An example of exported students list

Overview:

This guide will show you how to download the students' list from the course module.

What to know:

Downloading the students' list is part of the exporting grades function. If the teacher only needs the students' names, ID numbers and email addresses, this guide will show you the steps on how to download without the grades information.

[Step 1: Open the Grade view](#)

[Step 2: Export an Excel spreadsheet](#)

[Step 3: Disable all selections](#)

[Step 4: Exported Students' list](#)

Step 1: Open the Grade view

In your module area, click the "Grades" button on the course-level menu.

Keep up-to-date with important module news and announcements.

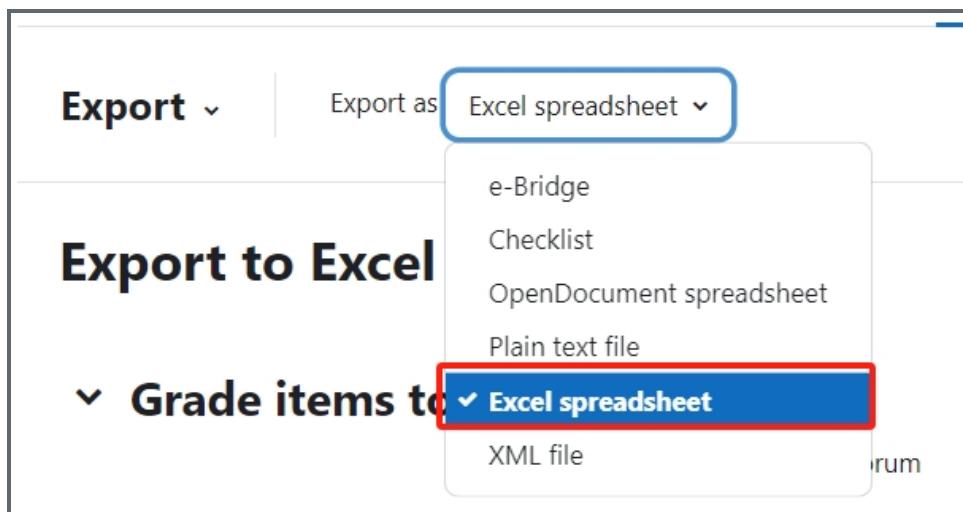

Step 2: Export an Excel spreadsheet

Open the dropdown list on the left side, and choose "Export"

Choose the "Excel spreadsheet".

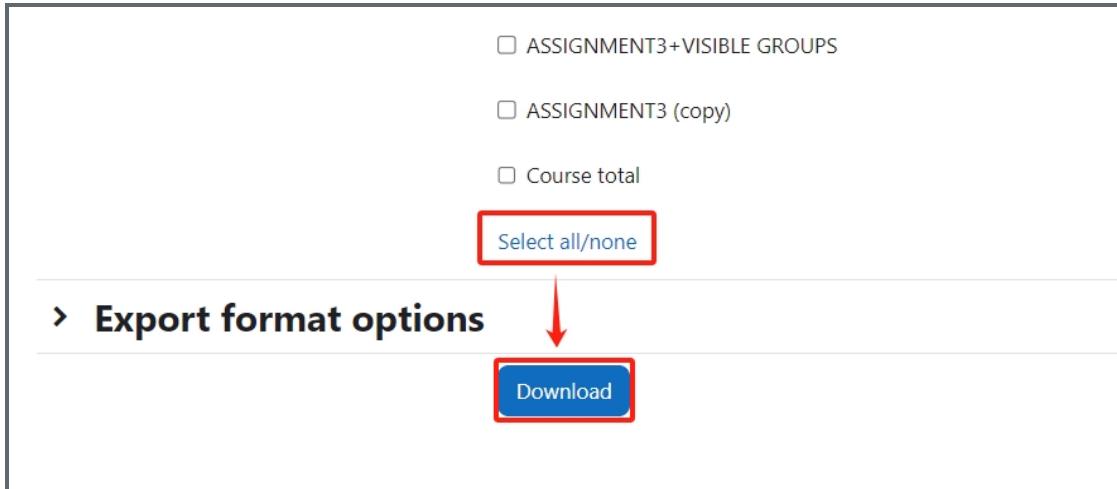

The screenshot shows the Moodle Gradebook interface. At the top, there are tabs: Course, Settings, Participants, and Grades. The 'Participants' tab is active. On the left, a dropdown menu is open under 'Grader report'. The menu items are: View, Grader report (which is selected and highlighted in blue), Grade history, Outcomes report, Overview report, Single view, Grade summary, User report, Setup, Gradebook setup, Course grade settings, Preferences: Grader report, More, Scales, Outcomes, Grade letters, Import, and Export. The 'Export' option is highlighted with a red box and a red arrow points to it from the previous step.

The screenshot shows the 'Export to Excel' dialog box. At the top, it says 'Export as' and 'Excel spreadsheet' is selected. Below that, it says 'Export to' and 'Grade items to'. The 'Grade items to' dropdown is highlighted with a red box. The options in the dropdown are: e-Bridge, Checklist, OpenDocument spreadsheet, Plain text file, Excel spreadsheet (which is selected and highlighted in blue), and XML file.

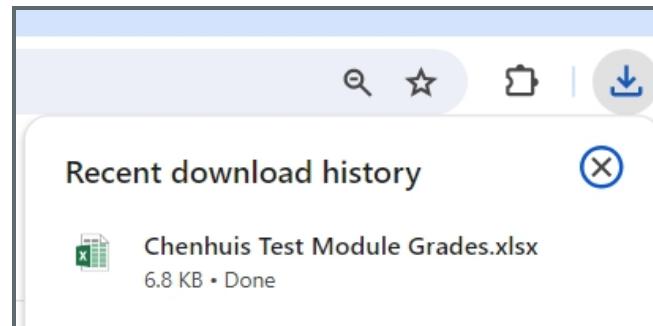

Step 3: Disable all selections

Scroll down to the bottom of the page and disable all the activities listed above. Then click the "Download" button.

Step 4: Exported Students' list

Now you can see that the file is being downloaded. Later you could open it in the downloaded folder in your computer.

Later after downloading, you could find the students' information e.g, the first names, ID numbers and Email address are all included in the file.
