An example of updating questions

## Overview:

This guide will show you how to bulk update students' grades after the quiz is closed, especially when it is caused by the wrong question.

## What to know:

It can only be used to bulk recalculate the students' grades if you have a coincidence of wrong questions, such as in the following situations:

1. The correct answer to the question was set to the wrong option (Set grade none to the wrong option, grade 100% to the correct one)
2. There is more than one correct answer to the question (Set grade 100% to the correct options)
3. One of the questions is wrong, and you want to give a full mark to all (Set grade 100% to all options)

- [Step 4: Click "Regrade All"](#)

### Step 1: Go to the Quiz

Click the quiz you want to change.

Receive a grade

Opened: Wednesday, 8 November 2023, 1:31 PM

### Step 2: Find the questions

1. Click the "Questions" tab on the menu.
2. Find the question you want to make a change, click the "Edit" icon:

The screenshot shows the 'Example Quiz' interface. At the top, there is a navigation menu with tabs: 'Quiz', 'Settings', 'Questions' (highlighted with a red box), 'Results', 'Question bank', and 'More'. Below the menu, a yellow banner states: 'You cannot add or remove questions because this quiz has been attempted. (Attempts: 1)'. The main content area shows 'Questions: 1 | This quiz is open'. On the right, there are controls for 'Maximum grade' (100.00) and a 'Save' button. Below this, there are buttons for 'Repaginate' and 'Select multiple items', and a 'Total of marks: 100.00' indicator. A 'Shuffle' checkbox is also present. The question list shows 'Page 1' and a single question: '1 [Edit icon] Multiple choice (one-answer) Which season is the coldest?'. The 'Edit' icon (a gear) is highlighted with a red box, and a red arrow points from the 'Questions' tab to it. To the right of the question, there is a dropdown menu set to 'Always latest' and a grade field set to '100.00' with an edit icon.

### Step 3: Edit the question grade

Edit the grade for each choice as you want.

**Important:** You can't change between "Multiple Choice" and "One answer only". That will cause errors.

The screenshot shows a quiz editor interface. A dropdown menu is open for a choice, displaying a list of percentages from 10% to 100%. The '100%' option is highlighted with a blue background and a red border. A red arrow points upwards from the 'None' option at the bottom of the menu to the '100%' option. Below the dropdown, a red text box contains the message 'Correct the grade for the right choice'. The interface includes various editing tools like bold, italic, underline, and list creation, as well as a 'Words:0' counter at the bottom.

Click to save the change.

The screenshot shows a quiz editor interface with two expandable sections: 'Multiple tries' and 'Tags'. At the bottom, there are three buttons: 'Save changes and continue editing' (blue), 'Preview' (with a magnifying glass icon), and 'Save changes' (blue, highlighted with a red border). A 'Cancel' button is also present next to the 'Save changes' button.

#### Step 4: Click "Regrade All"

1. Go to the "Results" tab.
2. Click the "Regrade all" button which is above the attempts table:
