The following steps will illustrate how to download Tencent Meeting from the official website:

1. Select the left-hand side button to download a full-fledged version .

2. Choose the proper version for your computer.

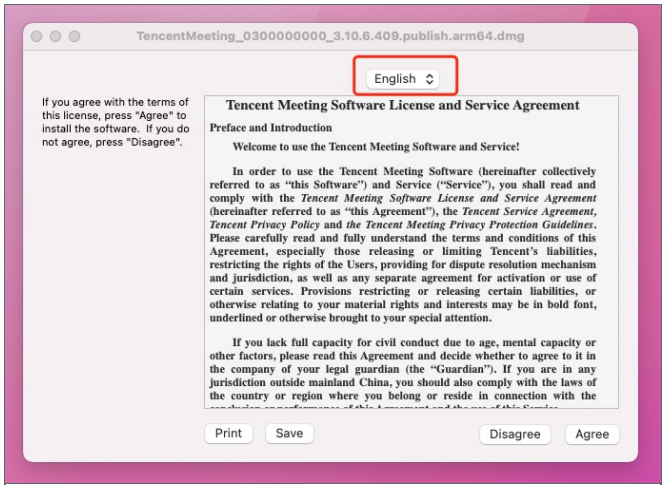

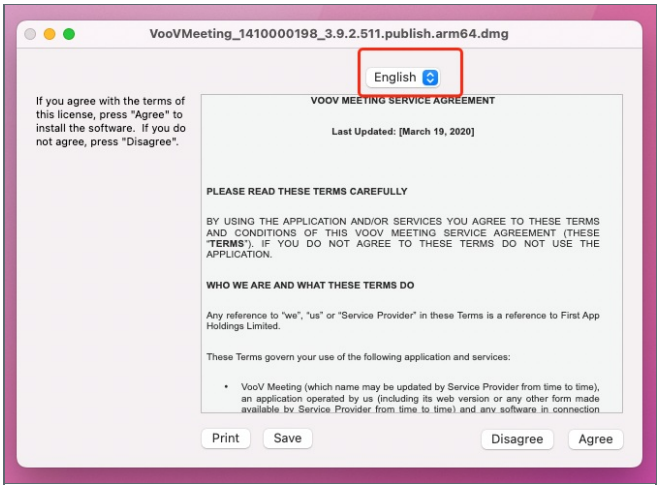

(3. It is recommended to double-check your Mac chip if you are going to download the application for macOS.)

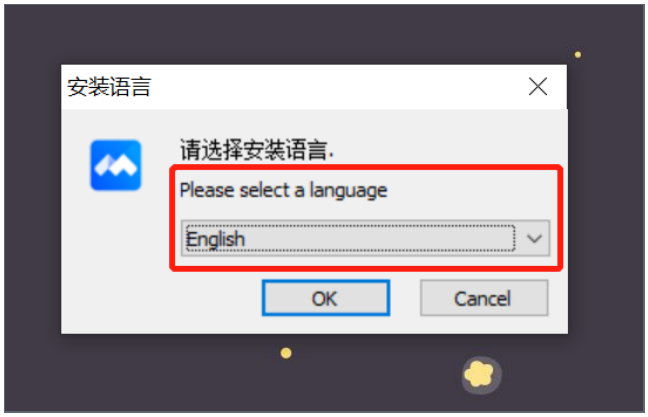

Step 2: Choose your language and follow the installation step by step.

