

Zhumu Quick Start Guide

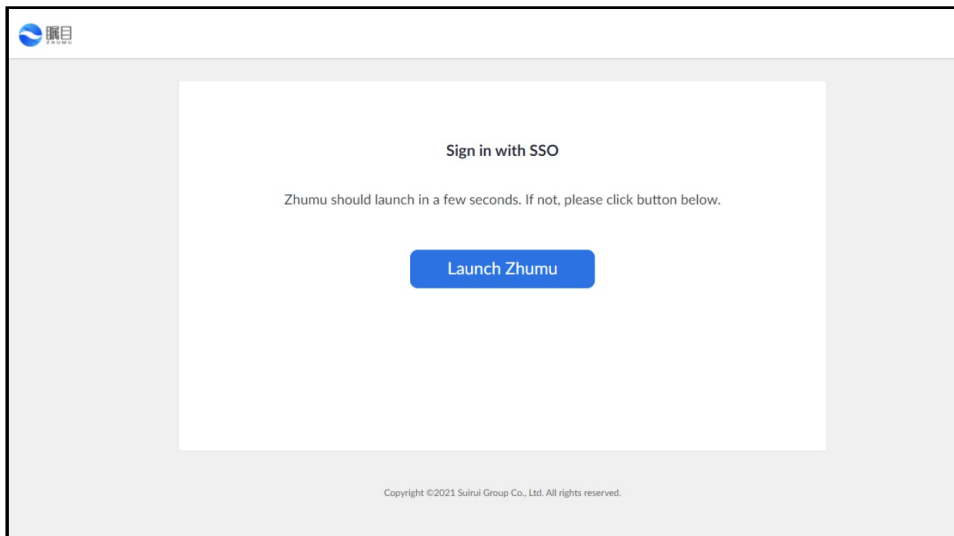

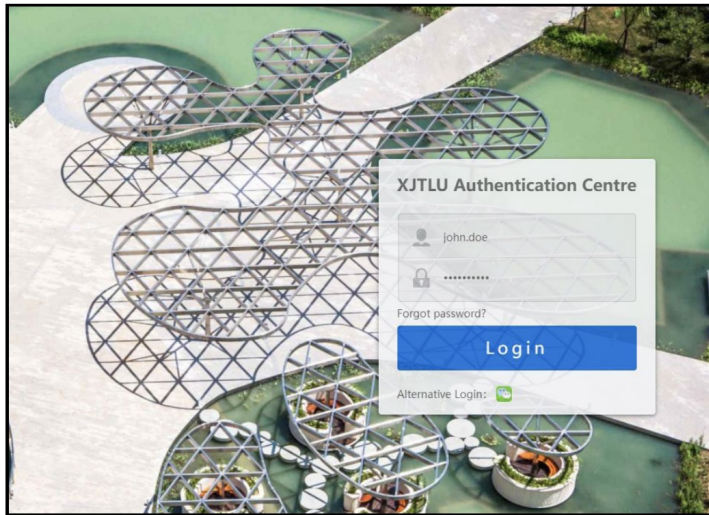

Step 1: Download and Install [Zhumu International Client](#) (skip if already installed)

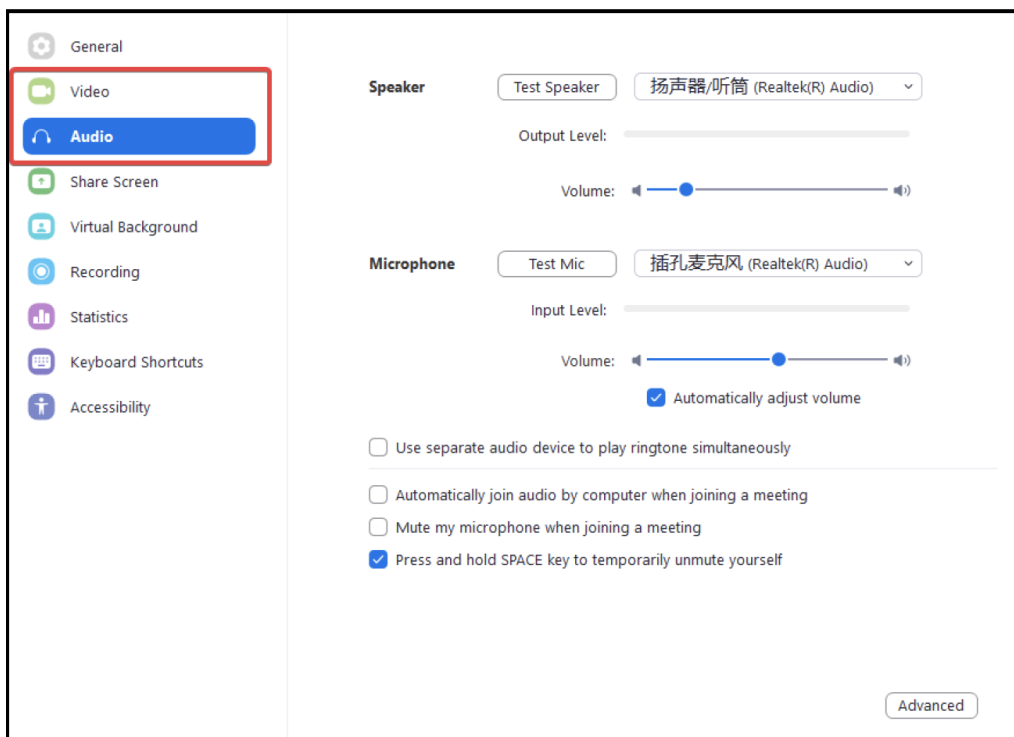

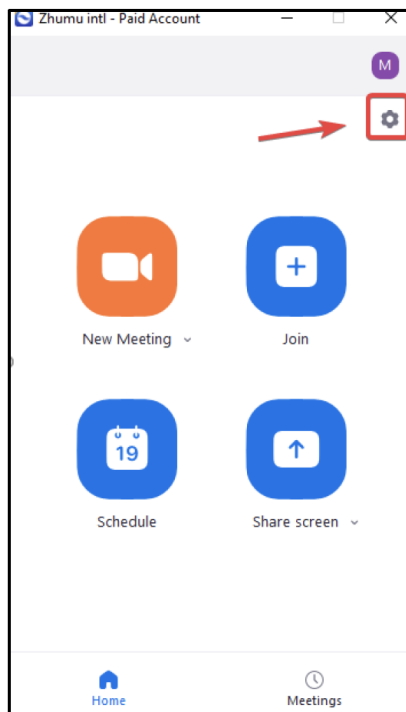

Step 2: Open the client, Click Sign In > Sign in with SSO > Enter "xjtlu.zhumu.com" in company domain field

Step 3: On the opening page, enter your XJTLU Account and password and click login, your Zhumu client will open in a few seconds.

Step 4: Done! Choose the function you need. If this is the first time you install the Zhumu International client, you may need to set up video and audio devices manually.
