An example of Grid format

Overview:

This guide will show you how to change the format of a module.

What to know:

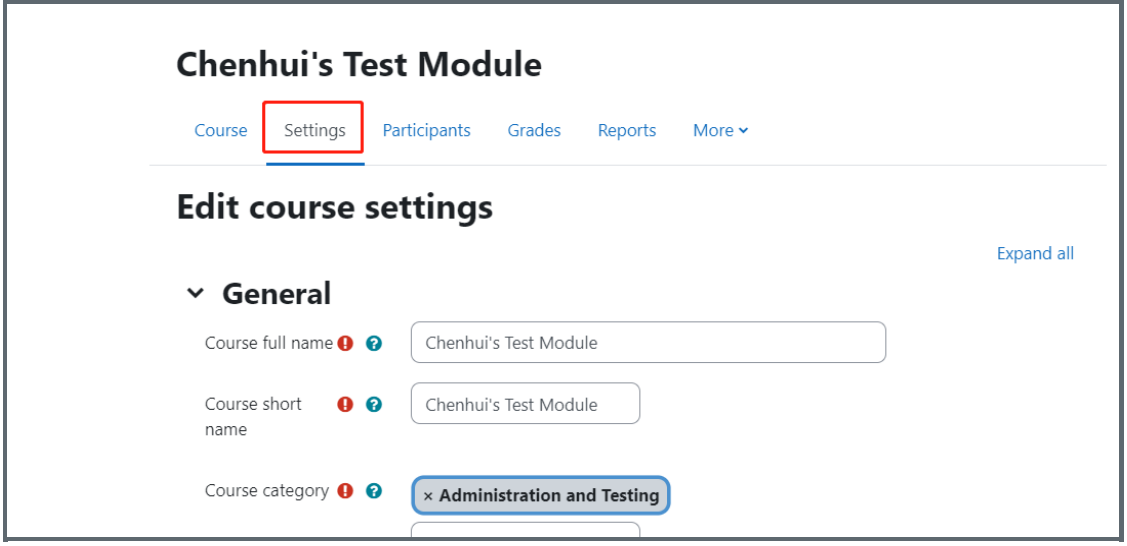

Learning Mall allows teachers to choose from different module format, such as topic format, grid format, etc.

Table of Contents

Step 1: Open the 'Settings' tab on the module page
Step 2: Choose 'grid' course format
Step 3: Save the change
Step 4: Module in grid format
Step 5: Turn on Edit mode of the module page
Step 6: Change images of the grids

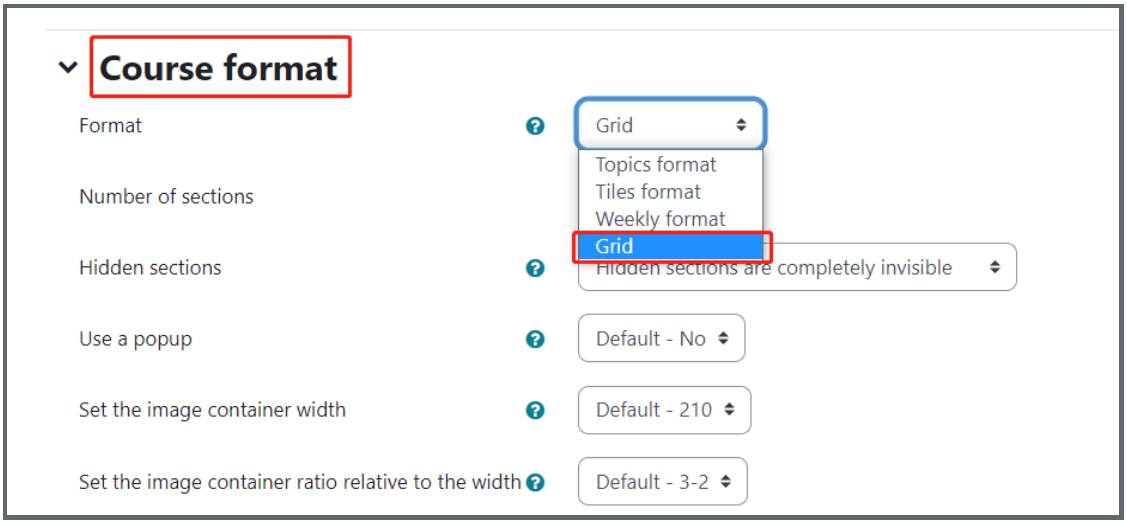

Step 1: Open the 'Settings' tab on the module page

Please click the 'Settings' tab on the top of the module page.

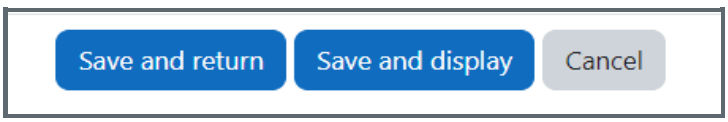

Step 2: Choose 'grid' course format

In the 'Course format' section, choose 'Grid' in the 'Format' setting.

Step 3: Save the change

Then click the 'Save' button at the end of the page.