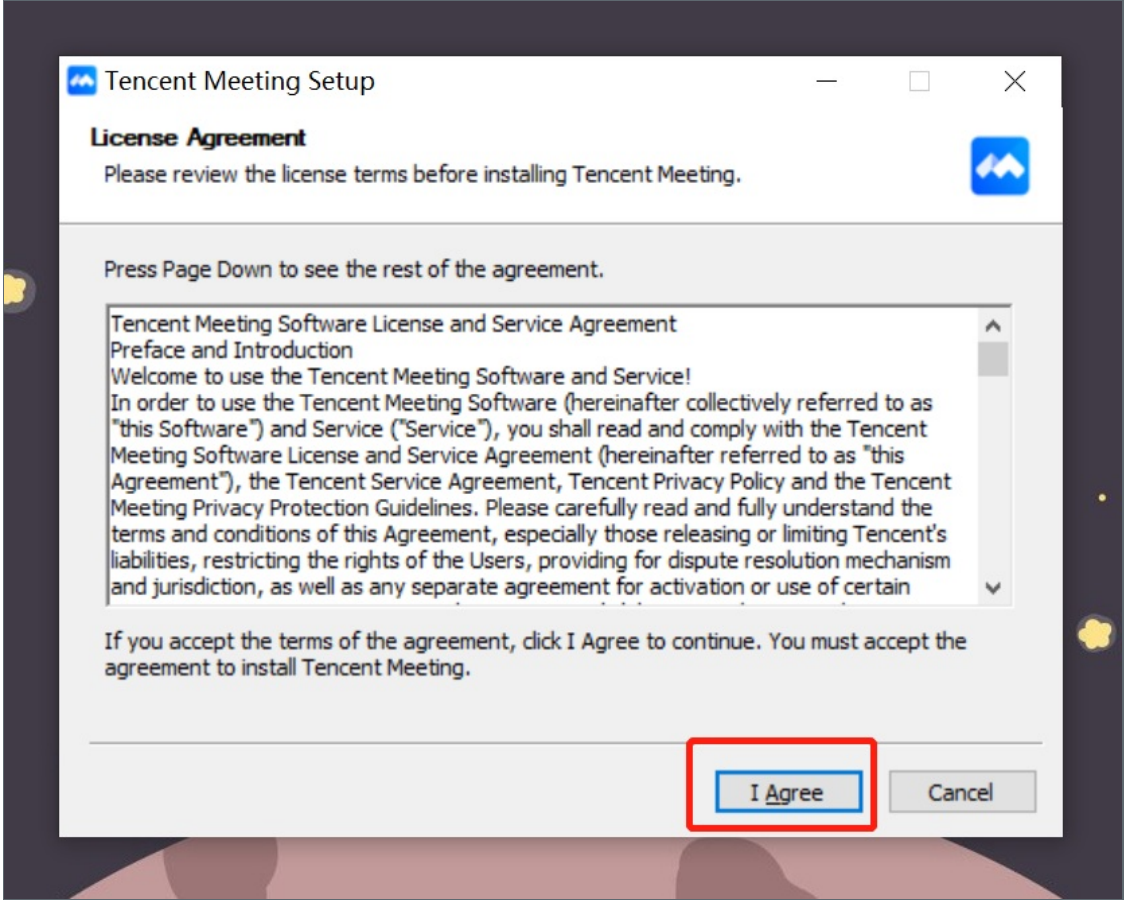

For macOS

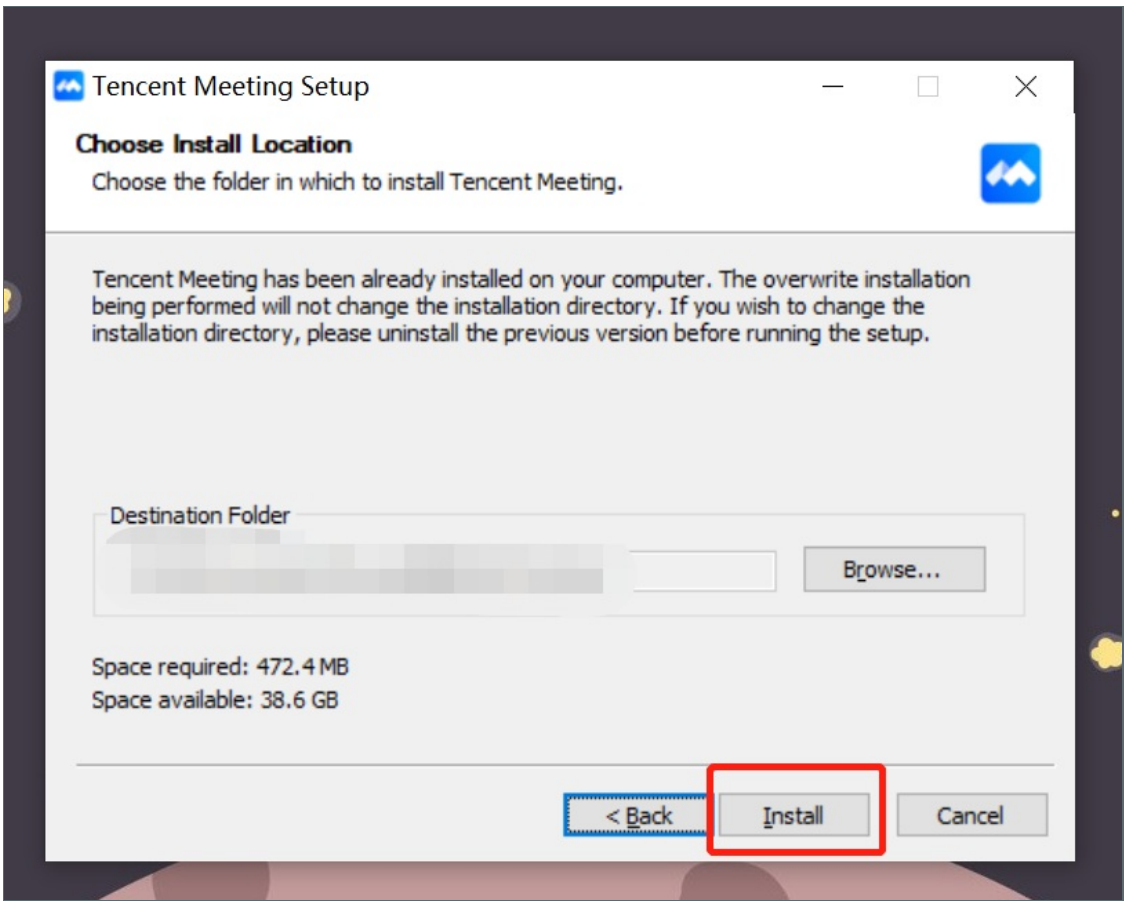

