

6. How to use the Flow application on XIPU AI platform

An example of the Flow application

Overview:

This guide explains how to use App on XIPU AI (<https://xipuai.xjtlu.edu.cn/v3/index>) to leverage three core AI-powered tools: Mindmap, Flow, and Doc. These tools help users visualize ideas, optimize workflows, and process documents efficiently through AI automation.

What to know:

The Flow tool uses AI to generate flowcharts from text prompts to optimize logical structure, making it easy to edit and adjust, helping you easily present business processes and simplify workflow process diagram creation.

Table of Contents:

- Step 1: [Title of step with first letter of first word capitalized]
- Step 2: [Title of step with first letter of first word capitalized]
- Step 3: [Title of step with first letter of first word capitalized]
- Step 4: [Title of step with first letter of first word capitalized]
- Step 5: [Title of step with first letter of first word capitalized]

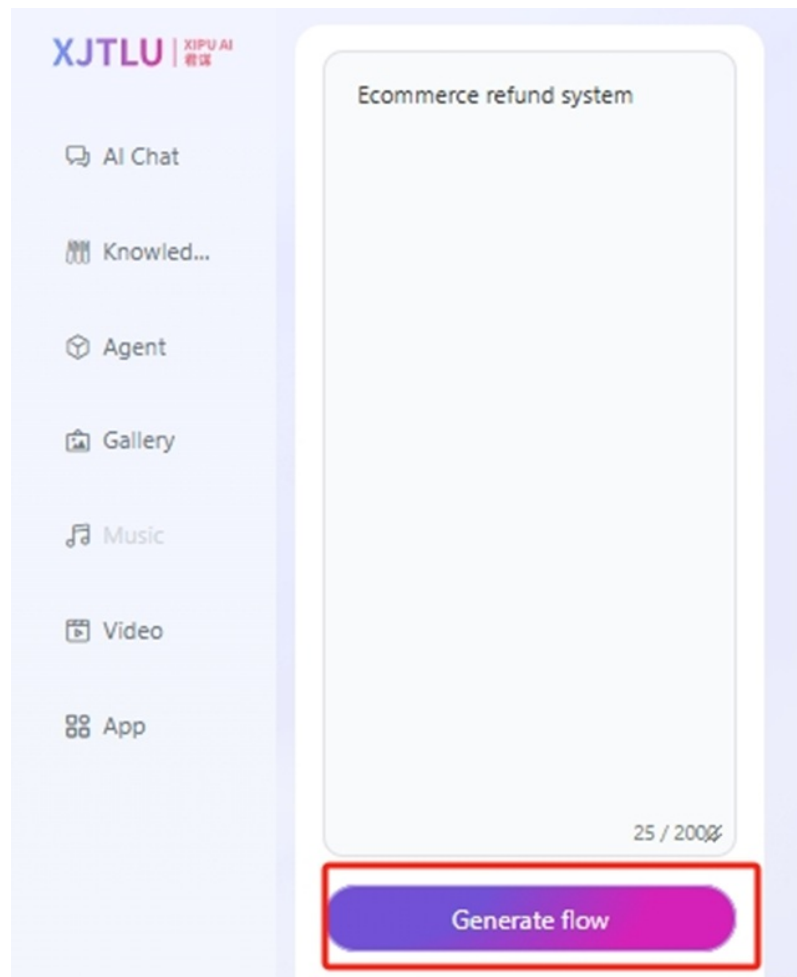

Step 1: Access the Flow Tool

Log in to the XIPU AI Platform.
Go to Application Center → Click the Flow icon.

