

Phase 0-Admin Role-How to add a room in iMatch system

An example of a selection activity

Overview:

This guide will show you how to set up a selection activity / room for a specific project.

What to know:

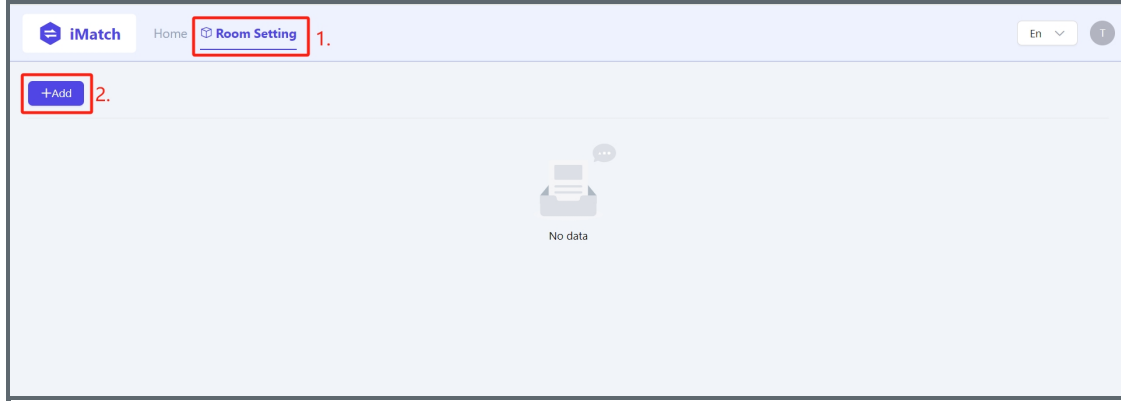

Only the Admin role has the permission to create a selection activity/room (referred to as room in the article). After creating the room, the Admin role will upload other information such as Department details, student data, and teacher data accordingly.

Table of Contents

- [Step 1: Add a selection activity / room](#)
- [Step 2: Set up the room](#)
- [Step 3: Configure the role permissions in selection process](#)
- [Step 4: View the room](#)

Step 1: Add a selection activity / room

After logging the system, click "Add" in "Room Setting" tab to create a room. The rooms, each referring to a different project or audience, listed in "Room setting" tab are all the rooms created by this Admin account.

Step 2: Set up the room

In the pop-up dialogue, set up the details of this room.

Title: here is the room title in Chinese.

Title EN: here is the room title in English.

Description: input the room description in Chinese.

Description EN: input the room description in English.

Selection Rounds / Teacher Ranking Number: define the number of teachers to be ranked by the students, equal to the selection rounds number for teachers selection.

Student Start Date: students will be able to make selection after start date.

Student End Date: students will be able to make selection before the end date.

Teacher Start Date: students will be able to make selection after this start date.

Round Day: define the number of days of each teacher selection round.

Add Room

* Title: 测试房间A-9月19日

* Title EN: Room A-Sept.19th

* Description: 这是测试用房间A.

* Description EN: This is the room A for testing purpose.

* Selection Rounds/Teacher Ranking Number: 3

* Student Start Date: 2024-09-19

* Student End Date: 2024-09-19

* Teacher Start Date: 2024-09-20

* Round Day: 1

* Status:

Step 3: Configure the role permissions in selection process

Scroll down in the pop-up dialogue.

Status: whether this room / selection is active or inactive;

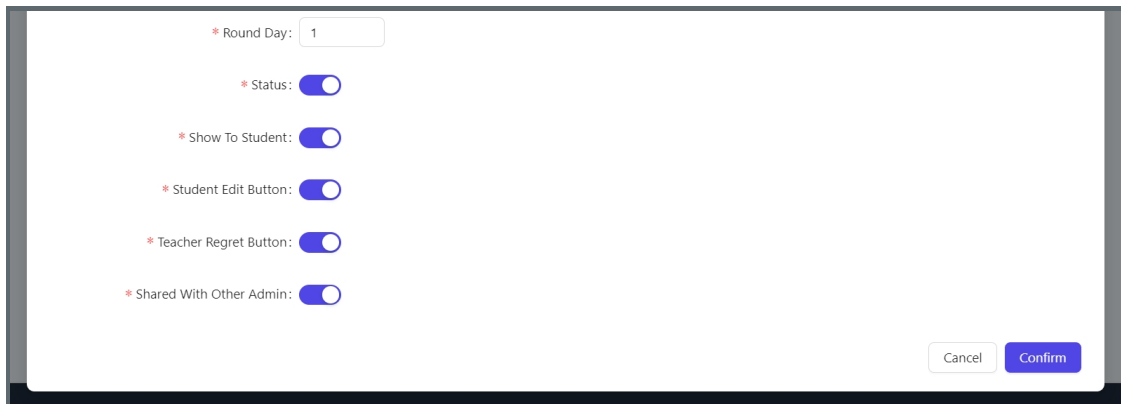

Show to Student: whether the selection results are automatically released to student without any modifications;

Student Edit Button: whether the students are allowed to make edits within the student selection window time;

Teacher Regret Button: whether the teachers are allow to regret their choice in the current round;

Shared with Other Admin: whether this room can be co-edited with other admin accounts.

Click "Confirm" to save the room.'

A screenshot of a configuration dialog box for a room. It contains the following settings:

- * Round Day: 1 (text input)
- * Status: (toggle)
- * Show To Student: (toggle)
- * Student Edit Button: (toggle)
- * Teacher Regret Button: (toggle)
- * Shared With Other Admin: (toggle)

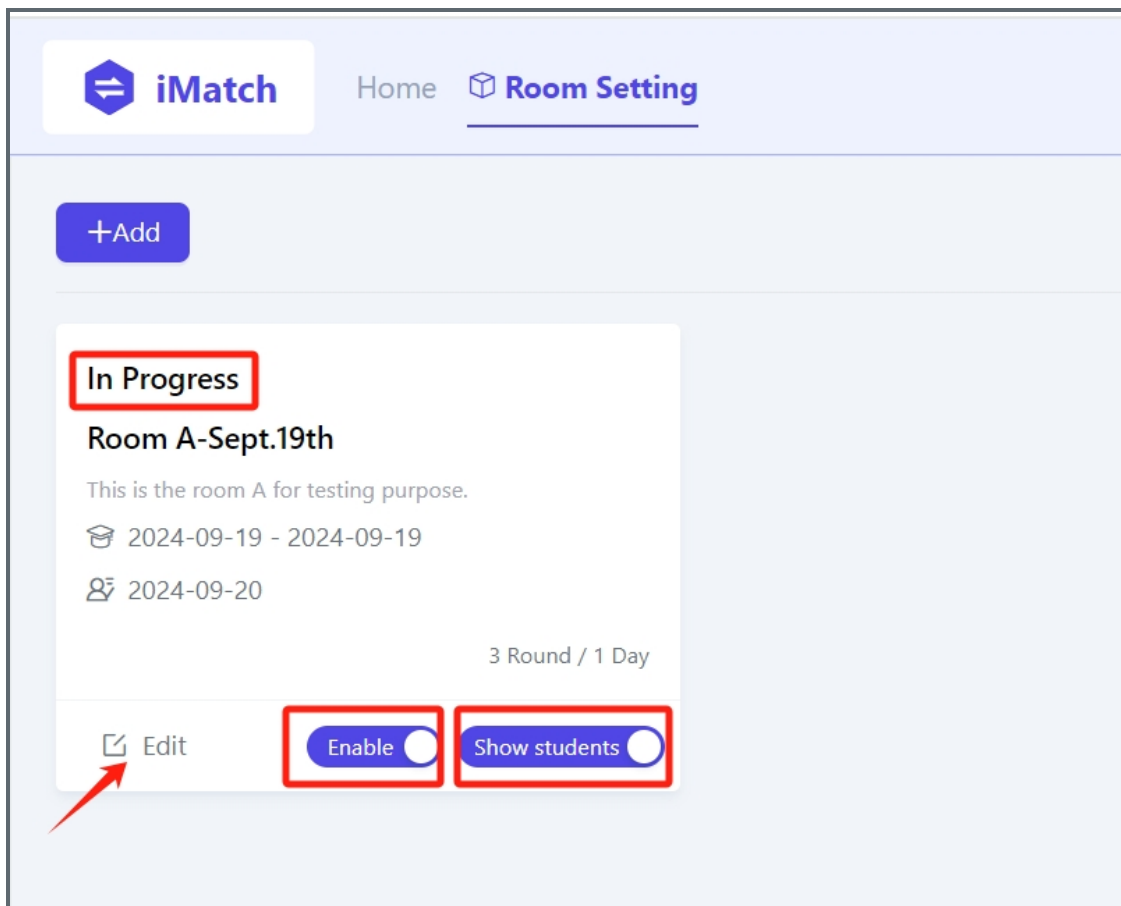

At the bottom right, there are two buttons: "Cancel" and "Confirm".

Step 4: View the room

Now the room is created and displayed with the status "In progress" with basic information.

Enable: the selection status can also be edited here;

Show students: whether the selection results are automatically released to student without any modifications;

A screenshot of the iMatch "Room Setting" page. The page header includes the iMatch logo, "Home", and "Room Setting". Below the header is a "+Add" button. The main content area displays a room card for "Room A-Sept.19th" with the status "In Progress" (highlighted with a red box). The card includes the following information:

- This is the room A for testing purpose.
- 📅 2024-09-19 - 2024-09-19
- 👤 2024-09-20
- 3 Round / 1 Day

At the bottom of the card, there are three controls:

- An "Edit" button with a pencil icon (highlighted with a red box and a red arrow pointing to it).
- An "Enable" toggle switch (highlighted with a red box).
- A "Show students" toggle switch (highlighted with a red box).

Tips:

As an admin role, all the rooms you created will be listed under the Room Settings tab. In contrast, the Home tab will list the rooms you are involved in.

Next steps:

Now that you have finished creating a room / selection process, there are still several more steps to complete:

1. [Phase 0-Admin Role-How to create department information](#)
2. [Phase 0-Admin Role-How to upload users](#)
3. [Phase 0-Admin Role-How to send email reminders](#)