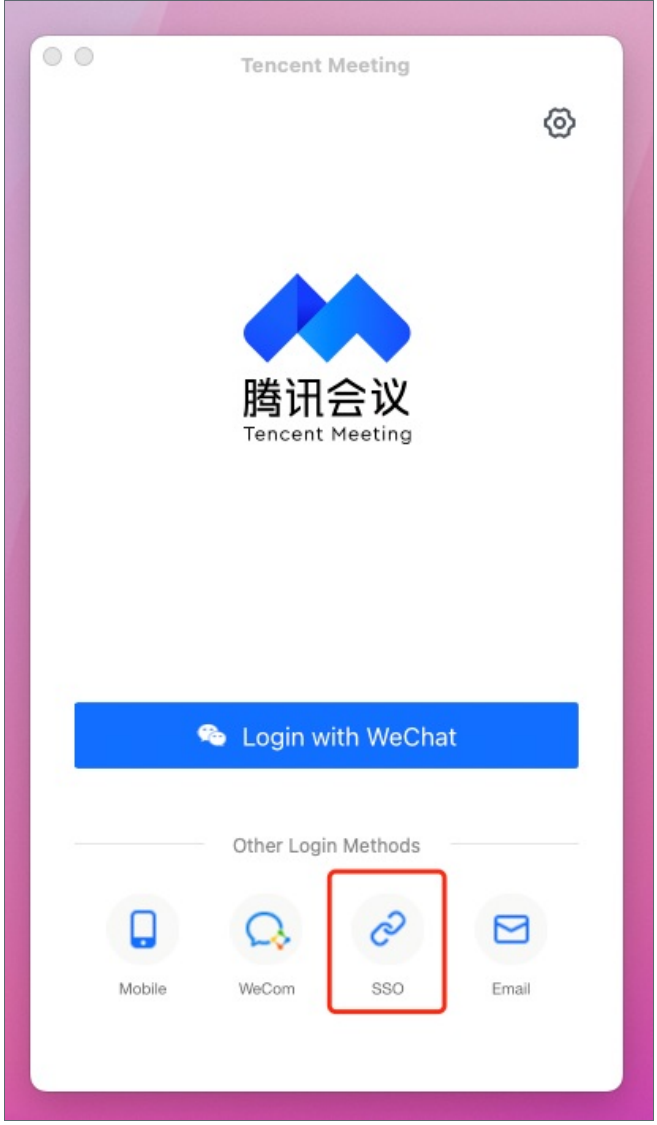

For Windows

