

How to download and migrate module content from modules in AY23/24 to new module areas in AY24/25

Adding files to a new module area

Overview:

This guide will show you how to manually download and migrate the module content from the previous module in AY23/24 to the new module area in AY24/25

Here is the link to the archive AY23/24 system: <https://core-archive23-24.xjtlu.edu.cn>.

What to know:

You need to first enable "Download module content" function in the course level before the downloading process. Please view the guide [Download module content](#). The download and migration process can be completed in a few simple steps, and will enable you to quickly get started setting up your new module area for AY24/25.

Hi Robert,

You also following us about the SSM-based SSO Integration - I'd like to mention that you were truly interested in setting an SSO integration. The attaching a copy of Gradescope's SSO Documentation, and I can also share a link to our SP that's ready whenever you're ready to begin the SSO setup.

To get things set up on our end we'll need to get your SFP metadata (via a link or file). Please also let us know if you have performed SAML activities for any of the following open fields/sets:

- External ID (username/identity)
- Email
- Groups (via SSO Name)
- Groups (via)
- Full Name
- User ID (some other unique identifier)

Please don't hesitate to reach out if you have any questions or need any other information about the SSO integration.

Thanks,
Hadi
