

# Self-enrollment into a module

## Overview:

This guide will show you how to set up the module page so that users can be enrolled into modules themselves by an enrollment key.

## What to know:

In response to many requests from Learning Mall Core users regarding students being able to audit module areas, LMC now can support student self-enrollment where the module teacher chooses to provide a key to such students. It allows users to enrol themselves through typing in an enrollment key of the module.

## Table of Contents

[Step 1: Click the 'Edit' icon of the module page](#)

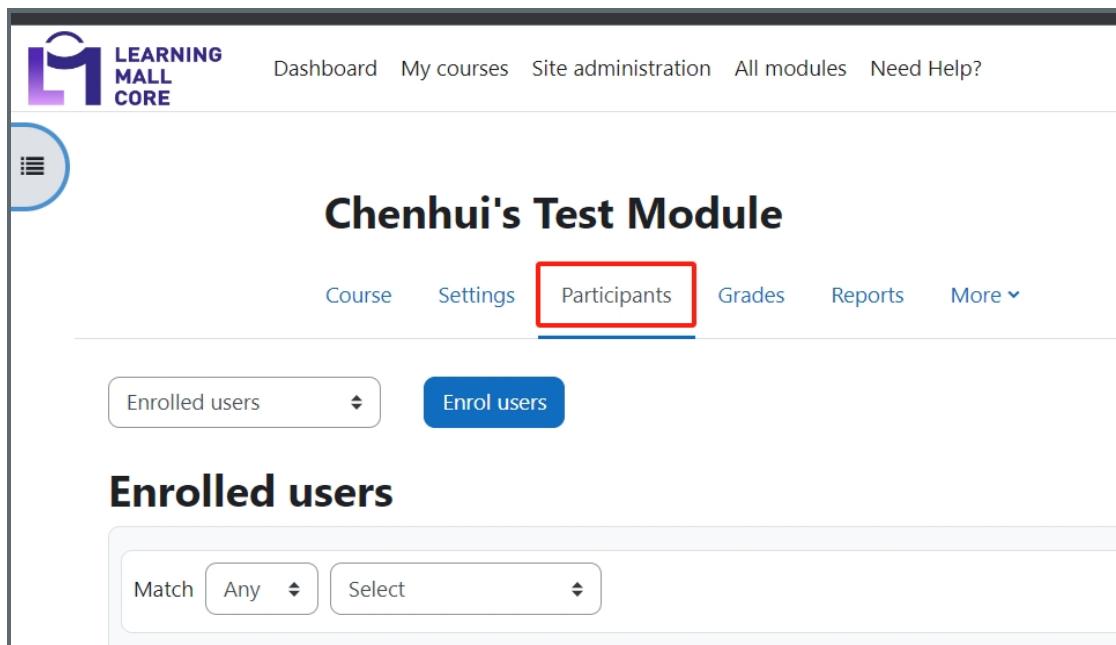

[Step 2: Go to 'Users' administration](#)

[Step 3: Copy the enrollment key of the Self-enrollment method](#)

[Step 4: Change self-enrollment key](#)

### Step 1: Open the 'Participants' tab

1. Access to the course page.
2. As the below screenshot shows, click "Participants" on the course-level menu.

The screenshot shows a course page titled "Chenhui's Test Module". At the top, there is a navigation bar with links: Dashboard, My courses, Site administration, All modules, and Need Help?. Below the navigation bar, there is a course-level menu with links: Course, Settings, Participants (which is highlighted with a red box), Grades, Reports, and More. Under the "Participants" tab, there is a section titled "Enrolled users" with two dropdown menus: "Match" and "Any" (selected), and a "Select" dropdown. A blue button labeled "Enrol users" is also visible.

### Step 2: Open 'Self enrolment'

1. Click "Enrolled Users" and click the "Enrolment methods" link.
2. On the new page, click "Choose" and then click "Self enrolment"

The screenshot shows the Moodle 'Participants' page. At the top, there are tabs: Course, Settings, Participants (which is selected), Grades, and Reports. Below the tabs, there is a dropdown menu with the following options: 'Enrolled users' (with a red box and arrow), 'Enrolments' (with a red box and arrow), 'Enrolment methods' (selected and highlighted with a blue box), 'Groups' (with a red box and arrow), and 'Groups'. To the right of the dropdown is a blue button labeled 'Enrol users'.

The screenshot shows the 'Enrolment methods' page. At the top, there is a dropdown menu with the option 'Enrolment methods'. Below the dropdown, the title 'Enrolment methods' is displayed in a large, bold font. There is a section titled 'Name' with the text 'Manual enrolments'. Below that is a section titled 'Guest access' with the text 'Guest access'. A dropdown menu titled 'Choose...' is open, showing the following options: 'Self enrolment' (selected and highlighted with a red box and arrow), 'Cohort sync', 'Course meta link', 'Course credit enrolment', 'Auto Enrol', and 'Json enrolment'. At the bottom of the page, there is a button labeled 'Add method' and another dropdown menu titled 'Choose...'.

### Step 3: Copy the enrollment key of the Self-enrollment method

1. On the "Self enrolment" setting, you can input a "Custom instance name".
2. Click on the eye icon beside the "Enrolment key" option and input a key.
3. Copy the revealed key and share it with the external users. Make sure the "Default assigned role" is Guest.
4. Then, click "Add method" to finish.

# Self enrolment

## ▼ Self enrolment