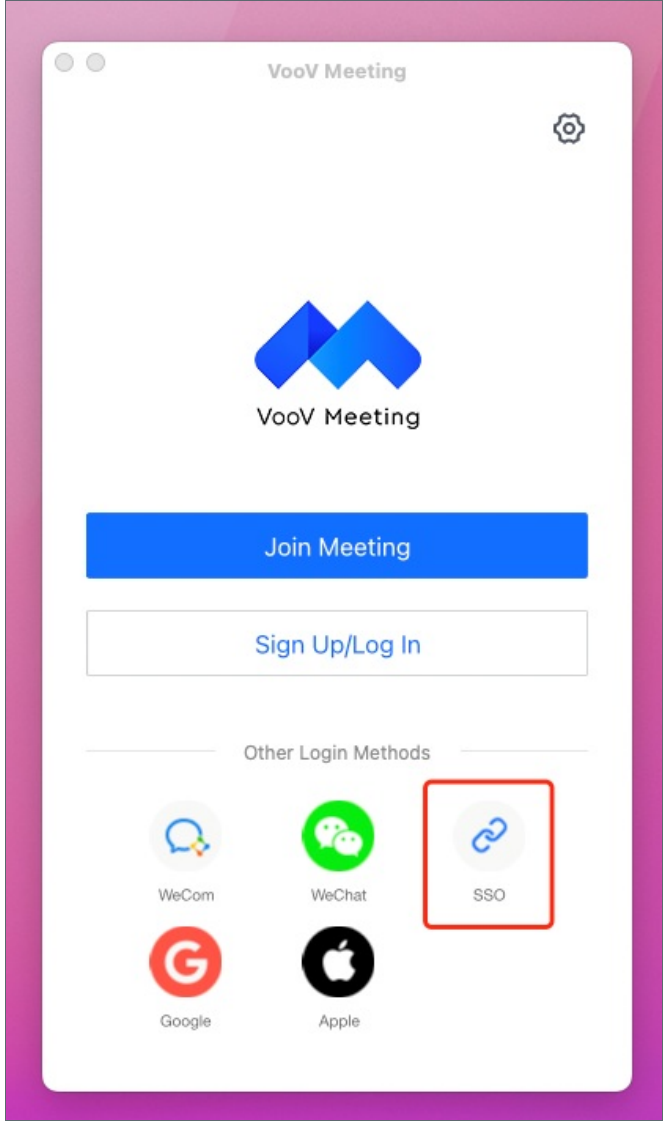

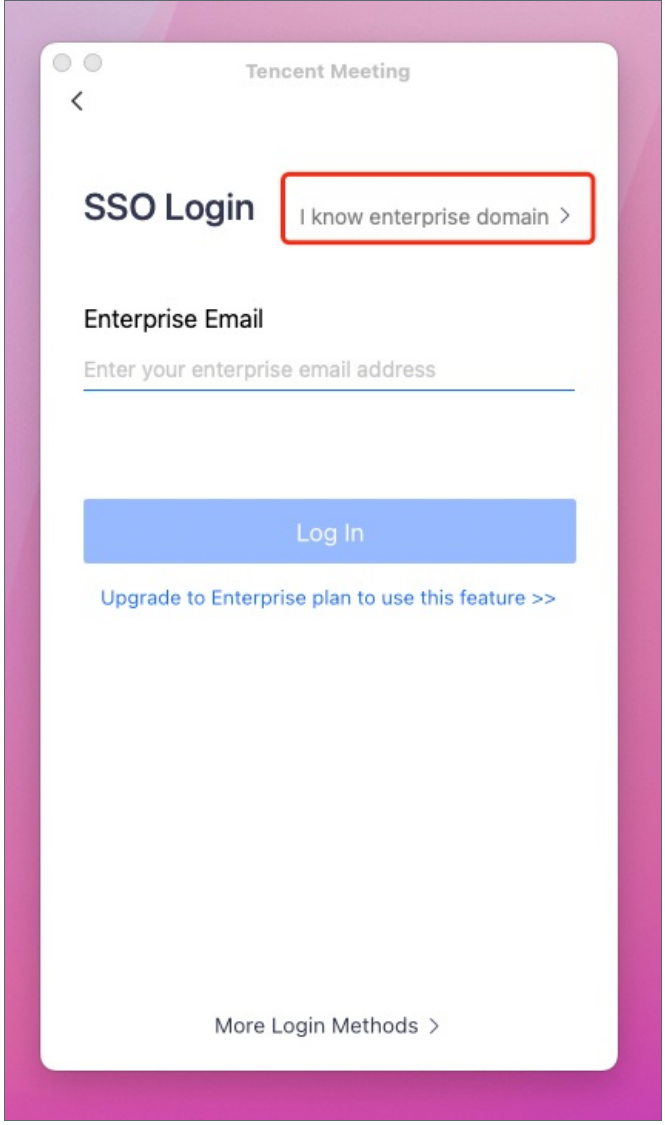

