Mainly have a Self-learning process that you can control your learning time/pace with some help from the teacher.
2. You will receive points by doing tasks like reading paper resources, watching video resources, submitting coursework, discussing with classmates and doing online tests.
3. Your learning are tracked by the system.
4. Receive a badge/reward when you achieve some points.
5. As the points increasing, you will also achieve new levels.
6. Some content may be restricted if you didn't reach the requirements. On the other side, if you matches the requirement, the new content will be unlocked.
7. You can see others learning progress.

Step 2: How to own points/badges/level up

You can get points by doing the tasks. The progress bar will also be show on the module page. When the point bar reaches the end of that level, you will move to a new level and new badge. Here a screenshot of the leaderboard:

The screenshot displays a gamified course interface. At the top, a 'Level up!' notification states: 'Participate in the course to gain experience points and level up!'. Below this, a progress bar shows 'TOTAL 63^{xp}' and 'next level in 57^{xp}'. A blue star with the number '1' is awarded, and a green star with the number '2' is shown next to the progress bar. The 'RANKING' section shows three users: the first with a rank of 1 and +81 points, the second with a rank of 2 (highlighted in blue), and the third with a rank of 2. The 'RECENT REWARDS' section lists three rewards: '9^{xp} Course module viewed 3m', '9^{xp} Course module viewed 3m', and '9^{xp} Course viewed 3m'. At the bottom, there are 'Info' and 'Leaderboard' buttons.
