An example of a Scorm Package activity displayed in a Label

Overview:

This guide will show you how to export the course from Articulate Rise and embed it to a Scorm Package activity.

What to know:

After completing a course construction in Articulate Rise, you may optimise the asynchronous course and make it appealing to click via:

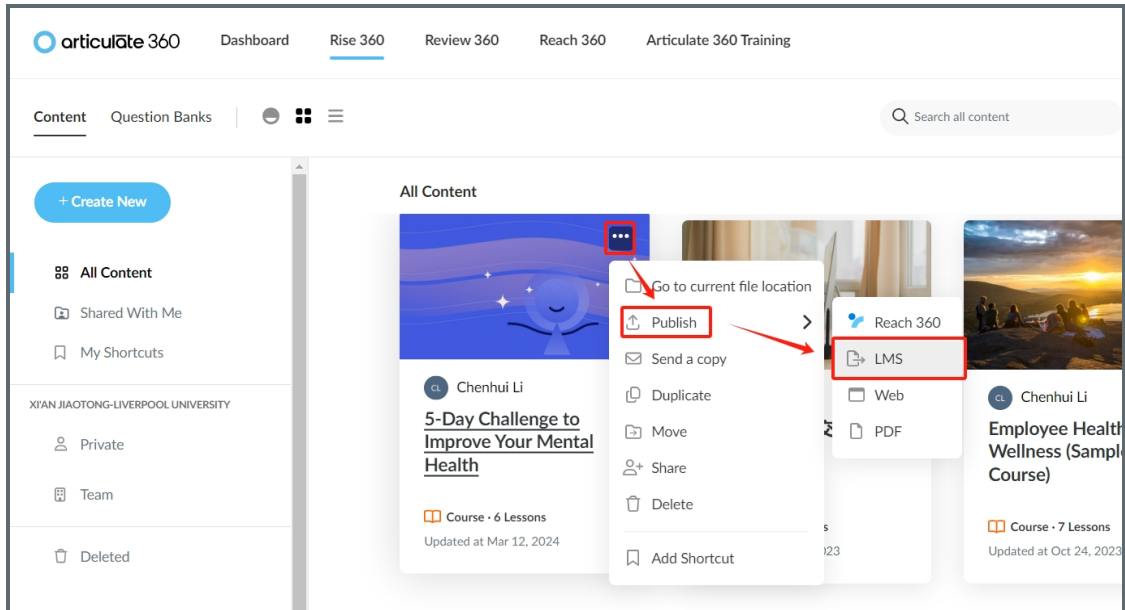

embed the course in a Scorm Package activity
insert the Scorm Package into a Label displayed as a description/ an image

