

How to Exclude the Source of a Wrong Submission

The screenshot shows the Turnitin Similarity report interface. At the top, the document name is '37105_March 2022.docx' and the similarity score is '/100'. The report is titled 'All Sources' and shows 'Match 1 of 56'. The sources are listed in a table:

Source	Percentage
Submitted to Xianjiaton... Student Papers - 2 papers	83%
www.statista.com Internet Source - 33 urls	7%
WWW.statista.com Internet Source - 20 urls	6%
Www.statista.com Internet Source - 21 urls	6%
Submitted to The Unive... Student Papers - 14 papers	4%
Submitted to University... Student Papers - 7 papers	3%
Submitted to University... Student Papers - 2 papers	2%
Submitted to University... Student Papers - 7 papers	2%
Submitted to University... Student Papers - 7 papers	1%

A green arrow points to the 'Exclude Sources' button at the bottom of the list, which is highlighted with a green box.

An example of "Exclude Sources" function in the Turnitin Similarity report

Overview:

This guide will show you how to exclude the sources mistakenly submitted to the wrong modules, thus decreasing the similarity percentage of the current submission.

What to know:

After three trials in "Turnitin Website Checking", some students may attempt to do the informal checking via other accounts or to previous formal modules. Any document submitted to formal modules other than "Turnitin Website Checking" will be saved in the repository and checked against other submissions. Therefore, when the students upload their final draft to the right dropbox, the similarity percentage will be extremely high due to the previous drafts in the wrong modules already stored in the Turnitin repository. When the teachers view the similarity report of these submissions, they could exclude the sources of the wrong submission if confirmed by the student that the source is the same student's previous trial submission.

