

Disable the Self-enrollment method

42 Yezi Yang Wed, Jul 31, 2024 Role management

17046 0

Overview:

This guide will show you how to disable the Self-enrollment method.

What to know:

Once the Self-enrollment method is disabled, users cannot use the self-enrollment key to join in a module. But the users who already self-enrolled into the module can still access the module.

Table of Contents

[Step 1: Open 'Enrolment methods' page.](#)

[Step 2: Open the Self-enrollment method](#)

[Step 3: Disable 'Allow new enrollment' setting](#)

Step 1: Open 'Enrolment methods' page.

1. Open 'Participants' tab on the course menu.
2. Choose 'Enrolment methods' in the dropdown list.
