# How to create groups and add users

297 Yezi Yang Mon, Dec 11, 2023 Groups and Groupings 33003 0

An example of 'Create group'

## Overview:

This guide will show you how to create groups and add users.

## What to know:

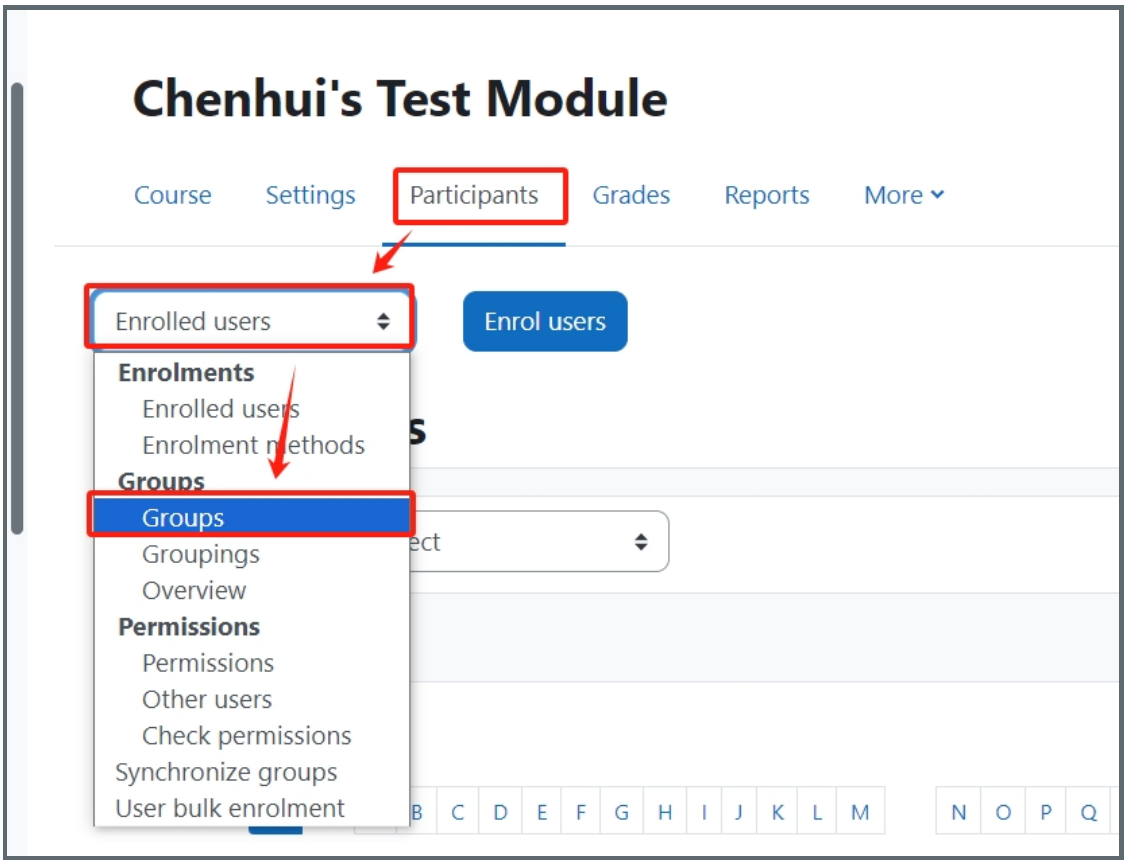

Teachers can create groups and add students in separate groups.

# Table of Contents

Step 1: Go to 'Groups' setting
Step 2: Click 'Create group' button
Step 3: Type in group name
Step 4: Add users
Step 5: Select users
Step 6: Users are added