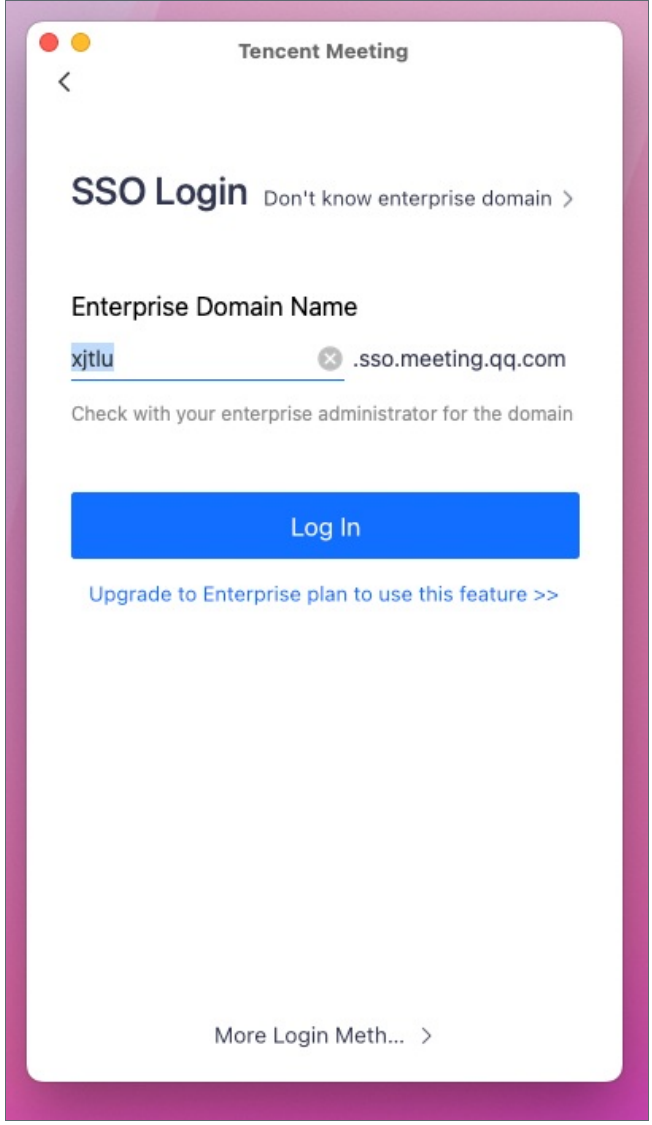

Step 3: Choose SSO as the login method.