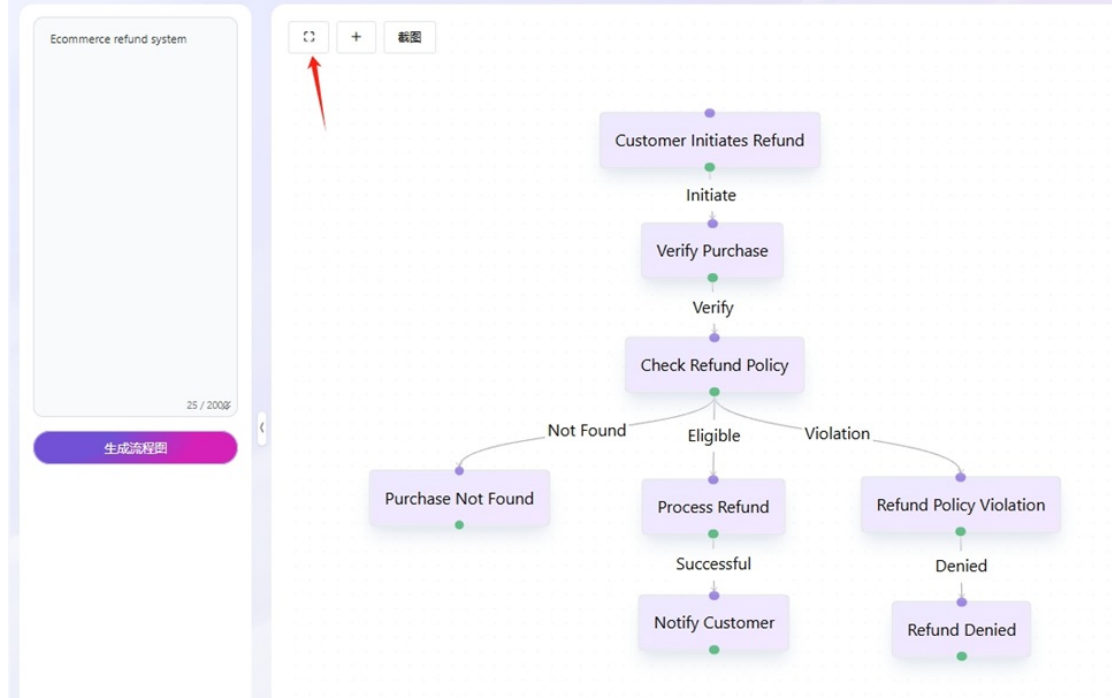

Step 2: Input Commands to Generate a Flow

In the top-left input box, type a command (English or Chinese). Example: Ecommerce refund system
Click "Generate" or press Enter.

