Disable the Self-enrollment method

Overview:

This guide will show you how to disable the Self-enrollment method.

What to know:

Once the Self-enrollment method is disabled, users cannot use the self-enrollment key to join in a module. But the users who already self-enrolled into the module can still access the module.

Table of Contents

Step 1: Open 'Enrolment methods' page.

1. Open 'Participants' tab on the course menu.
2. Choose 'Enrolment methods' in the dropdown list.

1. In the section 'Enrollment methods', click the 'Edit' icon to edit the 'Self enrollment (Guest)'.

In the setting of 'Allow new enrollments', choose 'No' in the drop-down menu.
