

Import Question Bank from another module page on Learning Mall

An example of importing Question Bank

Overview:

This guide will show you how to import Question Bank from another module page on Learning Mall, without importing any quiz activities.

If you have already importing activities and resources from a module, then the Question Bank of that module is imported by default. So you do not need to import Question Bank separately.

What to know:

Teachers can import Question Bank of previous modules on Learning Mall into a new module. Question Bank is a place in the module page where all the questions for quiz activities are saved. The questions in the Question Bank can be reused in other quiz activities.
