An example of exported students list

Overview:

This guide will show you how to download the students' list from the course module.

What to know:

Downloading the students' list is part of the exporting grades function. If the teacher only needs the students' names, ID numbers and email addresses, this guide will show you the steps on how to download without the grades information.

Table of Contents

[Step 1: Open the Grade view](#)

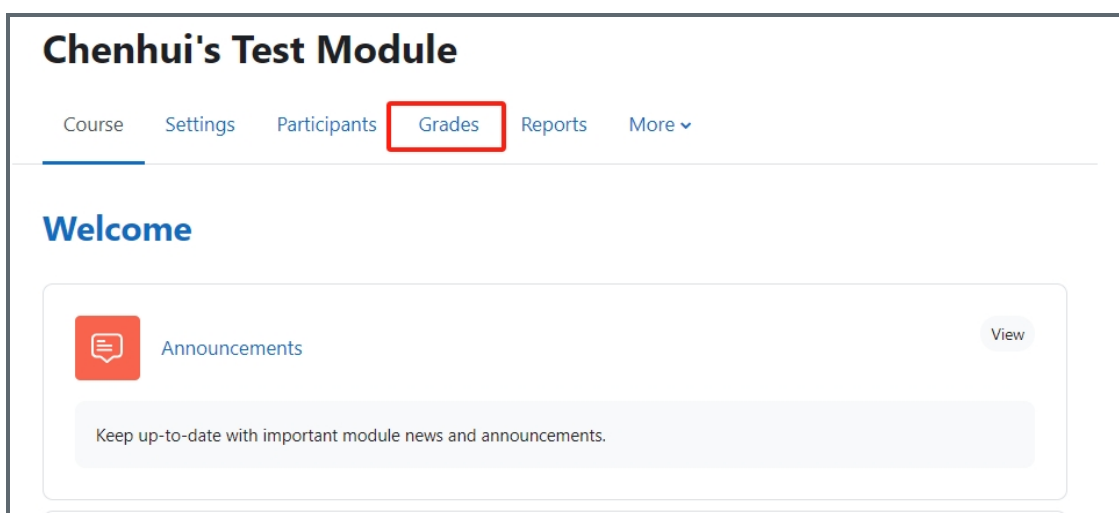

[Step 2: Export an Excel spreadsheet](#)

[Step 3: Disable all selections](#)

[Step 4: Exported Students' list](#)