Table of Contents

Step 1: Open a similarity report

Step 2: Reveal all sources

Step 3: Check the source

Step 4: Confirm the writer of the source

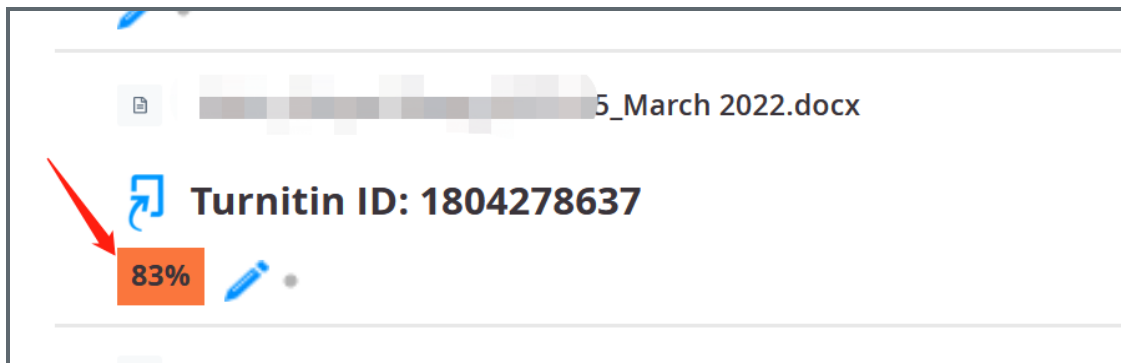

Step 5: Exclude the source with the high percentage

Step 6: Updated match overview

Step 7: Restore the exclusion

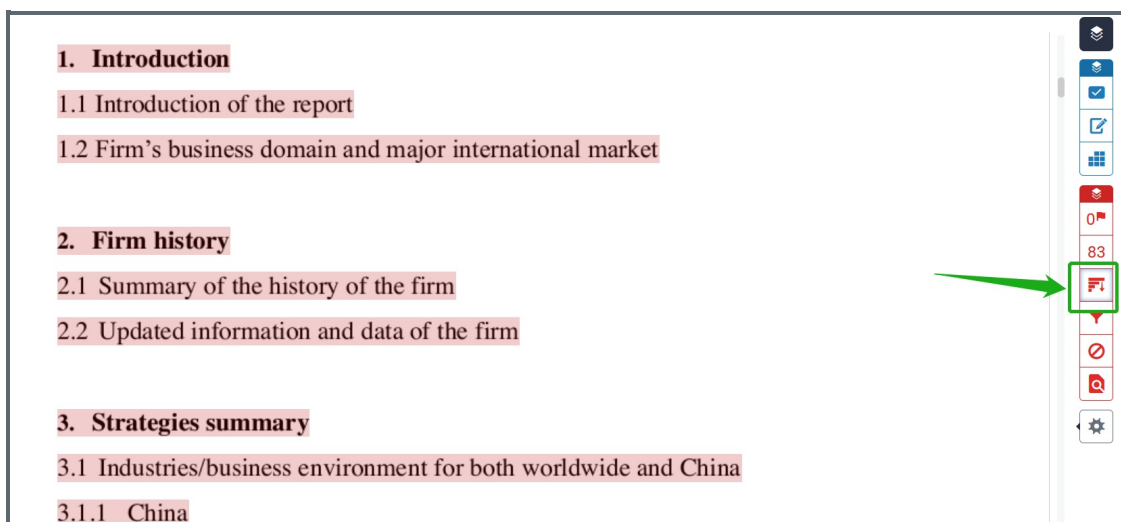

Step 1: Open a similarity report

Click on the similarity percentage and the similarity report will be opened in a new webpage.

Step 2: Reveal all sources

The similarity layer is usually hidden on the right side. Click the "All sources" button to unhide the side panel. All similar sources will then be revealed in the sidebar.

Step 3: Check the source

1. Click on the first source with the highest similarity percentage. A detailed description will be displayed with the student's name and dropbox information.
2. Click on the source button to download the source document.

The screenshot shows a plagiarism checker interface. On the left, a report preview is visible with the title "The Report Title" and a green box around the source "Submitted to Xianjiaotong-Liverpool University...". On the right, a sidebar titled "All Sources" displays a list of matches. A green arrow points to the first match, "Submitted to Xianjiaotong-L...", which has an 83% match rate. Below it, "www.statista.com" is listed with a 7% match rate. The interface includes various icons for navigation and settings.

Source	Match Percentage
Submitted to Xianjiaotong-Liverpool University... (Student Paper)	83%
Submitted to Xianjiaotong-Liverpool University... (Student Paper)	<1%
www.statista.com (Internet Source - 33 urls)	7%
www.statista.com (Internet Source - 20 urls)	6%
www.statista.com (Internet Source - 21 urls)	6%
Submitted to The University... (Student Papers - 14 papers)	4%
Submitted to University... (Student Papers - 7 papers)	3%
Submitted to University... (Student Papers - 2 papers)	2%
Submitted to University... (Student Papers - 7 papers)	2%

Step 4: Confirm the writer of the source

After downloading the file, you could check if the source is the previous wrong submission by the same student.

The screenshot shows a "Source Release" dialog box overlaid on the plagiarism checker interface. The dialog box contains an information icon, the title "Source Release", and a message: "The original copy of this paper was submitted to your class [redacted] in the English Communication and Academic Skills II (Moodle PP) in the DB4: WCW1 - Source Integration Chart (Moodle PP) assignment on 27-Mar-2022 01:29AM." At the bottom of the dialog box, there are two buttons: "Download original" (highlighted with a green box) and "Cancel".

Step 5: Exclude the source with the high percentage

After confirming the source, click the "Exclude" button and then choose the source you need to exclude.