Table of Contents

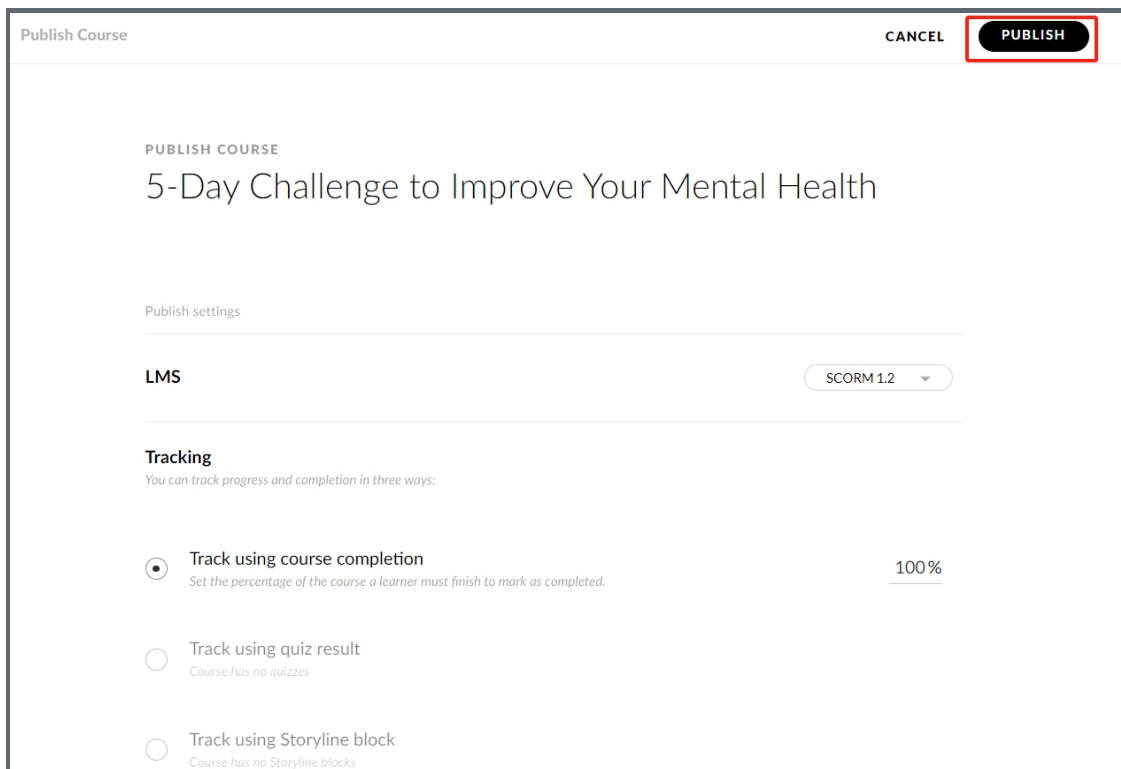

- [Step 1: Export the course from Articulate Rise](#)
- [Step 2: Create a Scorm Package activity](#)
- [Step 3: Upload the Articulate Zip file](#)
- [Step 4: Appearance setting](#)
- [Step 5: Hide the Scorm package but make it available](#)
- [Step 6: Copy the URL of the Articulate course](#)
- [Step 7: Create a Label activity](#)
- [Step 8: Add an image](#)
- [Step 9: Insert the URL as the hyperlink](#)

Step 1: Export the course from Articulate Rise

Log in to Articulate Rise and export the course concerned by clicking the 3 dot button and choosing "Publish" > "LMS".

Click "Publish" on the right corner of the page and leave the below settings as default. Then, you will receive an email with a download link from Articulate Rise. Click the link to download the scorm package.

Step 2: Create a Scorm Package activity

Add a new activity and choose "Scorm package" in the activity chooser.

Add an activity or resource

scorm

1 results found

SCORM package

Step 3: Upload the Articulate Zip file

In the setting of the newly added Scorm Package, upload the exported Articulate Zip file in the "Package" setting.

Package

Package file

Maximum file size: Unlimited, maximum number of files: 1

Files

5-day-challen...

Accepted file types:

application/xml .xml

Archive (ZIP) .zip

Step 4: Appearance setting

In the "Appearance" setting, click "Show more" to expand all the conditions. Choose "Disabled" in "Display course structure in player" and untick "Display activity name", which will hide the navigation bar of the Articulate course.

▼ Appearance

Display package

New window ▾

[Show less...](#)

[Add group/grouping access restriction](#)

Step 6: Copy the URL of the Articulate course

Click the Scorm Package activity and hit the Enter button to open the course.

Copy the URL of the course and save it as the hyperlink for the Label activity.

Step 7: Create a Text and media area activity

Add a Text and media area activity.

Add an activity or resource

text

Assignment

Book

Chat

Page

Text and media area

URL

Step 8: Add an image

In the general setting of a newly added "Text and media area" activity, input the description and the image you'd like to associate with the Articulate course. Then click "insert or edit an image"

Adding a new Text and media area

[Expand all](#)

General

Text

Welcome to the Scorm test.

Click "Browse repositories" to upload the image.

Adding a new Text and media area [?](#)

Expand all

▼ General

Text

Rich text editor toolbar with icons for undo, redo, text color, background color, bold, italic, underline, link, unlink, list, indent, outdent, link, unlink, image, video, audio, table, H-P, link, unlink, image, video, audio, table, H-P, link, unlink, image, video, audio, table, H-P.

Words: 5

```

1 <a target="_blank"
href="https://core.xjtlu.edu.cn/mod/scorm/player.php?
a=102&currentorg=articulate_rise&scoid=236&sesskey=UsMC23PcI
Z&display=popup&mode=normal">
2 <p>Welcome to the induction session</p>
3 <p><br></p>&nbsp;
4 </a><br>

```

The HTML part is a bit tricky. By doing this, the students will just click on the image and open up the embedded course. You could either insert the URL of the Articulate course in the word description, which is much easier. Remember to choose the text before adding a hyperlink.
