## Overview:

This guide will show you how to bulk upload feedback file to each student within Double-marking Assignment activity.

## What to know:

Double-marking Assignment is mainly designed to support the [double-marking](#). If you don't need do double marking, please use the activity "Assignment".

The Double-marking Assignment feedback uploading feature has [some limitations](#), such as:

1. You can't successfully upload [unless the submission has been marked with a score](#) (for example, if assessor 1 hasn't give a score, you can't upload feedback for assessor 1)
2. You can't upload more than one file with the same type to each submission. Please manually upload if you have more than one document or [use different file types](#). For example, use one PDF file and one Word file.

You may not be able to upload the file if the assessor hasn't grade (give a score) the submission.

Double-marking Assignment can only support uploading one type of feedback file to each submission. For example, you can't upload two PDF files or two Word documents at the same time. However, you can upload one PDF and one Word document with the same file name (file ID).
