

How to customize Scale

An example of a customized Scale

Overview:

This guide will show you how to customize your Scale.

What to know:

Scales provide a means to assess or rate student submissions and monitor activity completion. Instructors can design custom scales unique to their own courses. These scales can be applied in various activities, including forums and assignments, to evaluate and grade student participation and performance.

Step 4: [Optional] Set Grade to pass

According to the course aggregation method, set the Grade to Pass value.

In this example, if the course aggregation method is Natural. With Grade to Pass=3, "Average, Good, Very good, Excellent!" will be counted as pass.

How Learning Mall Core Calculates Scales							
Sample Scales		Disappointing, Not good enough, Average, Good, Very good, Excellent!					
What YOU see when grading		Disappointing	Not good enough	Average	Good	Very good	Excellent!
What LM Core sees and calculates	Weighted Mean of Grades, Simple	0 (0%)	1 (20%)	2 (40%)	3 (60%)	4 (80%)	5 (100%)
	Weighted Mean of Grades Natural	1 (16.67%)	2 (33.33%)	3 (50%)	4 (66.67%)	5 (83.33%)	6 (100%)