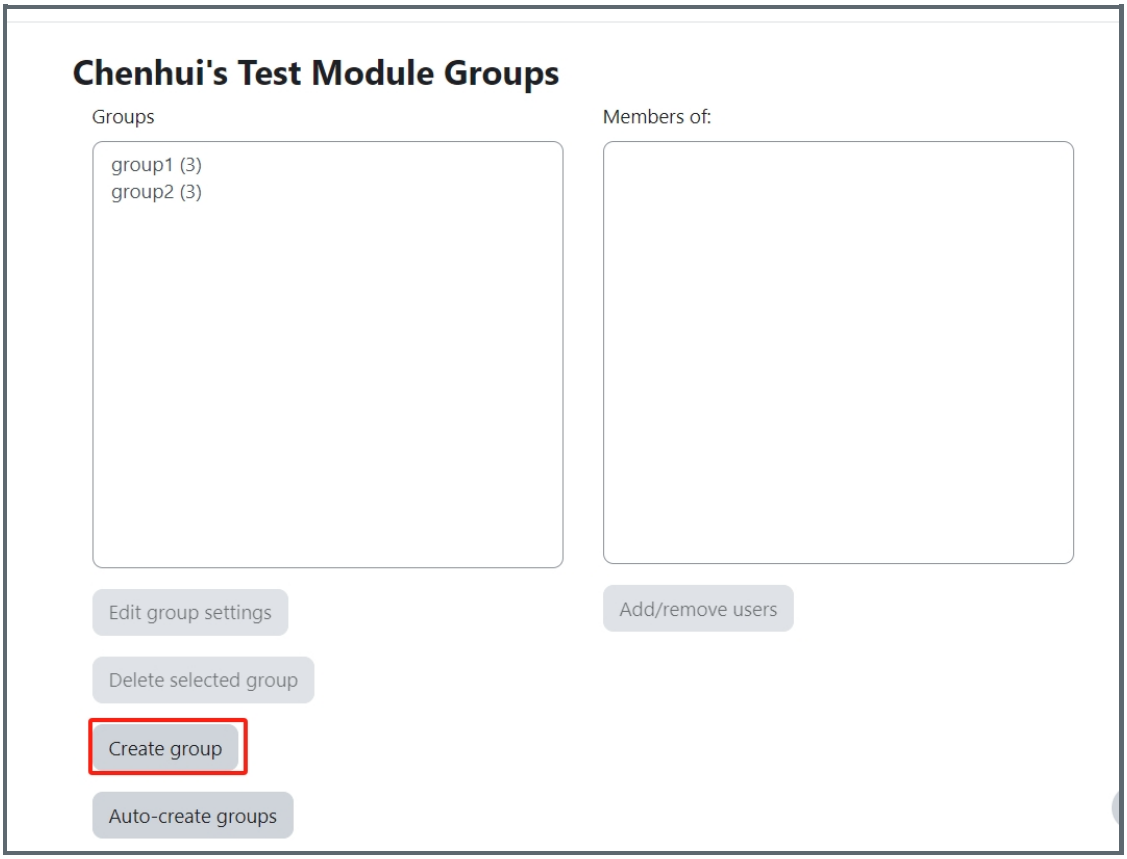

## Step 1: Go to 'Groups' setting

1. Click the 'Participants' tab on the top course menu
2. Open the 'Enrolled users' dropdown menu
3. Choose 'Groups' option

