

Short answer Question

Which city is XJTLU located in?

Answer:

An example of the short answer question

Overview:

This guide details various settings associated with short answer question type in Quiz activity.

What to know:

In a short answer question, the respondent types a word or short phrase into the question. There may be several possible correct answers, each with a different grade if needed. Answers may be case sensitive if needed. The system will grade the question automatically with the answers that you programmed into the system. It's a good idea to keep the required answer as short as possible to avoid missing a correct answer that's phrased differently.

[Step 7: Add tags if needed](#)

Step 1: Access the Quiz activity where you want to create the question

In your module area/course, click the link of the Quiz activity where you want to create a new question.

▼ **Topic 5**

Example Quiz Receive a grade

Opened: Wednesday, 8 November 2023, 1:31 PM

Note: If an appropriate Quiz activity doesn't exist in your module area/course, please see [Add a quiz](#) for details of how

to create one.

Step 2: Open the 'Questions' tab.

1. Open the 'Questions' tab.

The screenshot shows the 'Example Quiz' interface. At the top, there is a navigation bar with tabs: 'Quiz', 'Settings', 'Questions', 'Results', 'Question bank', and 'More'. The 'Questions' tab is highlighted with a red box. Below the navigation bar, there is a 'Receive a grade' button. Underneath, it says 'Opened: Wednesday, 8 November 2023, 1:31 PM'. There is a 'Preview quiz' button and 'Attempts allowed: 1' at the bottom.

Step 3: Add a new question

1. On the following page, click the 'Add' link.
2. Click the 'a new question' link in the dropdown menu.

The screenshot shows the 'Questions' page. At the top, there is a navigation bar with tabs: 'Quiz', 'Settings', 'Questions', 'Results', 'Question bank', and 'More'. The 'Questions' tab is highlighted. Below the navigation bar, there is a 'Questions: 1 | This quiz is open' status. To the right, there is a 'Maximum grade' field with '100.00' and a 'Save' button. Below that, there is a 'Total of marks: 1.00' label. There are 'Repaginate' and 'Select multiple items' buttons. A 'Shuffle' checkbox is also visible. At the bottom, there is a list of questions. The first question is 'The Loch Ness Monster is a type of?'. To the right of the question, there is an 'Add' button with a dropdown arrow. The dropdown menu is open, showing three options: '+ a new question', '+ from question bank', and '+ a random question'. The '+ a new question' option is highlighted with a red box.

Step 4: Choose a question type

1. Locate and select the short answer question type from the pop-up window.
2. Click the 'Add' button.

Step 5: Configure general settings

Category:

You can choose which category you would like to put your question in from the dropdown menu. If you have not created any category in your question bank, you can put the questions in the default category.

Question name:

The question name is to help you to identify your questions. It is extremely useful when you view your questions in the question bank. It is recommended to put in enough information in the question name to help you to identify your questions quickly, especially in the question bank. A good example will be a question name like "Week1-location of XJTLU". Vague question names like "Q1" should be avoided. This section is mandatory. **Please note, students will not see the question names.**

Question text:

Question text is a place where you can put in the question and instructions, for example, "Please specify which city XJTLU locates in:". This section is mandatory. It is also possible to put images or videos in the question text.

General

Category: Default for Chenhui's Test Module (1)

Question name:

Question text:

Words:0

Default mark:

This is where you put the mark of the question. You can change the mark even during and after the quiz.

General feedback:

Feedback can be given to your students at different stages of the quiz depends on how the settings are configured.

ID number:

Please leave it blank.

Case sensitivity:

The default is case not sensitive. For example, "Suzhou" and "suzhou" will be regarded as the same in the system. You can change the setting to case is sensitive if you wish.

Question status: Ready

Default mark: 1

General feedback:

Words:0

ID number:

Case sensitivity: No, case is unimportant

Step 6: Configure answers settings

Put all the acceptable answers in the Answers section. You should give 100% grade to correct answer. You can give not entirely correct but acceptable answers lower grades (e.g. 80%). You can give each answer different feedback if needed.

Answers

Answer 1 Grade None