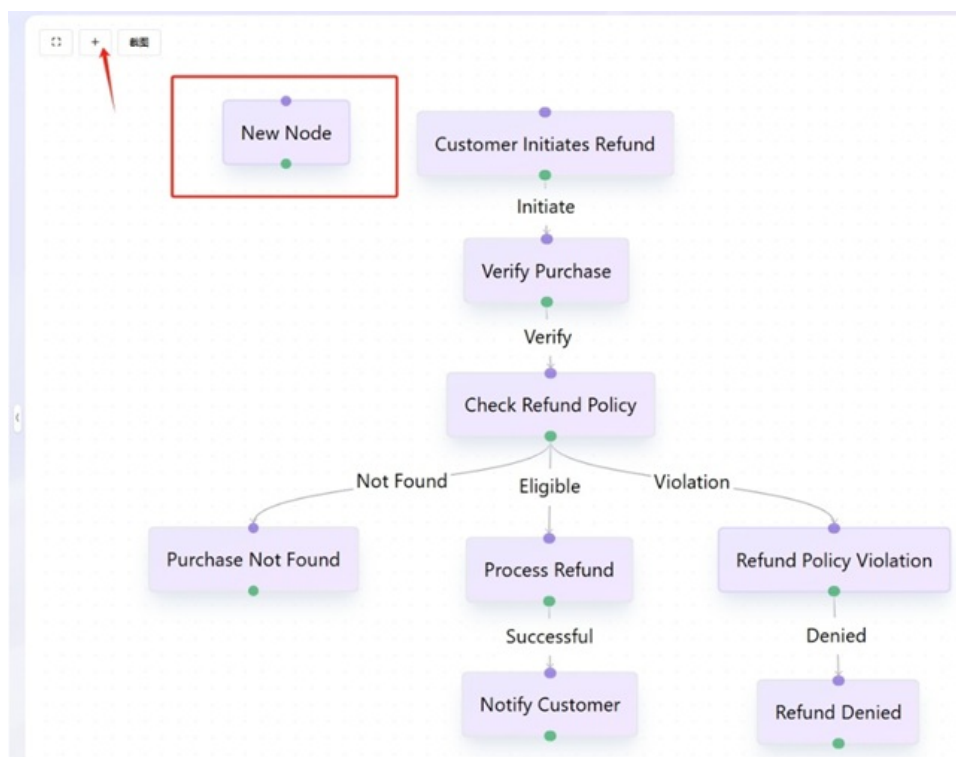

Step 3: View and Expand the Flow

The AI-generated flowchart will appear in the right panel.
Click the Expand icon in the top-left corner of the output box to view the full flowchart.