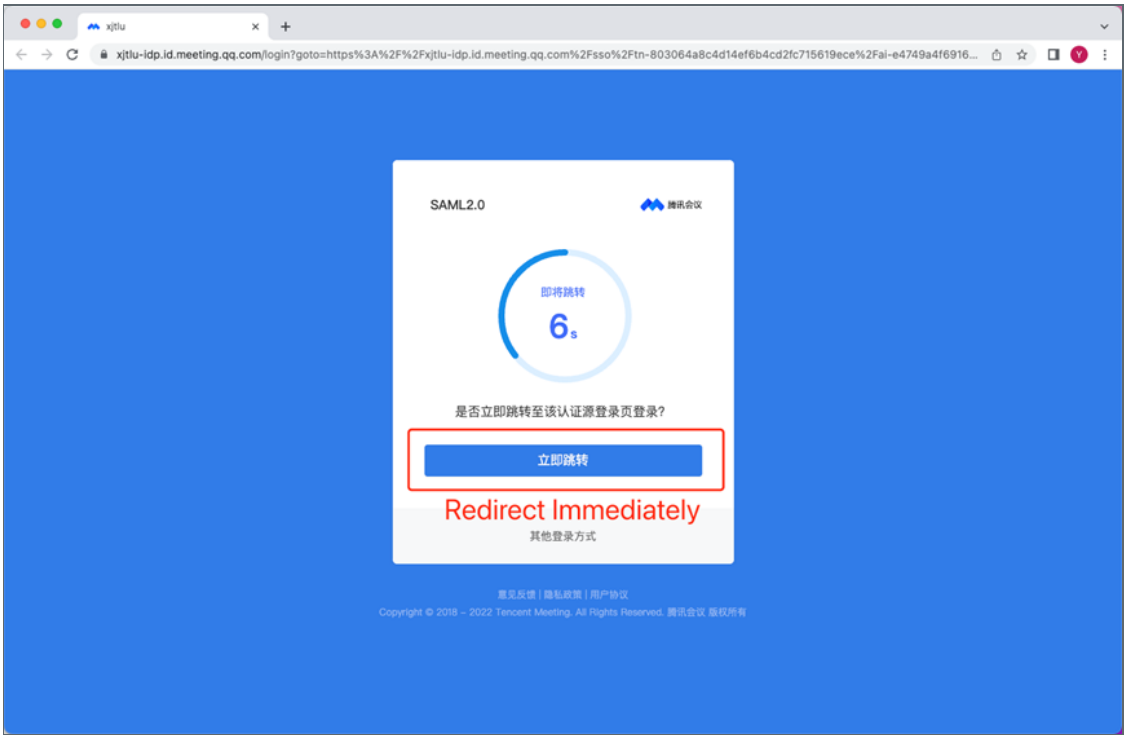

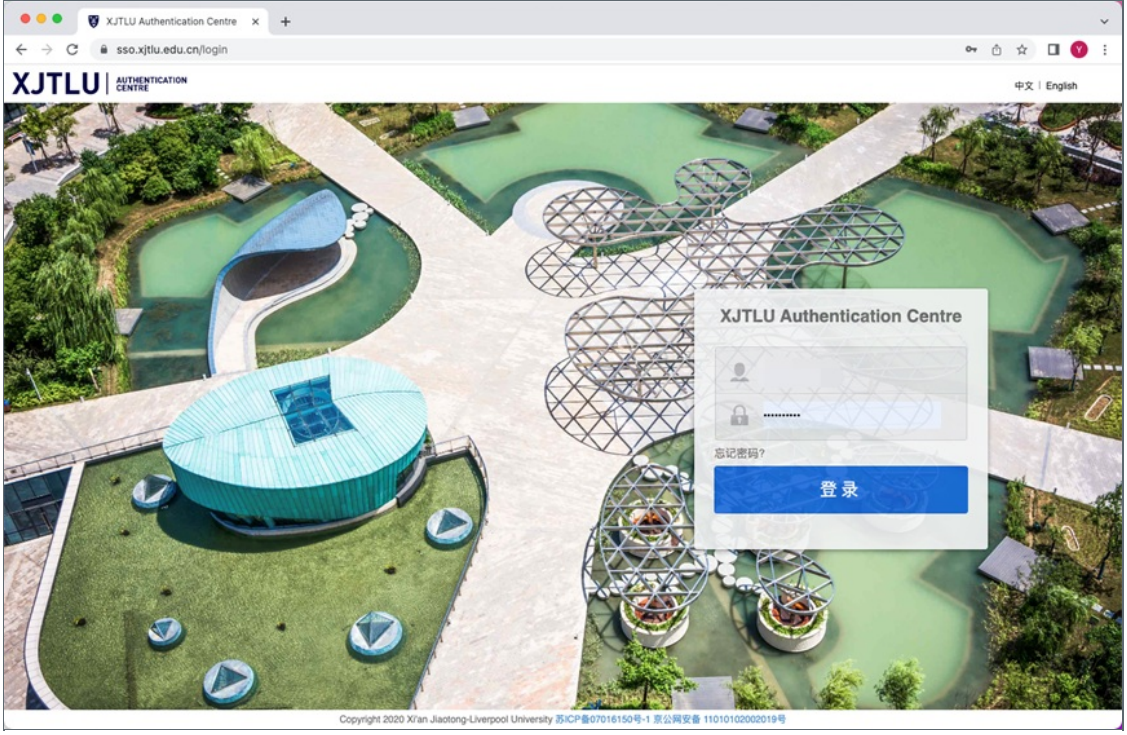

Step 4: Enter the enterprise domain xjtlu

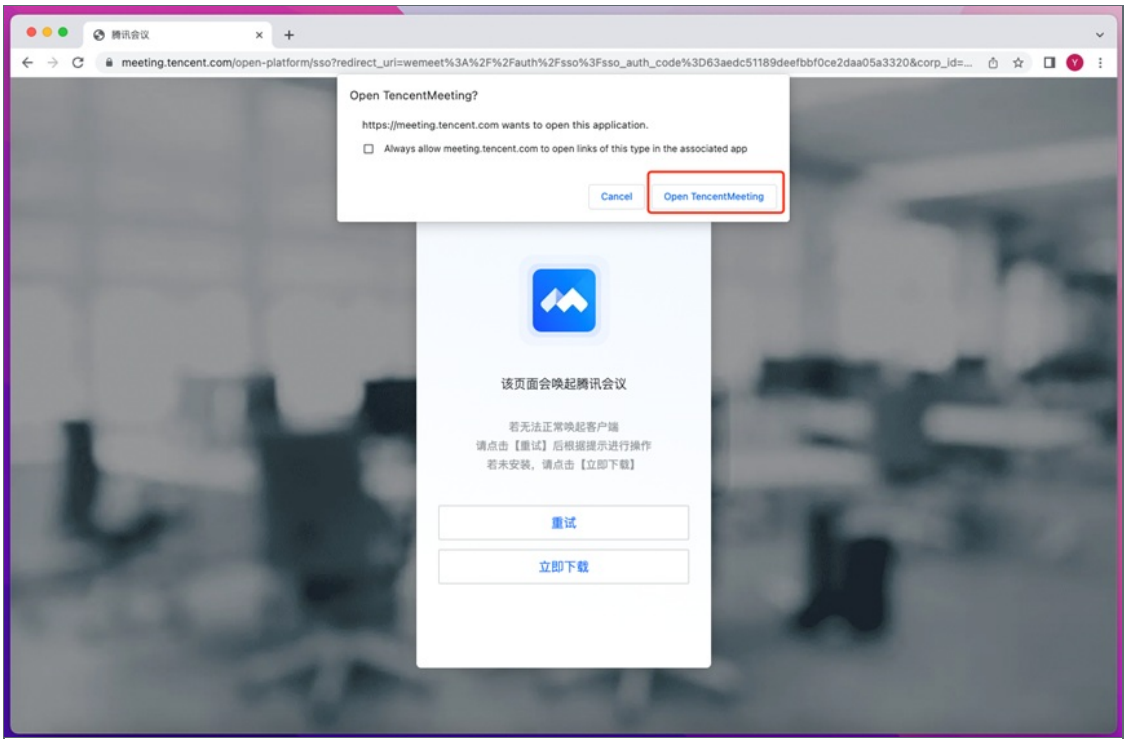

