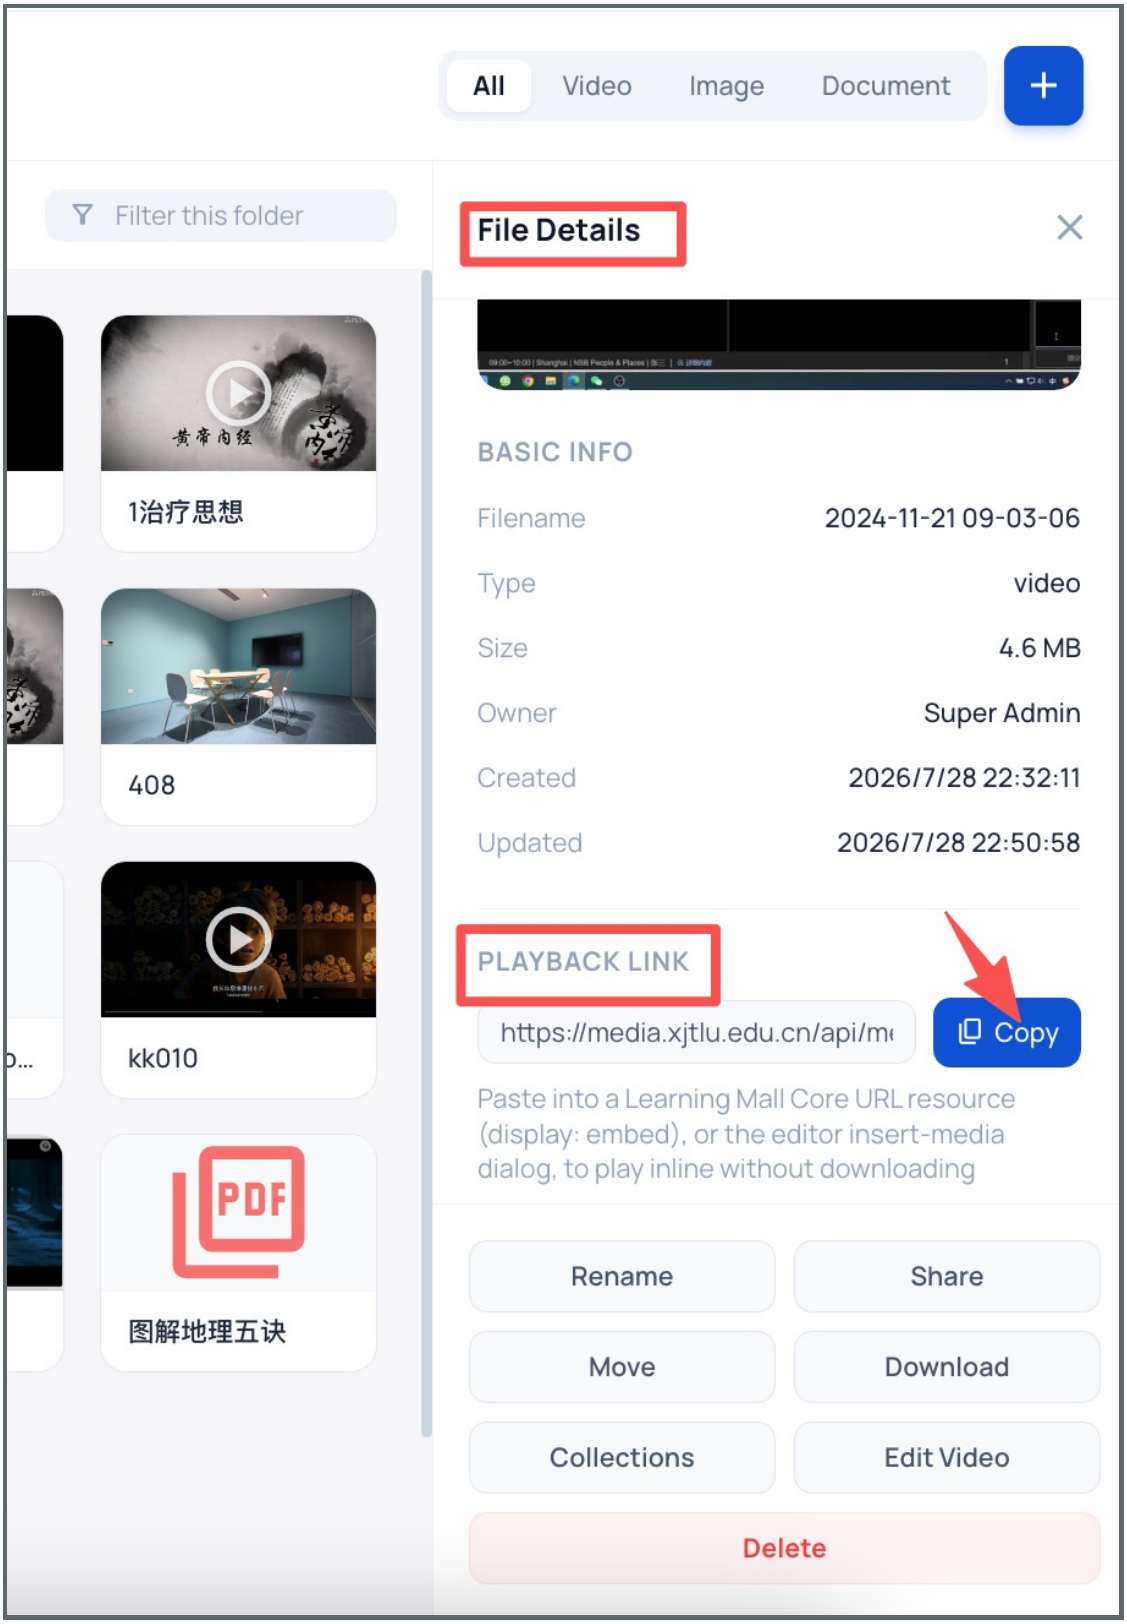
Retrieving Video Playback URLs for Embedding on BBB/H5P

428 Knowledge Base Administrator Mon, Aug 31, 2026 Guide for Staff 811 0



An example of playback link

Overview:

This guide covers how to generate direct Media Asset Management System (MAM) video playback links for embedding into BBB/H5P

What to know:

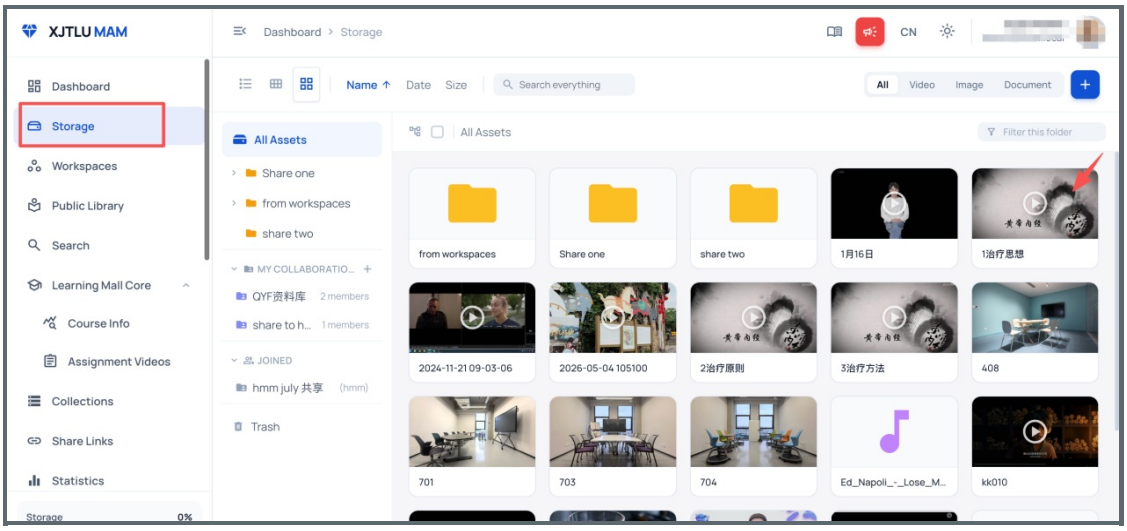
Brief description of the activity/tool/feature, e.g. what it does, who it is for, etc.

Table of Contents

Step 1: Locate Target Video in MAM Storage
Step 2: Copy Direct Playback Link

Step 1: Locate Target Video in MAM Storage

Log into the MAM platform (https://media.xjtlu.edu.cn/), open the Storage module, and click to open your target video asset.



Step 2: Copy Direct Playback Link

Select “Playback Link” in File Details.

Click the “Copy” button.