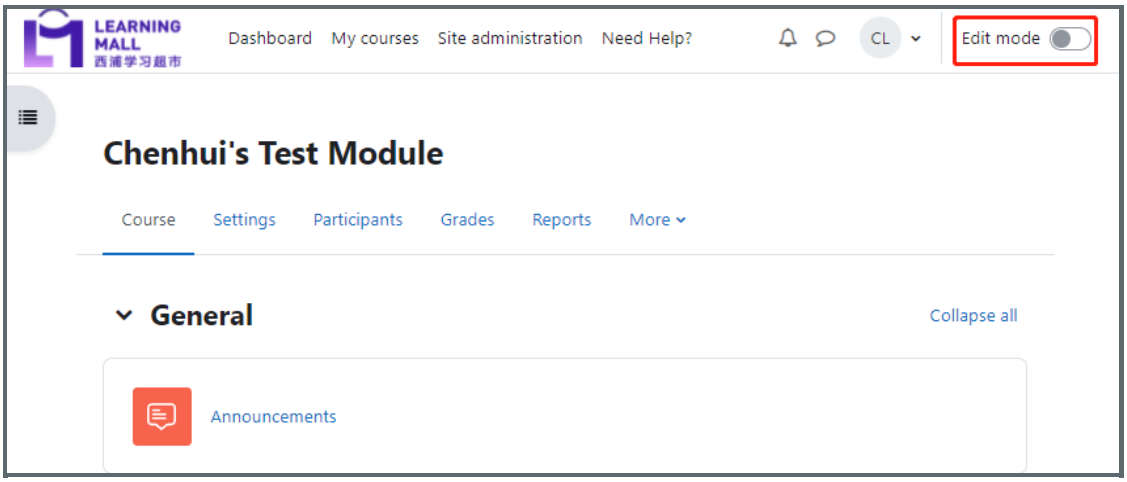

Step 4: Module in grid format

Then you will see your sections in the module page are changed to grid format.

Step 5: Turn on Edit mode of the module page

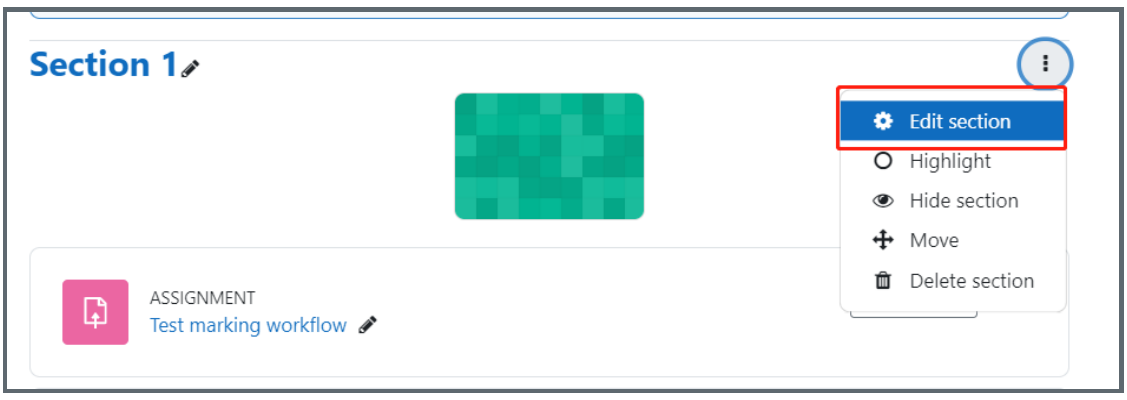

Please enable the 'Edit mode' button at the top right of the page.

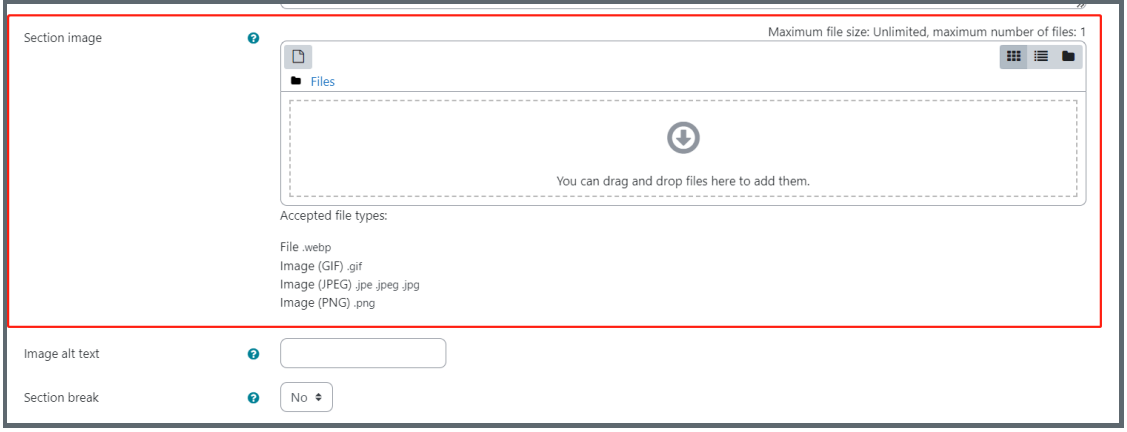

Step 6: Change images of the grids

Click 'Edit section' for each grid/section.

Upload an image to change the section image.