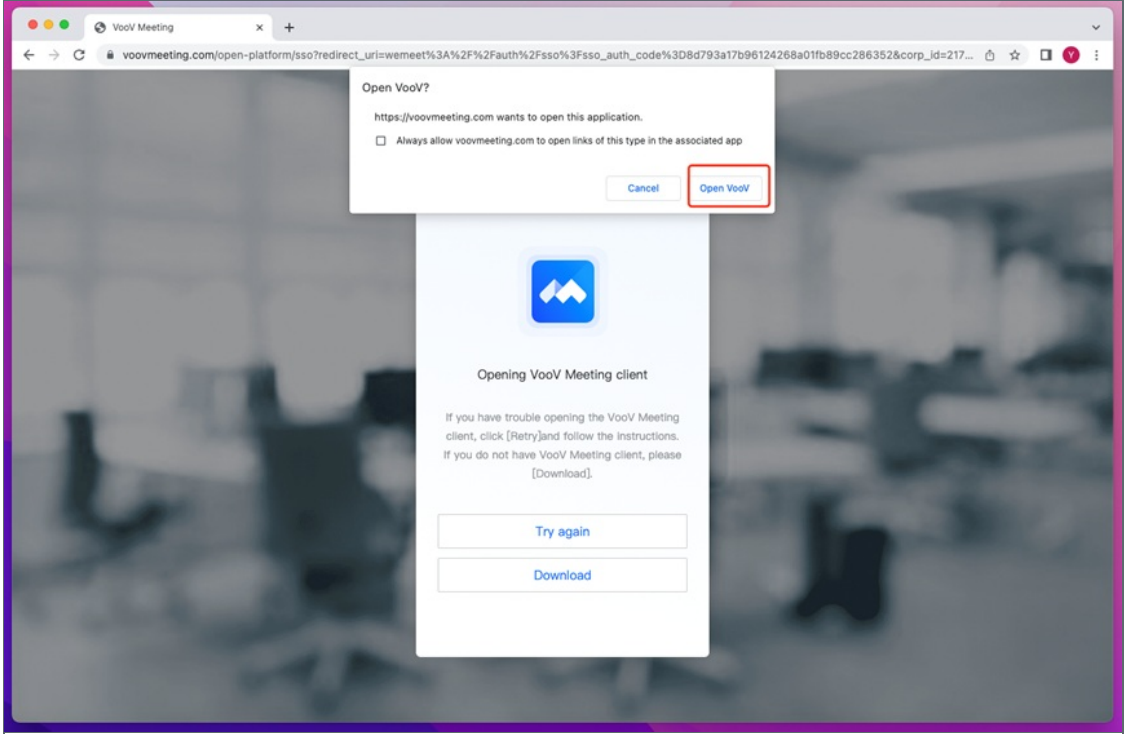

Step 5: After clicking the log-in button, a web page will pop up to redirect you to University Authentication Centre.

