6. How to use the Flow application on XIPU AI platform

414 Bowen Zhang Mon, Mar 30, 2026 XIPU AI Platform 6974 0

An example of the Flow application

Overview:

This guide explains how to use App on XIPU AI (https://xipuai.xjtlu.edu.cn/v3/index) to leverage three core AI-powered tools: Mindmap, Flow, and Doc. These tools help users visualize ideas, optimize workflows, and process documents efficiently through AI automation.

What to know:

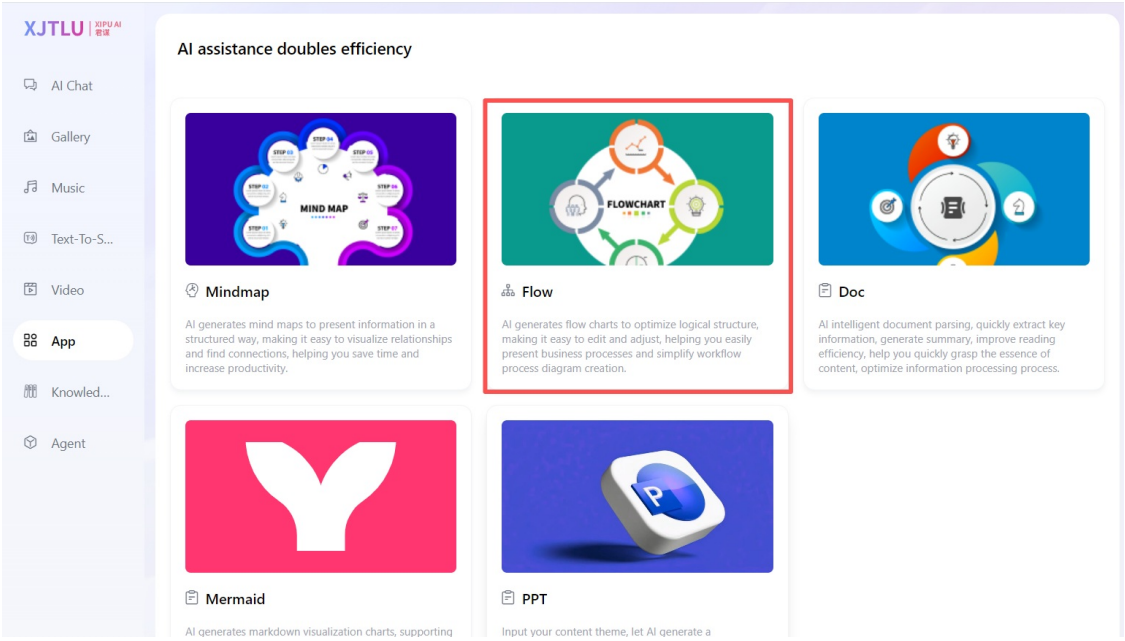

The Flow tool uses AI to generate flowcharts from text prompts to optimate logical structure, making it easy to edit and adjust, helping you easily present business processes and simplify workflow process diagram creation.

Table of Contents

Step 1: Access the Flow Tool
Step 2: Input Commands to Generate a Flow
Step 3: View and Expand the Flow
Step 4: Edit Nodes and Connections
