

How to download and migrate the question bank from modules in AY24/25 to new module areas in AY25/26

The example of imported questions in the Questions Bank

Overview:

This guide will show you how to export questions from the AY24/25 Question bank to the AY25/26 modules for use on your new module page.

What to know:

It will walk you through the steps of exporting questions from your Question bank on your previous module so that you can get started recreating these activities on your new module in AY25/26.

Table of Contents

[Step 1: Accessing the question bank of AY24/25 module page](#)

[Step 2: Exporting your questions](#)

[Step 3: Choosing a file format](#)

[Step 4: Viewing your file on your computer](#)

[Step 5: Accessing the question bank in AY25/26 Module page](#)

[Step 6: Importing the questions](#)

[Step 7: Uploading to the AY25/26](#)

[Step 8: Completing the process](#)

Step 1: Accessing the question bank of AY24/25 module page

Go to your previous module page in AY24/25.

Step 3: Choosing a file format

Choose a file format in this case 'Moodle XML format'.

The screenshot shows a web interface for exporting questions. At the top left, there is a dropdown menu labeled 'Export'. Below it, the main heading is 'Export questions to file'. Under the heading, there are two sections: 'File format' and 'General'. In the 'File format' section, there are six radio button options: 'Aiken format', 'CSV format', 'GIFT format', 'Moodle XML format', 'Print out for review', and 'XHTML format'. The 'Moodle XML format' option is selected, indicated by a blue square next to the radio button, a red rectangular highlight around the text, and a green checkmark to its right. In the 'General' section, there is a dropdown menu for 'Export category' set to 'Default for Standard XJTLU Template (34)'. Below this, there are two checked checkboxes: 'Write category to file' and 'Write context to file'. At the bottom of the form is a blue button labeled 'Export questions to file'.

