Video guide for module restore

## Overview:

This guide will show you how to restore the past year module activities to the existing module page.

## What to know:

Module migration consists of two straightforward steps:

1. Module Backup (A copy step from AY24-25 course content.)
2. Module Restore (A paste step to AY25-26 Core system for you to utilize past year contents.)

You must complete the backup step beforehand to start this restore practice.

\*Before starting the practice, please

1. Make sure you've logged out from the archive system and then log into the current year Core page. (  
<https://core.xjtlu.edu.cn/my/> )

2. Locate your new module page for S1 AY25/26. (You could search the module from "All modules" tab by typing the course name/ module code).

Please also be aware that only module leader has the permission to restore the course content. If you are responsible for this course but do not have permission to restore content, please contact your departmental professional staff to get you enrolled as "module leader".

- Due to the Core system archive in the summer

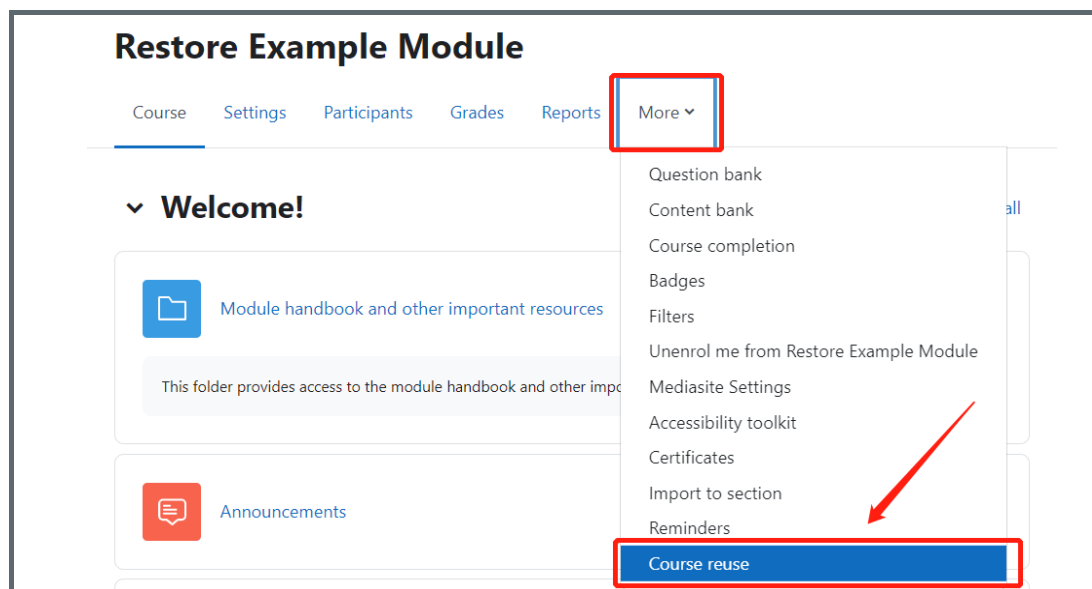

- **Implement restore before 15th Aug, 2025**, please find the AY25-26 course page [here](#) ;
- **Implement restore after 15th Aug, 2025**, please find the AY25-26 course page [here](#) ;

## Table of Contents

- Step 1: Go to the S2 module page to restore contents
- Step 2: Choose "Restore"
- Step 3: Upload a backup file
- Step 4: Confirm the backup details
- Step 5: Select the Destination "Restore into this course"
- Step 6: View the Settings and Schema
- Step 7: Review and "Perform restore"
- Step 8: Process and Complete

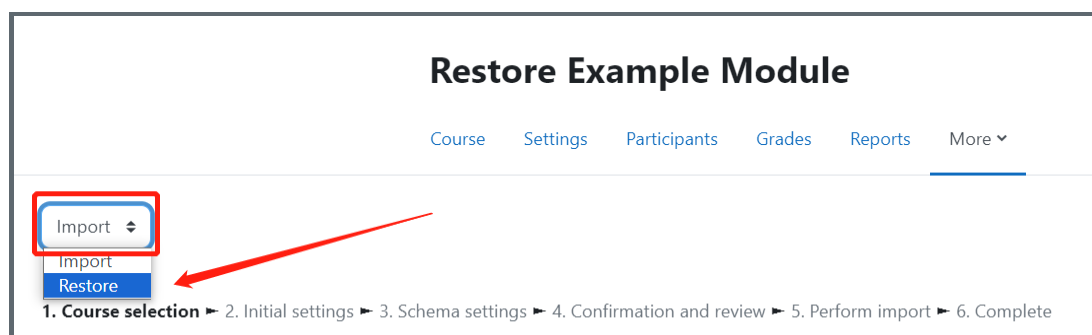

### Step 1: Go to the S1 module page to restore contents

Select "Course reuse" under the dropdown list of "More".

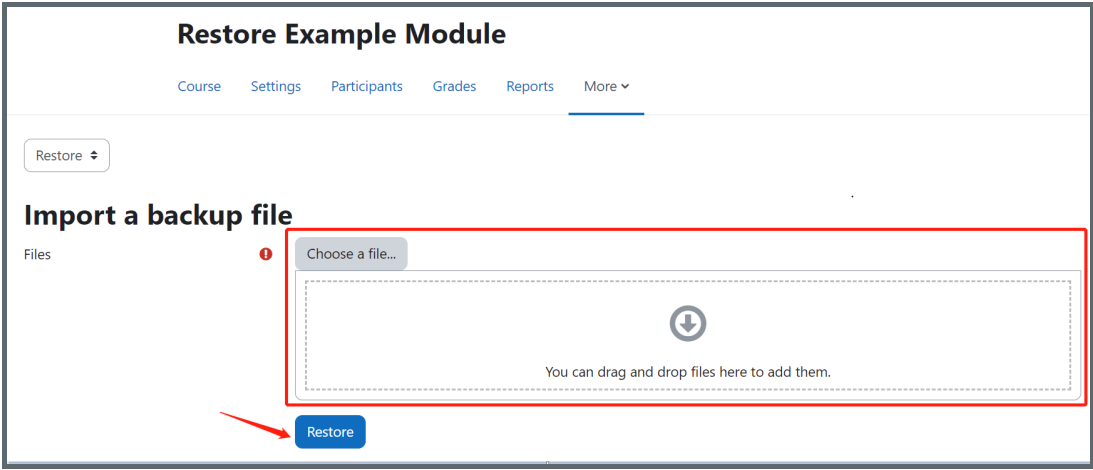

### Step 2: Choose "Restore"

Click "Import" on the left hand side then choose "Restore" in the dropdown list.

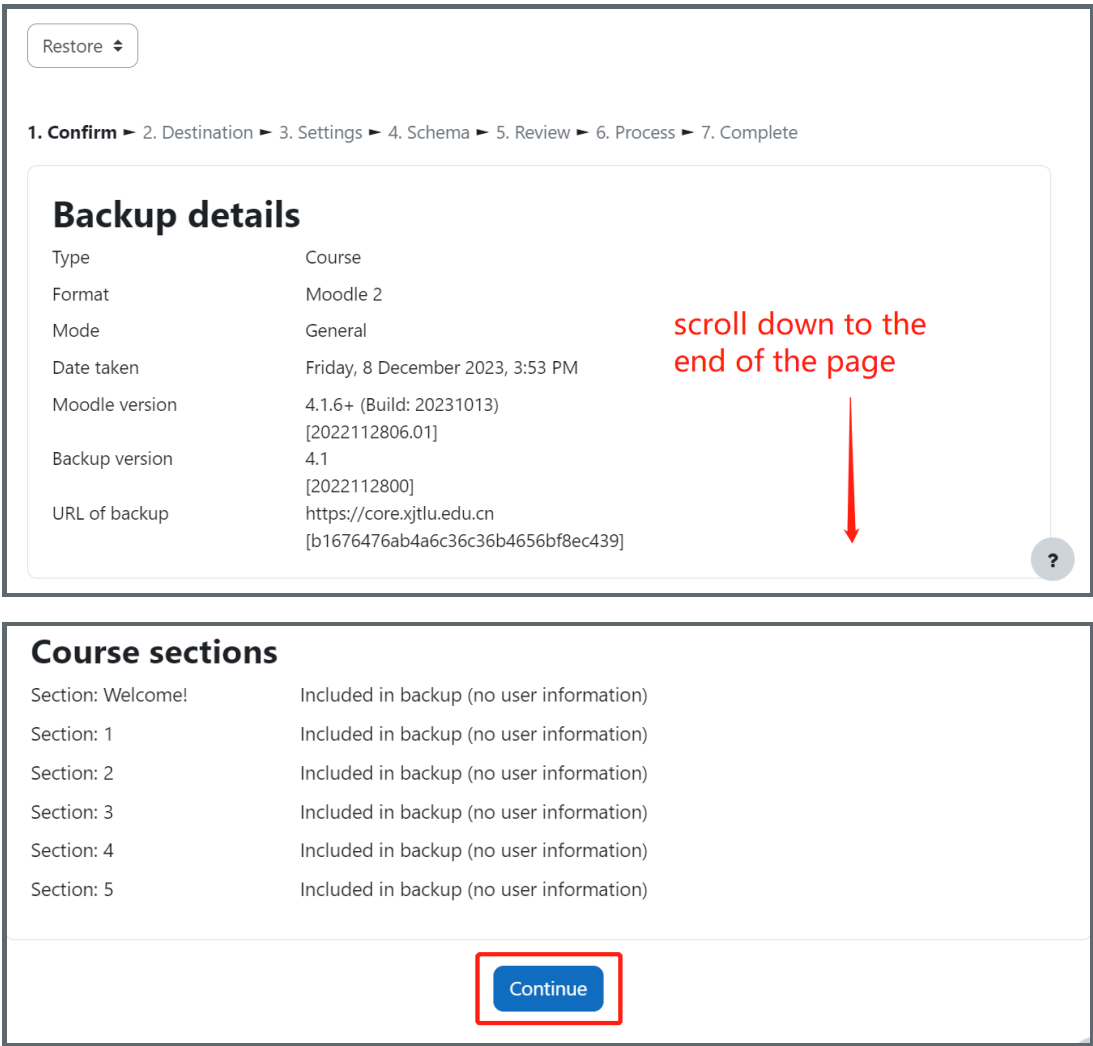

### Step 3: Upload a backup file

You could either choose a file from your computer or drag and drop the file to the blank space. Click "Restore". It may take some time for uploading the file, please wait until the "Restore" button is clickable.

### Step 4: Confirm the backup details

Confirm the backup details then scroll down to the end of the page, click "continue"

### Step 5: Select the Destination "Restore into this course"

There are several options, please make sure you **restore the content into this course** (the current module you teach). Click "Continue".

1. Confirm ▶ 2. Destination ▶ 3. Settings ▶ 4. Schema ▶ 5. Review ▶ 6. Process ▶ 7. Complete

### Restore into this course

Merge the backup course into this course ☒

Delete the contents of this course and then restore ☐ **leave the default setting**

**\*make sure you restore the content into this course**

Continue

### Restore into an existing course

Merge the backup course into the existing course ☒

Delete the contents of the existing course and then restore ☐

Select a course

Course short name	Course full name
<input type="text"/>	<input type="text"/>

Search courses

Continue

**Please Ignore This Part**

## Step 6: View the Settings and Schema

For this step, you will view all the restore settings. Please leave everything by default and click "Next" at the end of the page.

Restore ▾

1. Confirm ▶ 2. Destination ▶ 3. Settings ▶ 4. Schema ▶ 5. Review ▶ 6. Process ▶ 7. Complete

### Restore settings

Include enrolled users	×
Include enrolment methods	No 🔒
Include user role assignments	×
	<input checked="" type="checkbox"/> Include permission overrides
	<input checked="" type="checkbox"/> Include activities and resources
Include blocks	×
Include filters	×
Include comments	×
Include badges	×
	<input type="checkbox"/> Include calendar events
Include user completion details	×
Include course logs	×
Include grade history	×
Include groups and groupings	×
	<input type="checkbox"/> Include custom fields
	<input checked="" type="checkbox"/> Include content bank content
	<input checked="" type="checkbox"/> Include legacy course files

Cancel Next

Then you will see the Schema of course settings. (The list is too long to display here, you could simply scroll down to the end

and click "Next".)

1. Confirm ► 2. Destination ► 3. Settings ► **4. Schema** ► 5. Review ► 6. Process ► 7. Complete

## Course settings

Previous

Cancel

Next

## Step 7: Review and "Perform restore"

A final step for you to review: scroll down to the end and click "Perform restore".