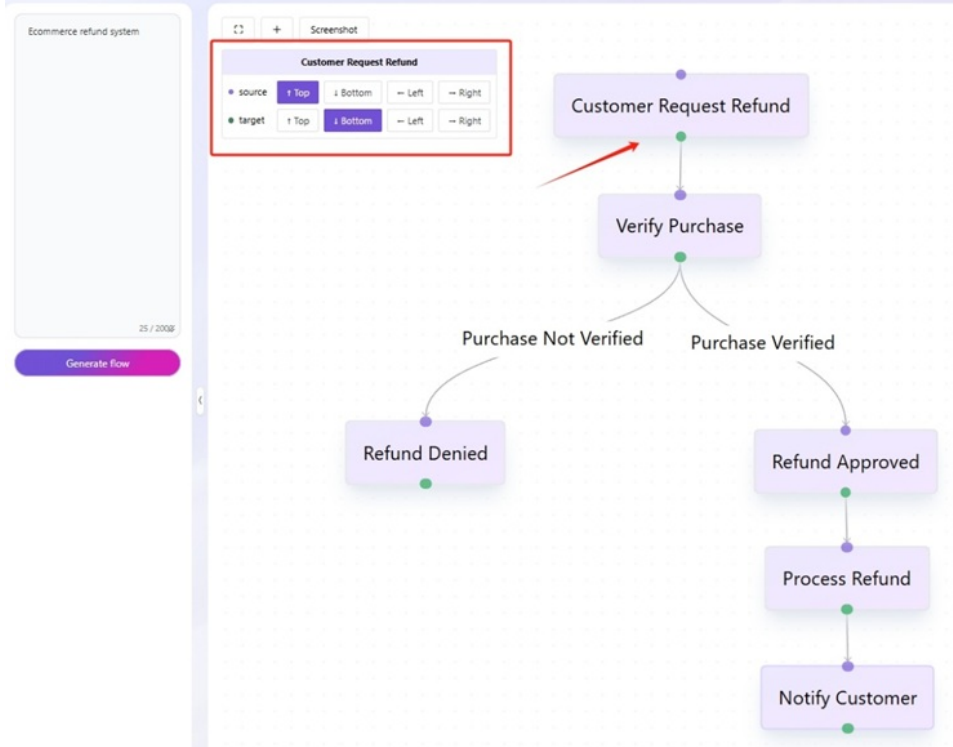

Step 4: Edit Nodes and Connections

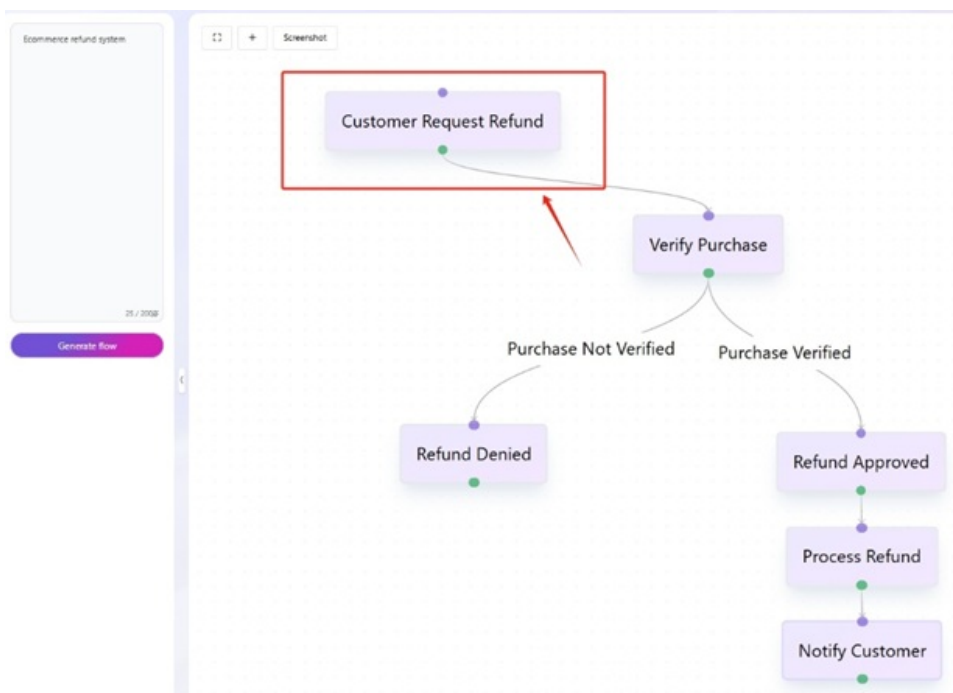

Add Nodes : Click the "+" icon to insert a new step.

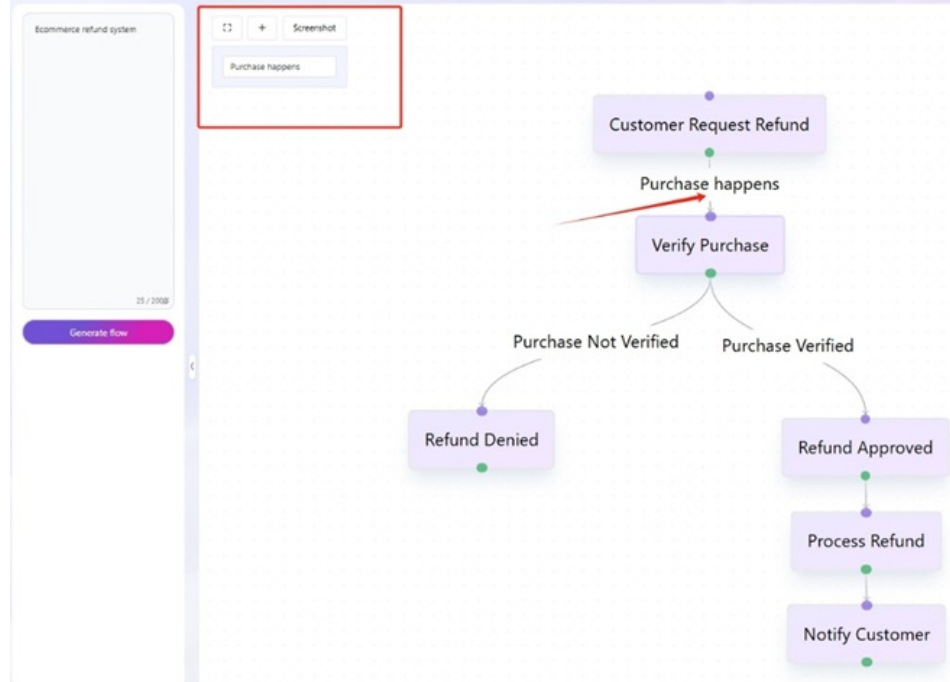

Adjust Connections: Click a node label → Modify Source/Target direction.

drag labels to reposition nodes.