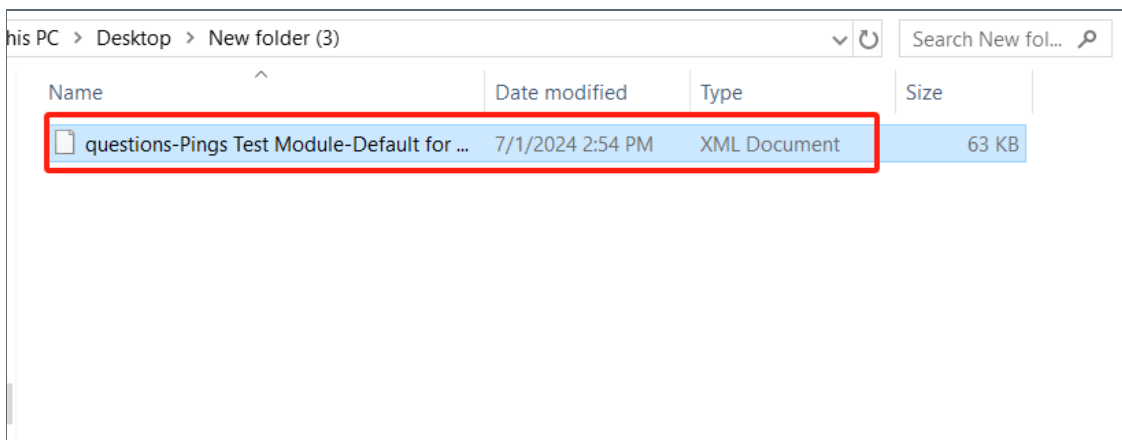

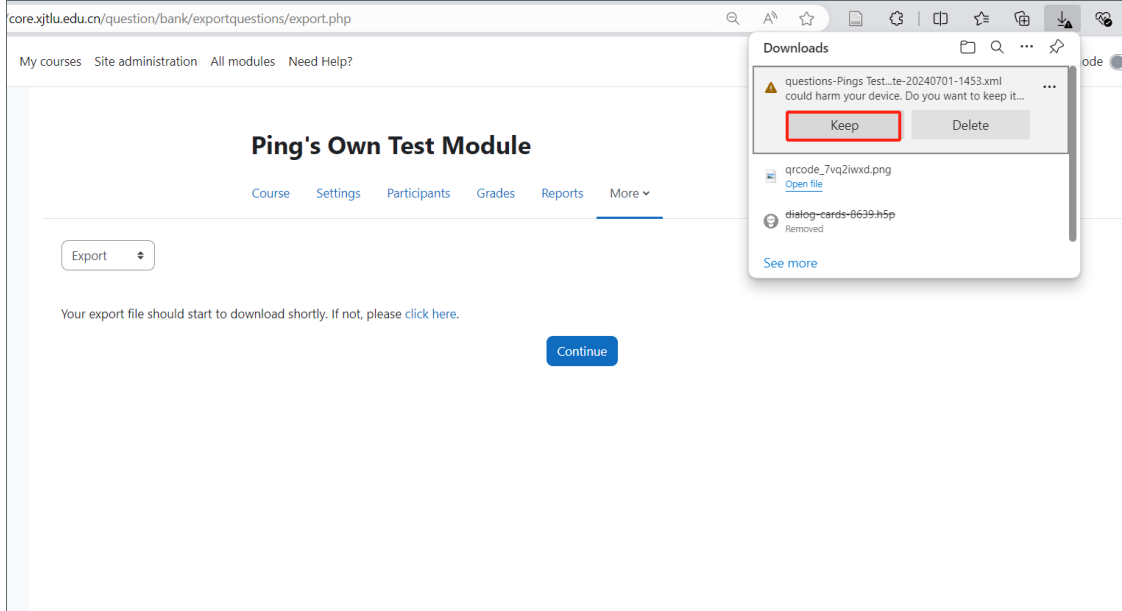

Then scroll down and click 'Export questions to file'.

This screenshot is identical to the one above, showing the 'Export questions to file' form. In this version, the 'Moodle XML format' option is selected with a radio button. The 'Export category' dropdown is also visible. The 'Write category to file' and 'Write context to file' checkboxes are checked. The blue button at the bottom, labeled 'Export questions to file', is highlighted with a red rectangular border.

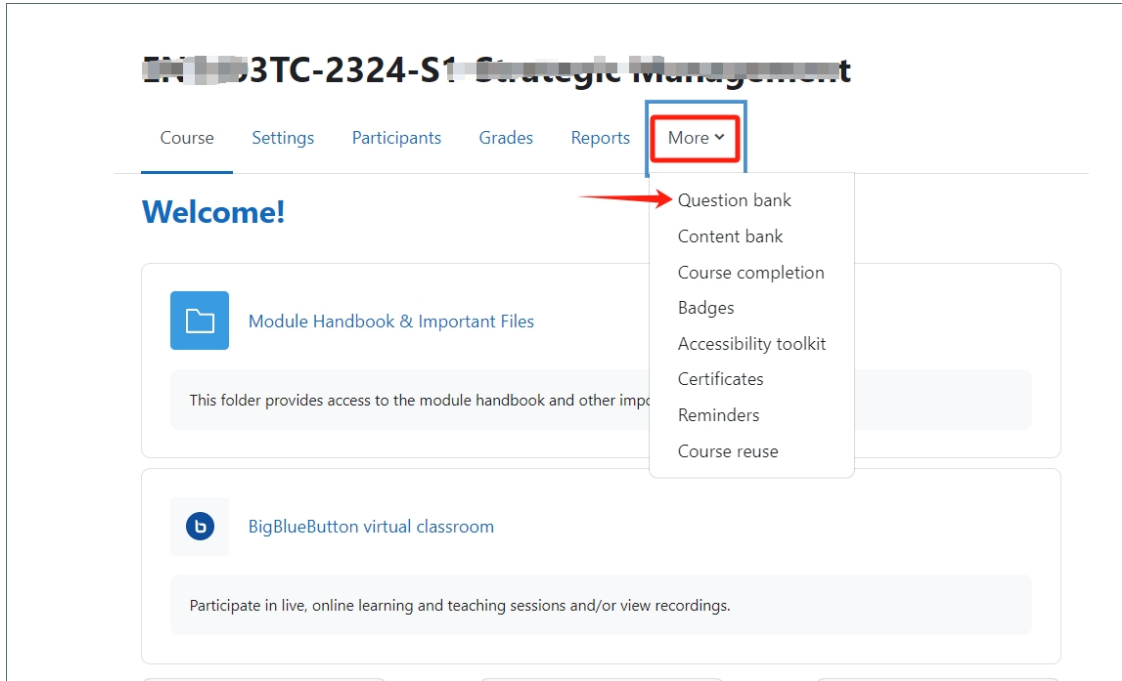

Step 4: Viewing your file on your computer

You'll now be able to see your file in the download folder.

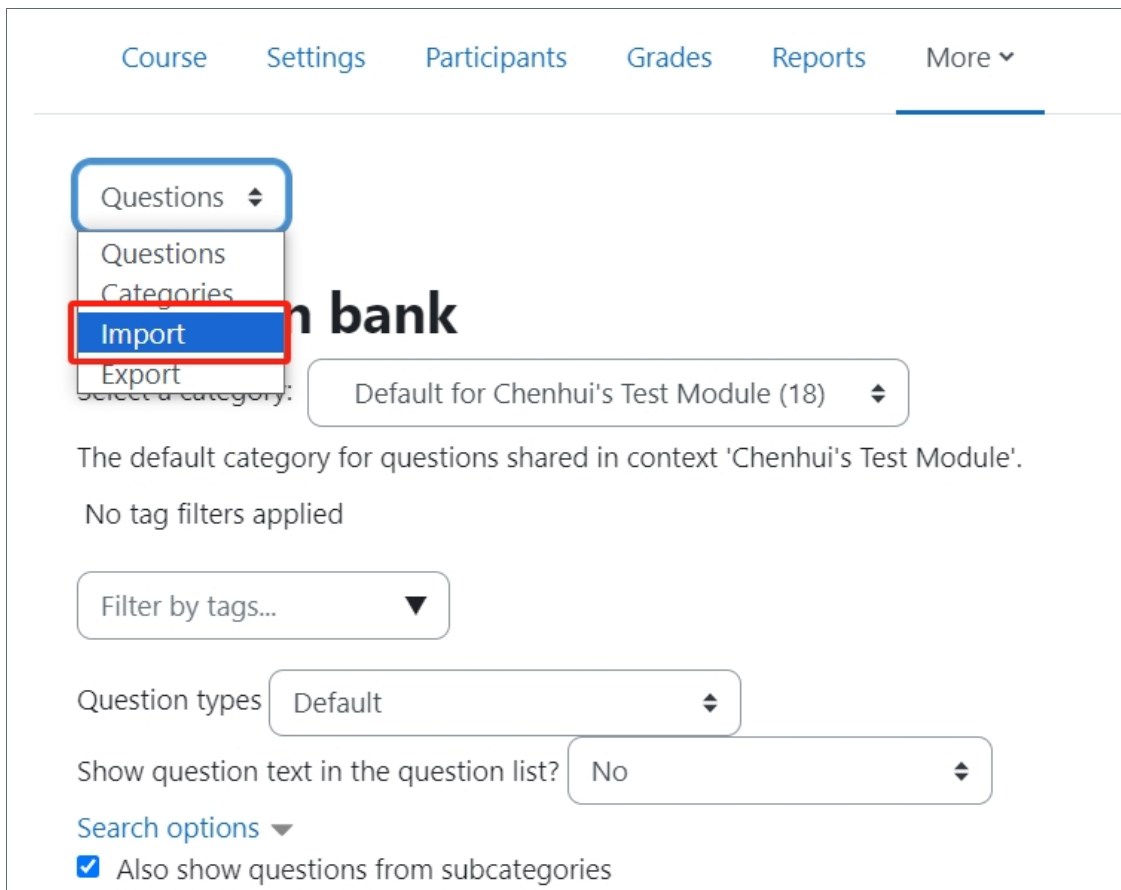

Step 5: Accessing the question bank of AY25/26 Module page

Now on your new module page, click on the "More" button which is situated on the top right hand-corner of the course navigation bar. Then click 'Question Bank' in the drop-down list.

Step 6: Importing the questions

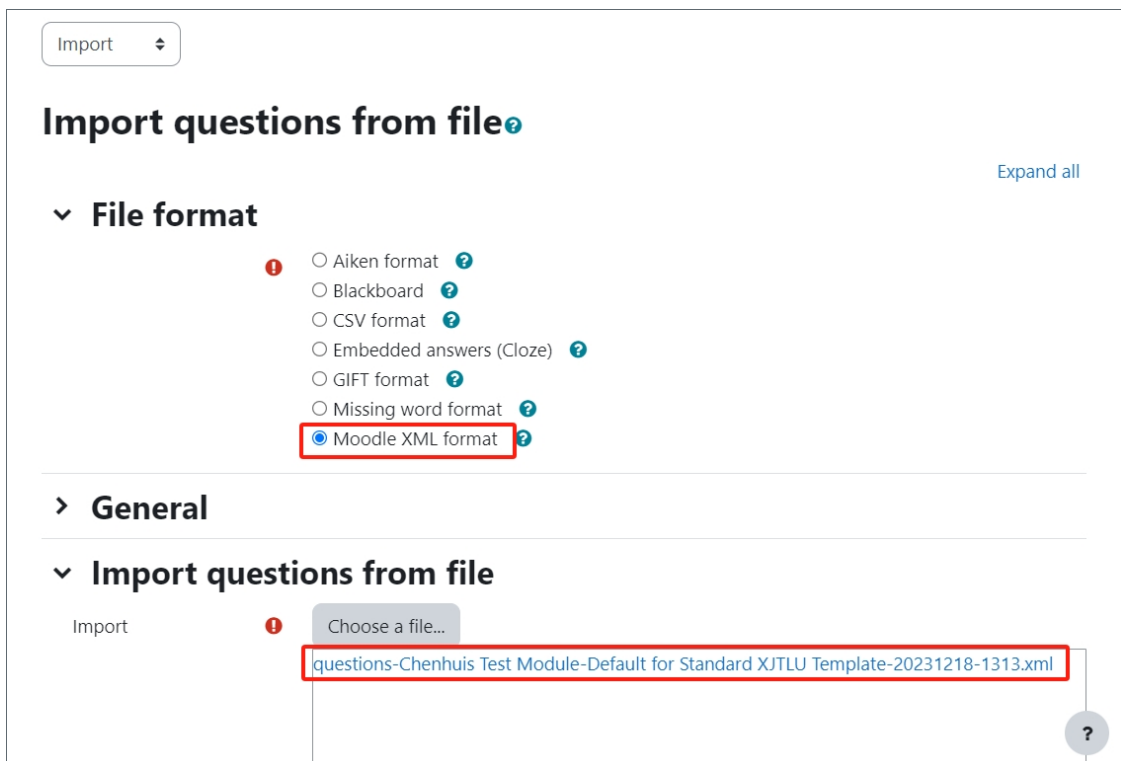

Choose "Import" in the dropdown menu.

The screenshot shows the Moodle question bank interface. At the top, there are navigation tabs: Course, Settings, Participants, Grades, Reports, and More. Below these, a dropdown menu is open, showing options: Questions, Questions Categories, Import, and Export. The 'Import' option is highlighted with a red box. The main content area shows the question bank for 'Chenhui's Test Module' with 18 questions. There are filters for 'Default for Chenhui's Test Module (18)', 'No tag filters applied', 'Filter by tags...', 'Question types' (set to Default), and 'Show question text in the question list?' (set to No). There is also a 'Search options' section with a checked box for 'Also show questions from subcategories'.

Step 7: Uploading to the AY25/26

Choose the correct file format, then drag and drop your file to upload it.

The screenshot shows the 'Import questions from file' interface. At the top, there is a dropdown menu set to 'Import'. Below it, the title 'Import questions from file' is displayed. A section titled 'File format' is expanded, showing a list of options: Aiken format, Blackboard, CSV format, Embedded answers (Cloze), GIFT format, Missing word format, and Moodle XML format. The 'Moodle XML format' option is selected and highlighted with a red box. Below this, there is a 'General' section and another 'Import questions from file' section. In the second section, there is a 'Choose a file...' button and a text input field containing the file name 'questions-Chenhuis Test Module-Default for Standard XJTLU Template-20231218-1313.xml', which is also highlighted with a red box. A question mark icon is visible in the bottom right corner.

Click Import.