## Step 2: Click 'Create group' button

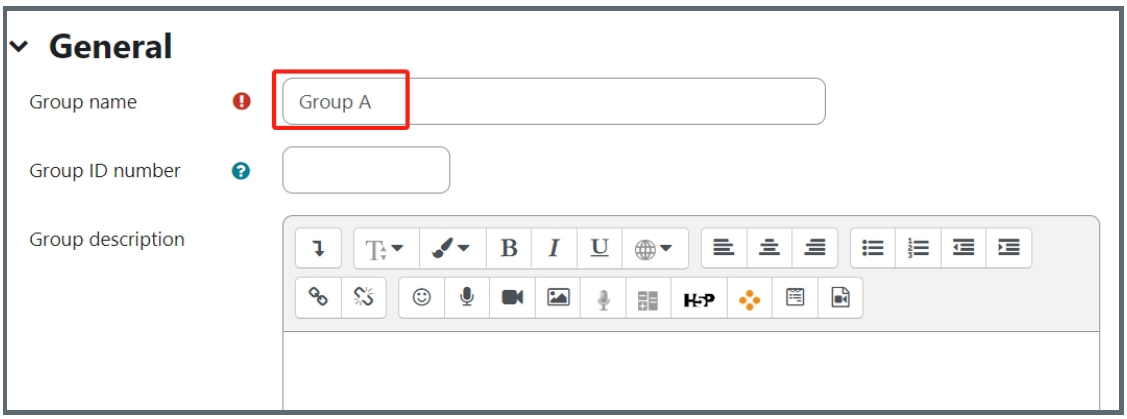

Click 'Create group' button

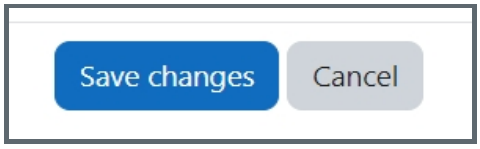

## Step 3: Type in group name

1. Type in the group name in the 'Group name' setting, e.g. 'Group A'.

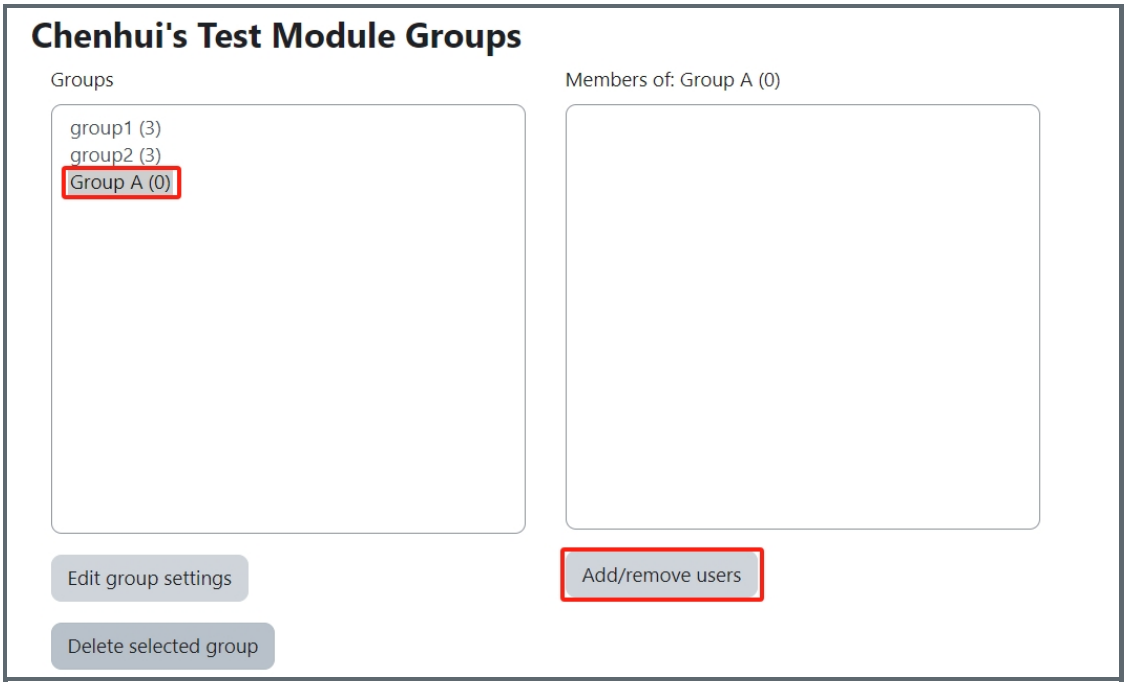

2. Click 'Save changes' button

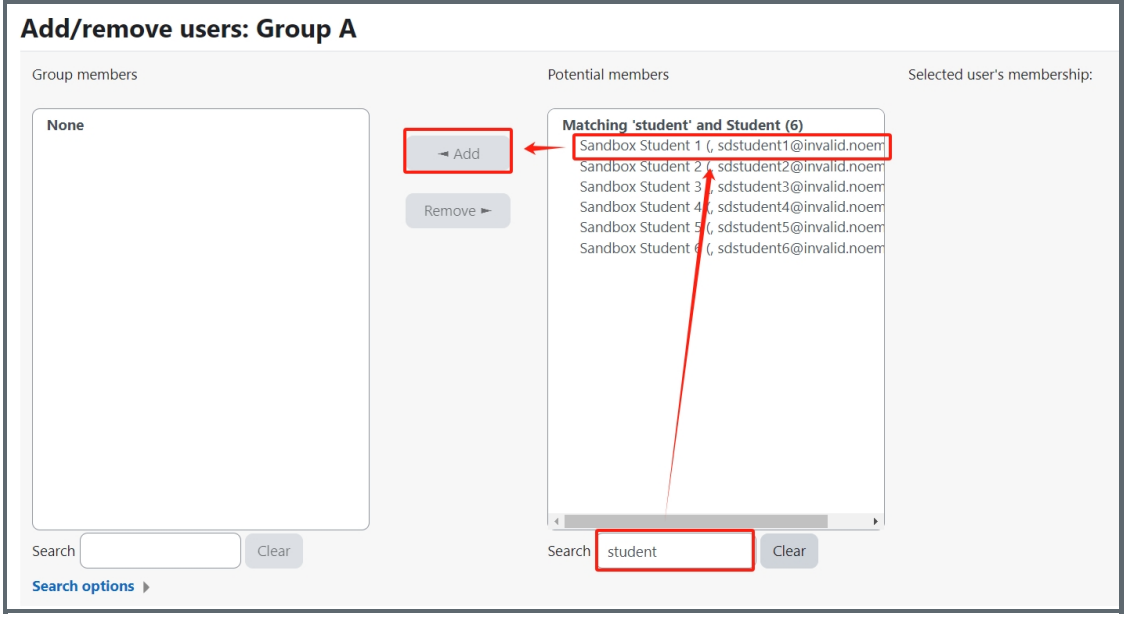