Step 1: Open the Grade view

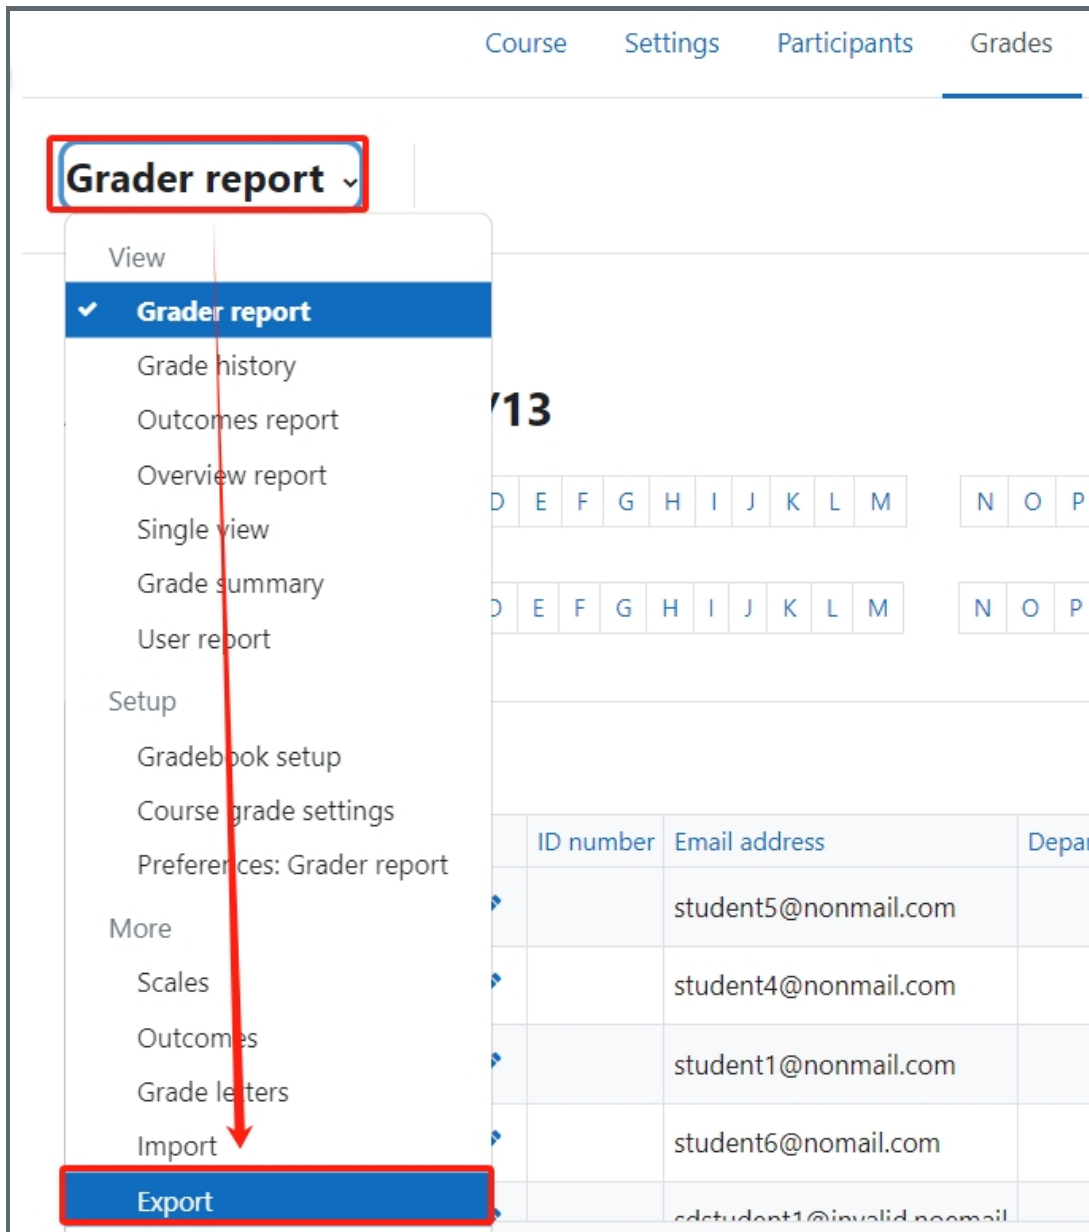

In your module area, click the "Grades" button on the course-level menu.

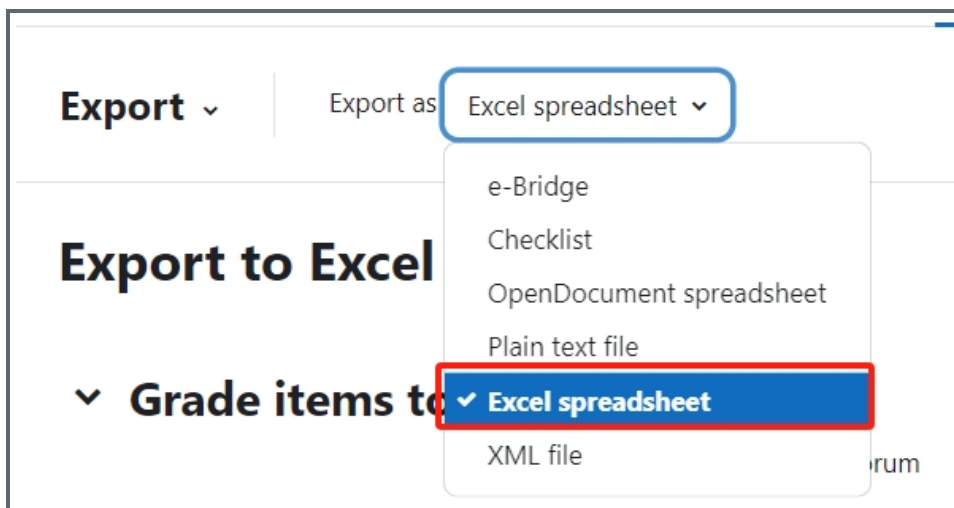

Step 2: Export an Excel spreadsheet

Open the dropdown list on the left side, and choose "Export"

Choose the "Excel spreadsheet".

