How to submit e-portfolio assignment (using the Connect and LM platform)

268 Na Li Wed, Mar 27, 2024 Assignment 17350 0

An example of a student's e-portfolio submission page

Overview:

This guide will show you how to submit your own e-portfolio page (not group page) as the LM assignment submission.

What to know:

This user guide is designed for the student. If you are a teacher, please check the user guides for teachers : Creating a Mahara/Connect assignment

If you are working in a group project of the portfolio, you may not be able to submit on Learning Mall directly, because the work is not saved under your account. As group representative, you can check this guide Submit e-portfolio as a group representative to help submit for your group.

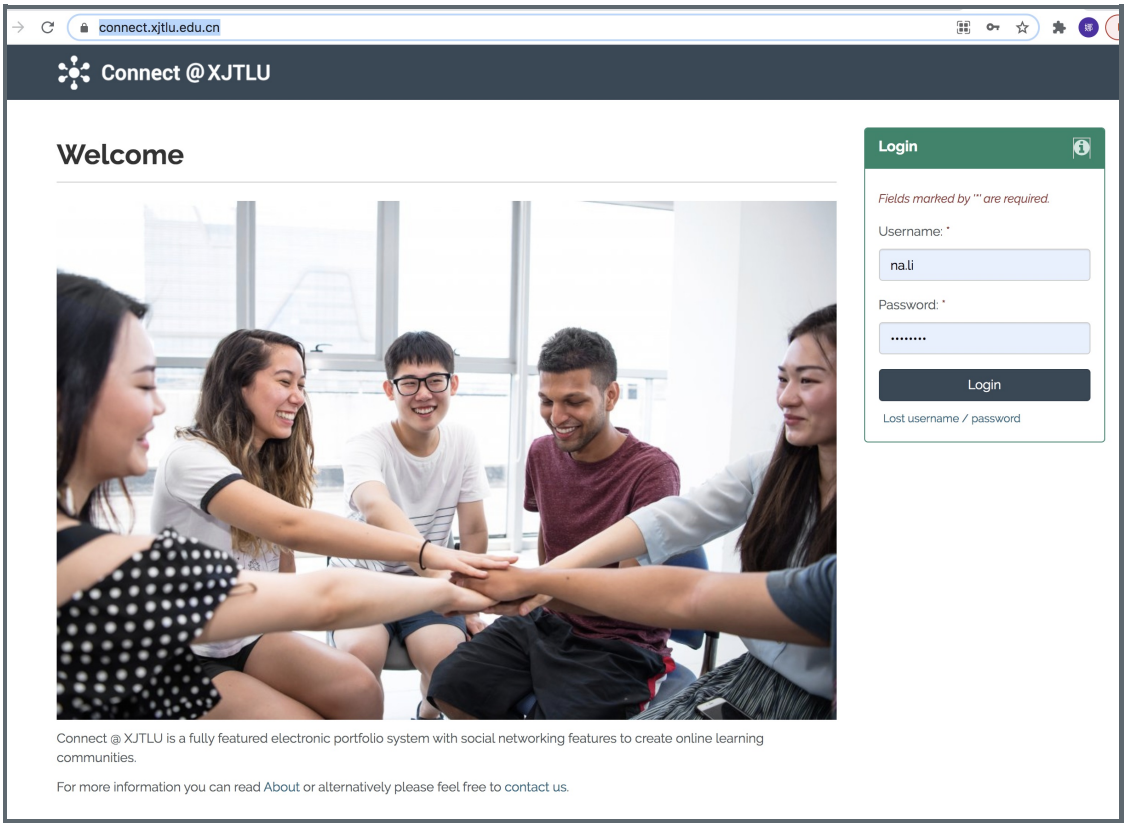

Table of Contents

Step 1: Access to the Connect system
Step 2: Create a page for your submission on the Connect system
Step 3: Edit content on the new personal Connect page
Step 4: Access to LM assignment

Step 1: Access to the Connect system

Click this link and access the Connect system with your XJTLU account:

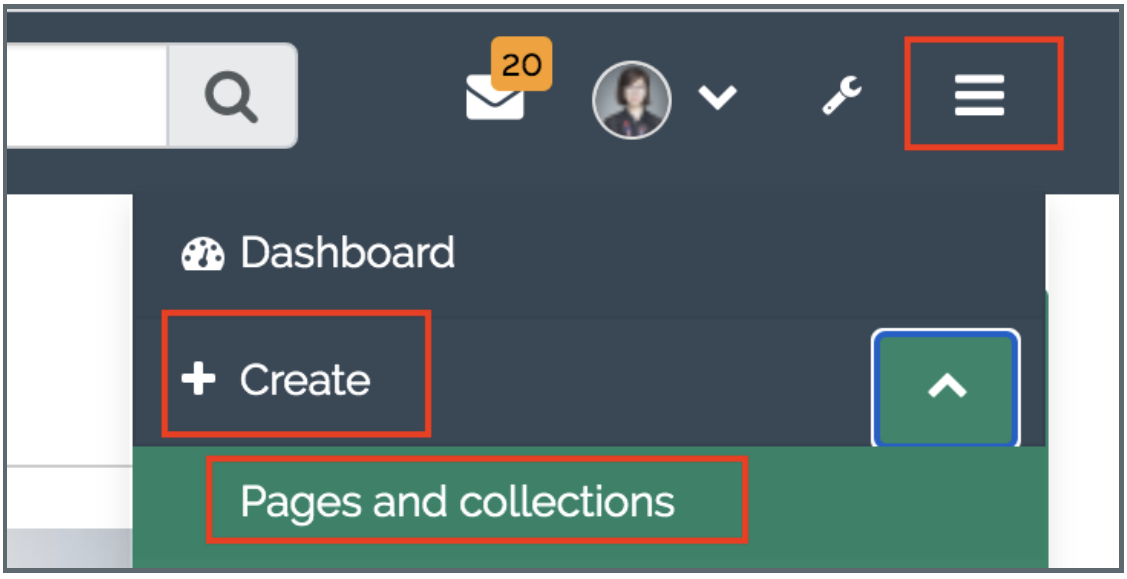

https://connect.xjtlu.edu.cn/

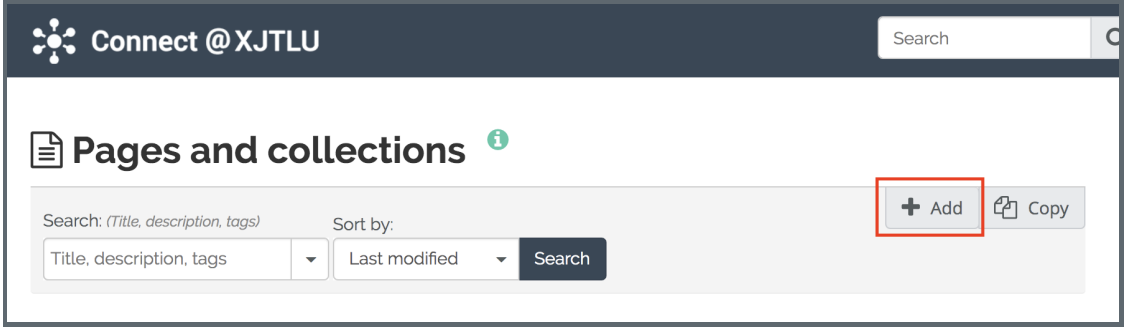

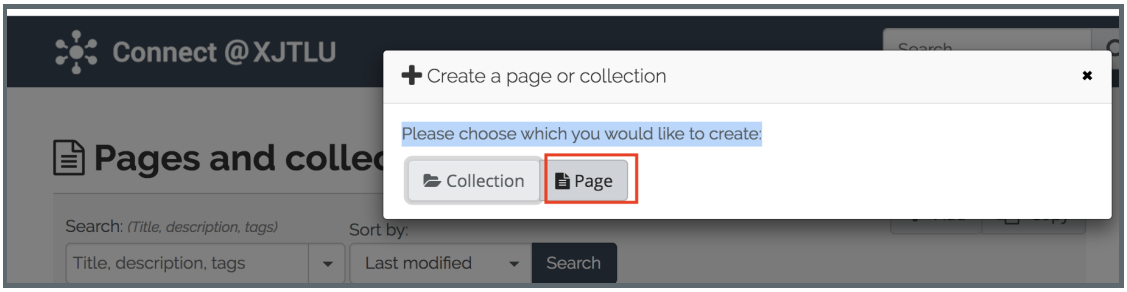

Step 2: Create a page for your submission on the Connect system

Click the menu icon beside your profile on the right top of the Connect home page, click "Create" and "Pages and collections".

Click the "Add" button on the page of"Pages and collections" and then select "page" on the pop-up window to create an empty page.

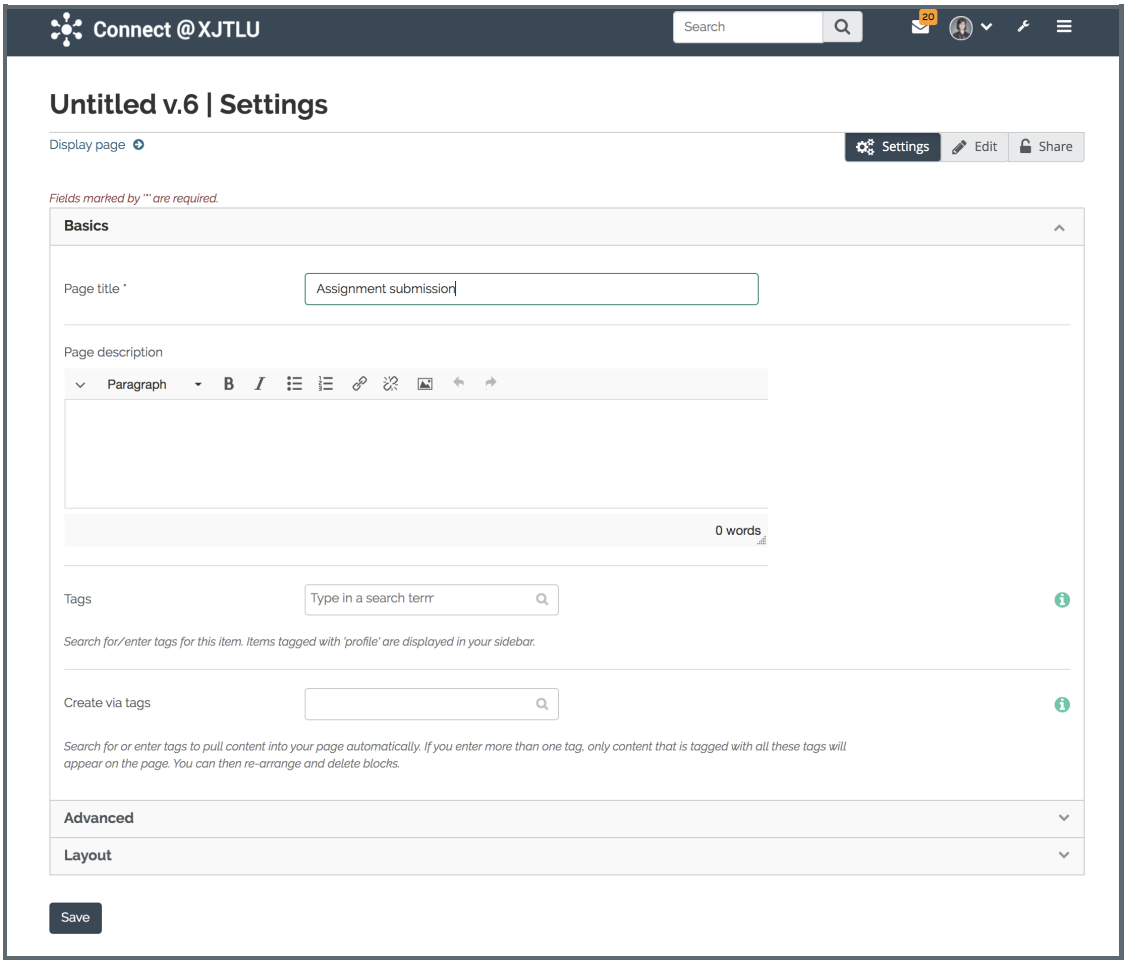

Step 3: Edit content on the new personal Connect page