## Step 4: Add users

Then the new group is created. Please click on the group name. Then click 'Add/remove users' to add users in the group.

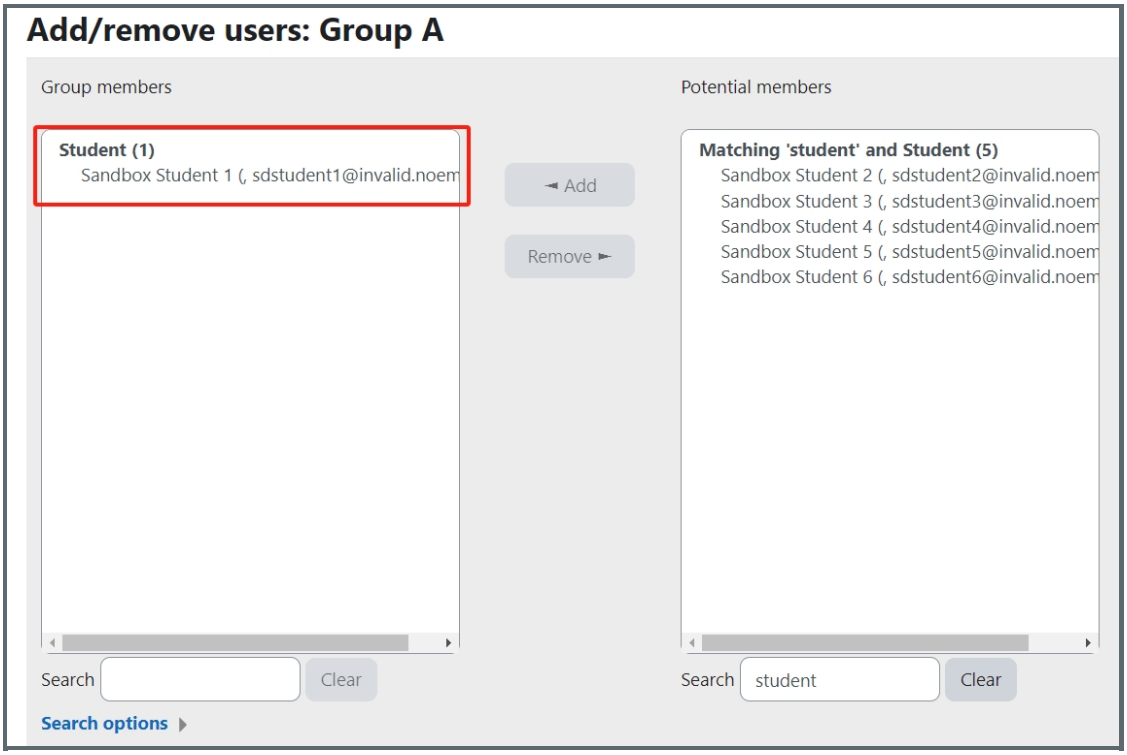

## Step 5: Select users

1. Search for the user in the search box
2. Select users in the 'Potential members' in the right box
3. Click 'Add' button

## Step 6: Users are added

Then the users are added into the group.