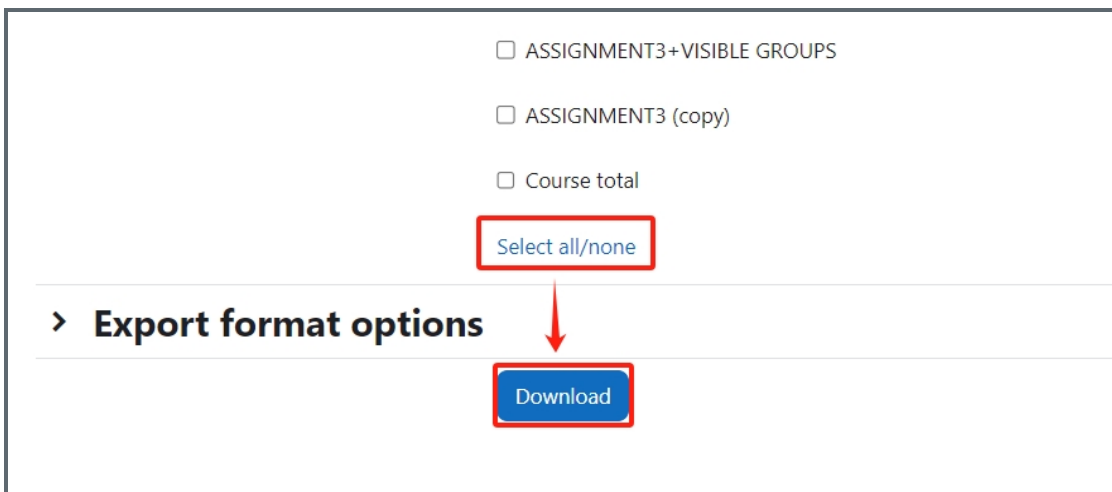

The screenshot shows a web interface with a navigation bar at the top containing "Course", "Settings", "Participants", and "Grades". The "Grades" tab is active. On the left, a dropdown menu titled "Grader report" is open. The menu is divided into sections: "View", "Setup", and "More". The "Export" option at the bottom of the "More" section is highlighted with a red box. A red arrow points from the "Grader report" dropdown title down to the "Export" option. In the background, a table with columns labeled "ID number", "Email address", and "Depart" is visible, containing several rows of student data.

The screenshot shows a dialog box titled "Export to Excel". At the top, there is a dropdown menu labeled "Export" and a field labeled "Export as" with "Excel spreadsheet" selected. Below this, a list of export options is shown: "e-Bridge", "Checklist", "OpenDocument spreadsheet", "Plain text file", "Excel spreadsheet" (which is selected and highlighted with a red box), and "XML file". The text "Grade items to" is partially visible at the bottom left of the dialog.

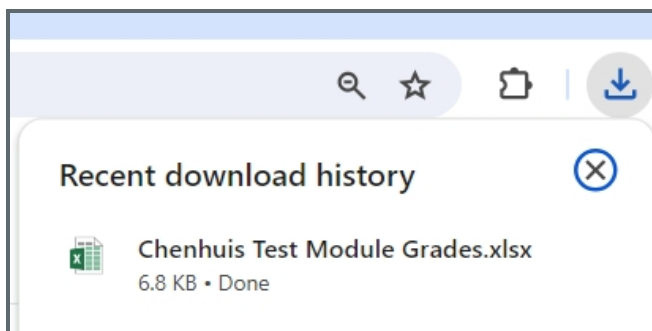

Step 3: Disable all selections

Scroll down to the bottom of the page and disable all the activities listed above. Then click the "Download" button.

Step 4: Exported Students' list

Now you can see that the file is being downloaded. Later you could open it in the downloaded folder in your computer.

Later after downloading, you could find the students' information e.g, the first names, ID numbers and Email address are all included in the file.