The screenshot displays a software interface for managing sources. At the top, a red header reads "All Sources" with a close icon. Below it, a grey bar shows "Match 1 of 56". The main area is a list of sources with checkboxes and similarity percentages:

Source	Similarity
<input checked="" type="checkbox"/> Submitted to Xianjaton... Student Papers - 2 papers	83%
<input type="checkbox"/> www.statista.com Internet Source - 33 urls	7%
<input type="checkbox"/> WWW.statista.com Internet Source - 20 urls	6%
<input type="checkbox"/> Www.statista.com Internet Source - 21 urls	6%
<input type="checkbox"/> Submitted to The Unive... Student Papers - 14 papers	4%
<input type="checkbox"/> Submitted to University... Student Papers - 7 papers	3%
<input type="checkbox"/> Submitted to University... Student Papers - 2 papers	2%
<input type="checkbox"/> Submitted to University... Student Papers - 7 papers	2%
<input type="checkbox"/> Submitted to University... Student Papers - 2 papers	1%

At the bottom, there is a red button labeled "Exclude (2)" and a white button labeled "Cancel". Below these buttons, it says "Recalculate originality score". A sidebar on the left contains various icons, including a gear icon at the bottom. A red bar in the sidebar displays the number "83".

Step 6: Updated match overview

After the exclusion, the match overview is now updated to a lower similarity percentage accordingly.

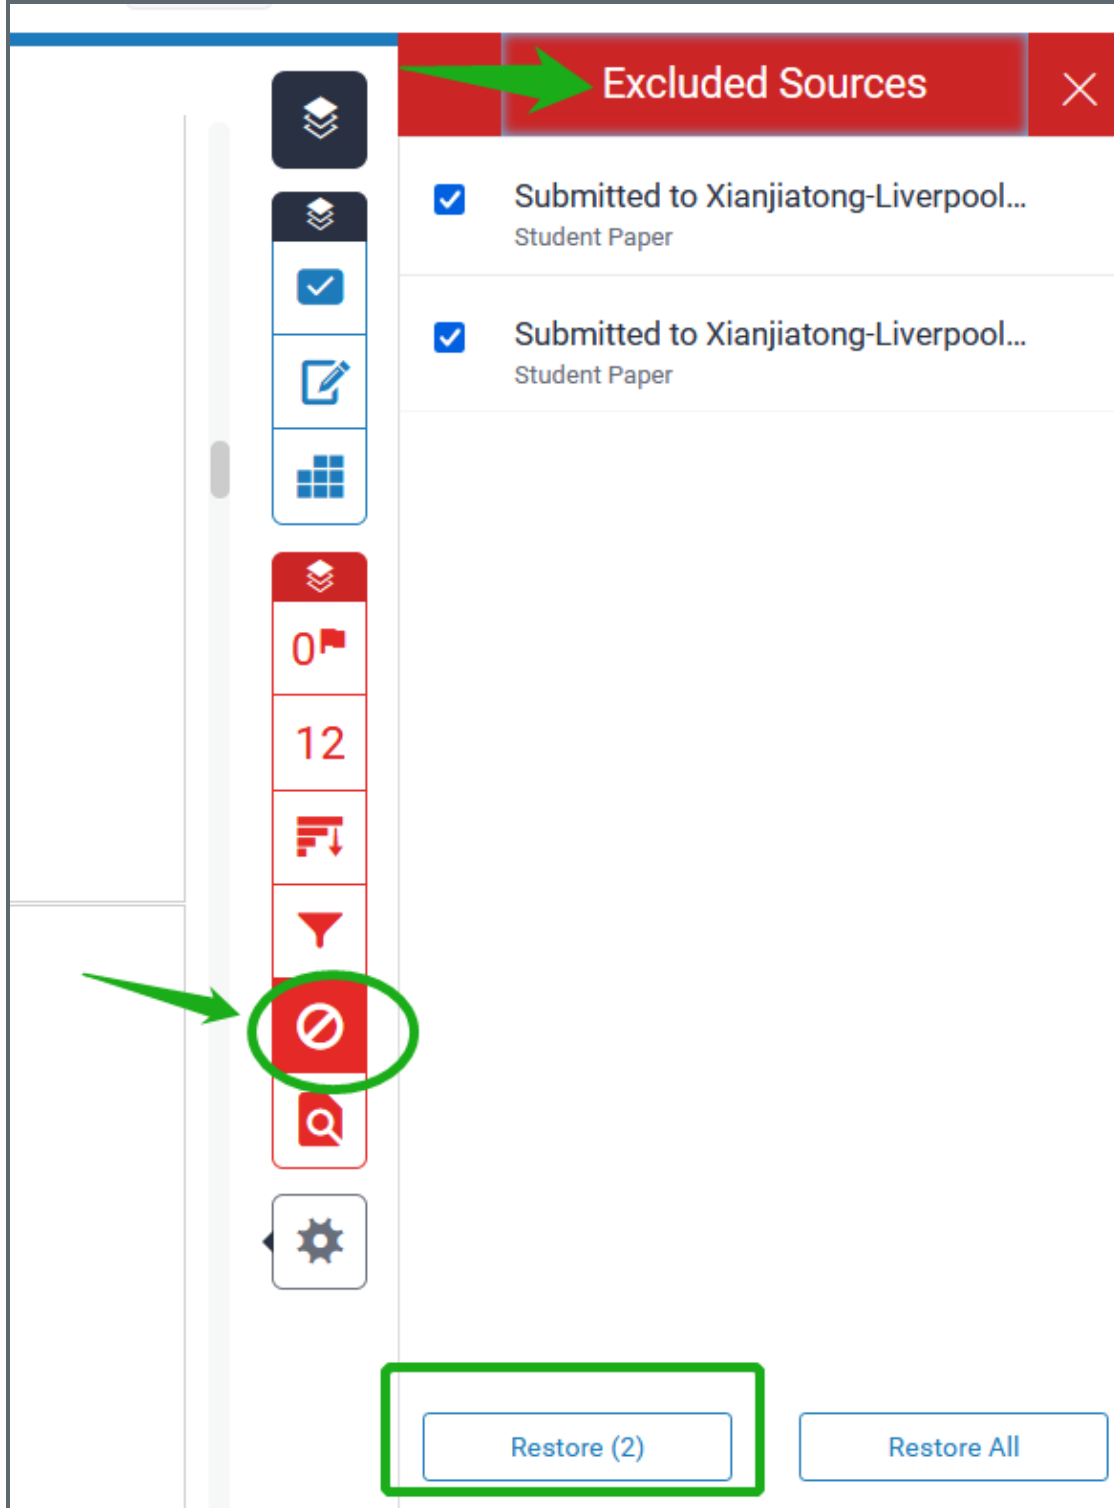

The screenshot shows a software interface with a sidebar on the left and a main content area on the right. The sidebar contains several icons, including a gear icon at the bottom. A red vertical bar highlights a section of the sidebar, and a green circle highlights the number '12' within this section. A green arrow points from the left towards the '12'. The main content area is titled 'All Sources' and shows a list of sources with their respective percentages. The list is as follows:

Source	Percentage
www.statista.com Internet Source - 33 urls	7%
WWW.statista.com Internet Source - 20 urls	6%
Www.statista.com Internet Source - 21 urls	6%
Submitted to The Unive... Student Papers - 14 papers	4%
Submitted to University... Student Papers - 7 papers	3%
Submitted to University... Student Papers - 2 papers	2%
Submitted to University... Student Papers - 7 papers	2%
Submitted to University... Student Papers - 3 papers	1%
Submitted to Fachhoch... Student Paper	1%

At the bottom of the main content area, there is a button labeled 'Exclude Sources'.

Step 7: Restore the exclusion

If you need to recall the excluding, click on the "excluded sources" button in the similarity layer and restore the previous excluded sources. Afterwards, the match overview will be changed back the previous percentage.

Tips:

Only the instructor/Teacher role can make the exclusion of the wrong submission and the changes will be saved in the Turnitin system.