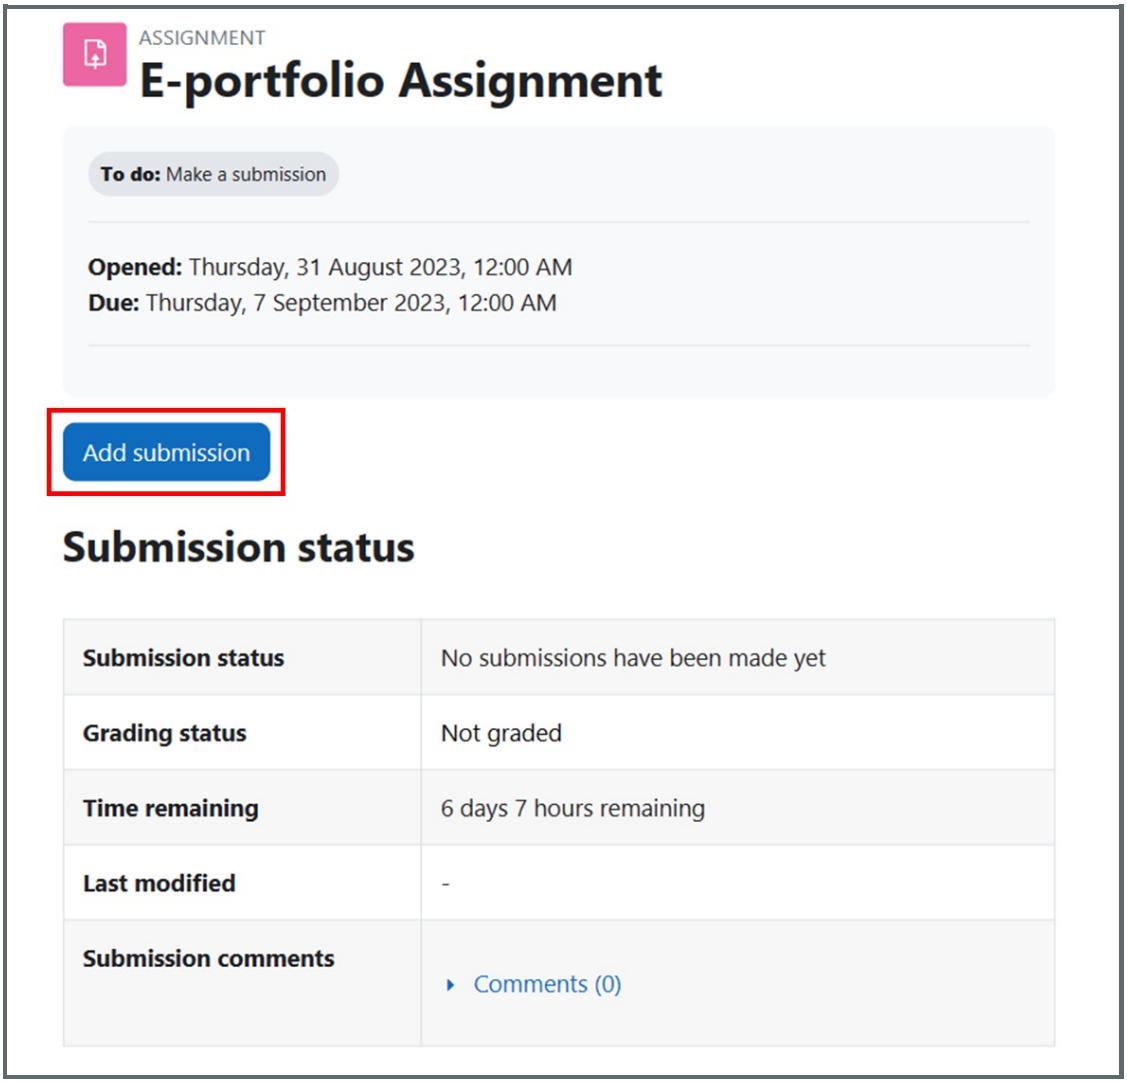

For details about how to edit the content of the page, please read this user guide: https://manual.mahara.org/en/21.04/portfolio/pages.html#edit-a-page

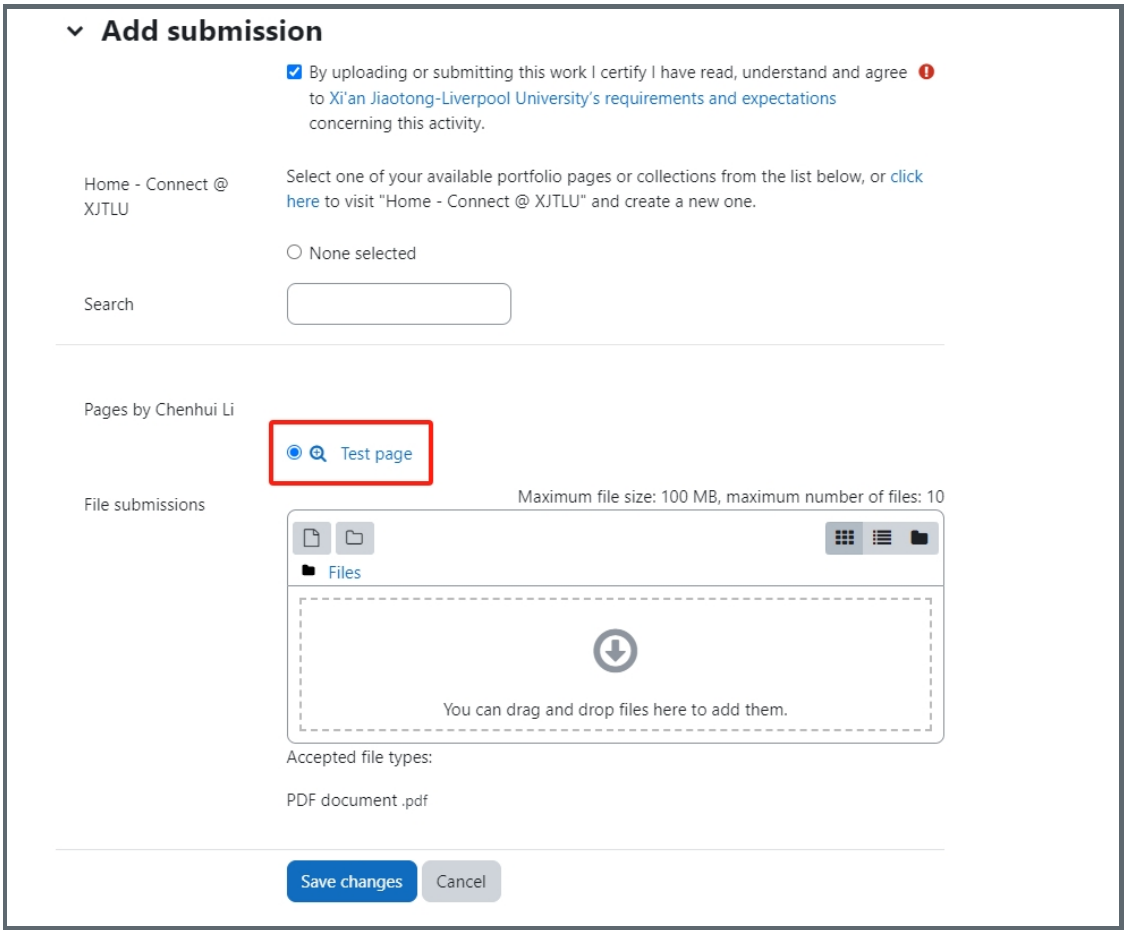

Please remember to save your changes to your page content.

Step 4: Access to LM assignment

Access to the LM and click "add submission". Then select the e-portfolio page you've created on the Connect system for your assignment to submit.

Tips:

If your teacher has set to lock the submission, then after you submit, your page content on Connect will not be editable.