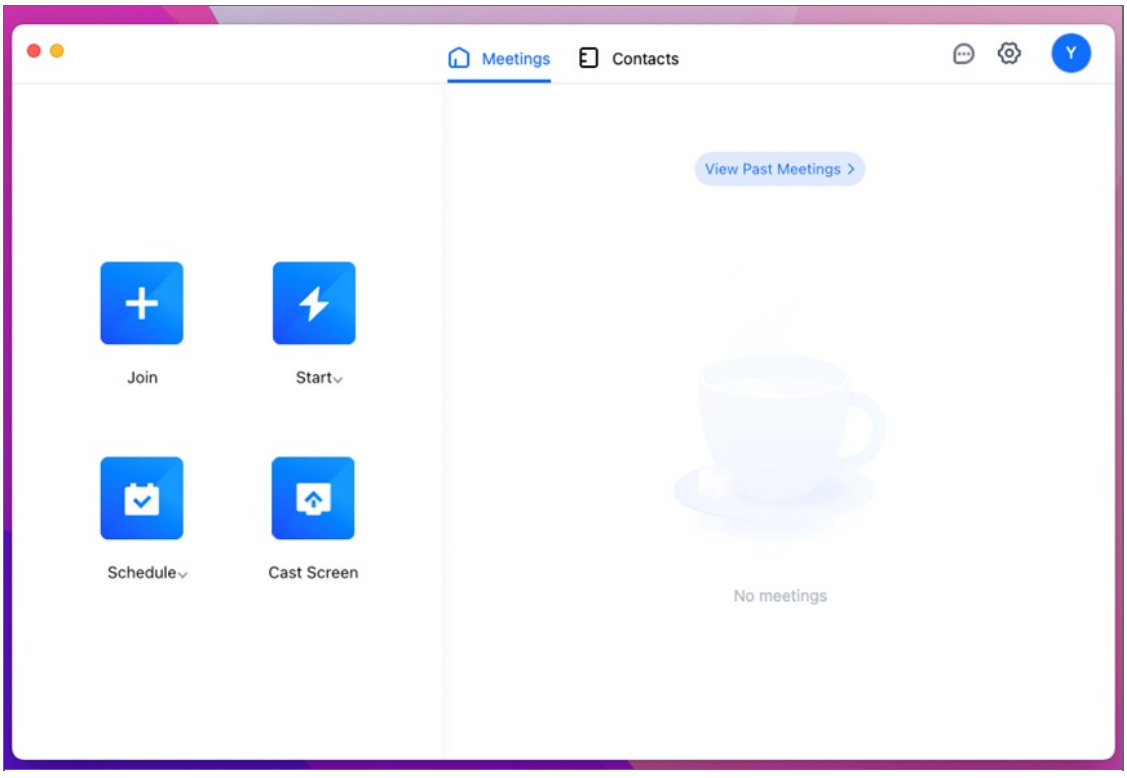

Step 6: After logging into University Authentication Centre, the previous web page will ask you whether to open Tencent Meeting (or VooV Meeting).
