An example of playback link

Overview:

This guide covers how to generate direct MAM video playback links for embedding into BBB/H5P

What to know:

Brief description of the activity/tool/feature, e.g. what it does, who it is for, etc.

Table of Contents

[Step 1: Locate Target Video in MAM Storage](#)

[Step 2: Copy Direct Playback Link](#)

Step 1: Locate Target Video in MAM Storage

Log into the MAM platform, open the Storage module, and click to open your target video asset.

Step 2: Copy Direct Playback Link

Select “Playback Link” in File Details.

Click the “COPY” button.