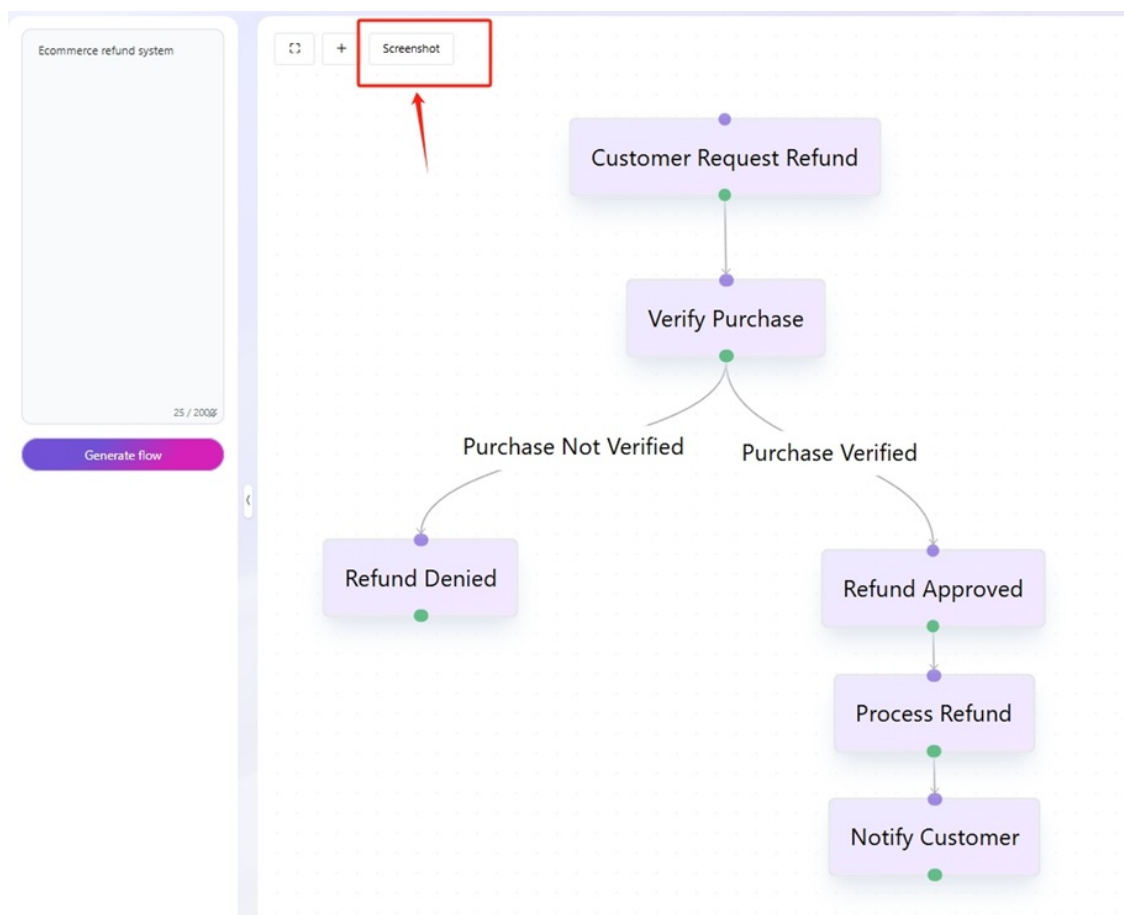

Id Text to Lines □ Click a connection line → Enter text in the pop-up box.

Step 5: Export the Flow

Click the Screenshot icon in the top-left corner of the output box.
Save the flowchart as a PNG image.

Next steps:
