An example of updating questions

## Overview:

This guide will show you how to bulk update students' grades after the quiz is closed, especially when it is caused by the wrong question.

## What to know:

It can only be used to bulk recalculate the students' grades if you have a coincidence of wrong questions, such as in the following situations:

1. The correct answer to the question was set to the wrong option (Set grade none to the wrong option, grade 100% to the correct one)
2. There is more than one correct answer to the question (Set grade 100% to the correct options)
3. One of the questions is wrong, and you want to give a full mark to all (Set grade 100% to all options)

A screenshot of the 'Example Quiz' interface. At the top, there's a pink 'QUIZ' icon and the title 'Example Quiz'. Below it is a navigation menu with tabs: 'Quiz', 'Settings', 'Questions' (highlighted with a red box), 'Results', 'Question bank', and 'More'. The main content area is titled 'Questions' and contains a yellow warning banner: 'You cannot add or remove questions because this quiz has been attempted. (Attempts: 1)'. Below the banner, it says 'Questions: 1 | This quiz is open'. On the right, there's a 'Maximum grade' field set to '100.00' and a 'Save' button. Below that, there are buttons for 'Repaginate' and 'Select multiple items'. On the right side, it says 'Total of marks: 100.00' and a 'Shuffle' checkbox. At the bottom, there's a list of questions. The first question is 'Multiple choice (one-answer) Which season is the coldest?'. It has a red box around the 'Edit' icon (a gear) and a red arrow pointing to it from the 'Questions' tab. To the right of the question, there's a dropdown menu set to 'Always latest', a magnifying glass icon, and a grade field set to '100.00' with an edit icon.

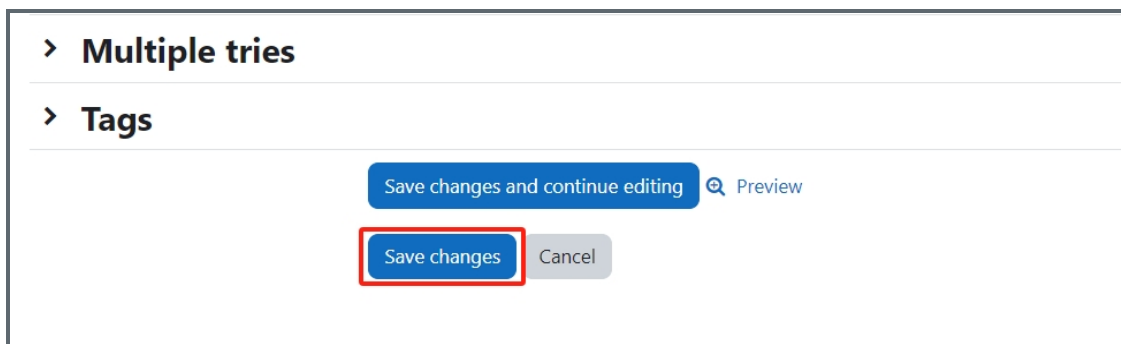

### Step 3: Edit the question grade

Edit the grade for each choice as you want.

**Important:** You can't change between "Multiple Choice" and "One answer only". That will cause errors.

Click to save the change.

#### Step 4: Click "Regrade All"

1. Go to the "Results" tab.
2. Click the "Regrade all" button which is above the attempts table:
