Choose...

An example of the matching question

Overview:

This guide will show you how to create a matching question type within the Quiz activity.

What to know:

The matching question type allows students to select words by clicking on them. It can be a useful question type for language learning.

Table of Contents

- [Step 1: Access the Quiz activity](#)
- [Step 2: Questions editing page](#)
- [Step 3: Add a new question](#)
- [Step 4: Choose a question type](#)
- [Step 5: Configure general settings](#)
- [Step 6: Configure answer settings](#)
- [Step 7: Add tags if needed](#)

Step 1: Access the Quiz activity

In your module area/course, click the link of the Quiz activity.

▼ Topic 5

The screenshot shows a 'Topic 5' page with a 'Example Quiz' card. The card has a pink header with a checkmark icon and the text 'Example Quiz'. A red box highlights the 'Example Quiz' text. In the top right corner of the card, there is a 'Receive a grade' button. Below the card, a message says 'Opened: Wednesday, 8 November 2023, 1:31 PM'.

Note: If an appropriate Quiz activity doesn't exist in your module area/course, please see [How to add a Quiz activity](#) for details of how to create one.

Step 2: Questions editing page

1. Click the 'Questions' tab.

The screenshot shows the 'Example Quiz' editing page. The title 'Example Quiz' is at the top, followed by a navigation bar with tabs: Quiz (selected), Settings, Questions (highlighted with a red box), Results, Question bank, and More. Below the navigation bar, there is a 'Receive a grade' button and a message 'Opened: Wednesday, 8 November 2023, 1:31 PM'. A blue 'Preview quiz' button is visible. At the bottom, it says 'Attempts allowed: 1'.

Step 3: Add a new question

1. On the following page, click the 'Add' link.
2. Click the 'a new question' link in the dropdown menu.

+ from question bank

+ a random question

Step 4: Choose a question type

1. Locate and select the matching question type from the pop-up window.
2. Click the 'Add' button.

Step 5: Configure general settings

Category:

You can choose which category you would like to put your question in from the dropdown menu. If you have not created any category in your question bank, you can put the questions in the default category.

Question name:

The question name is to help you to identify your questions. It is extremely useful when you view your questions in the question bank. It is recommended you put in enough information in the question name to help you to identify your questions quickly, especially in the question bank. A good example will be a question name like "Week1-location of XJTLU". Vague question names like "Q1" should be avoided. This section is mandatory. **Please note, students will not see the question names.**

Question text:

Question text is a place where you can put in the question or instructions. This section is mandatory. It is also possible to put images or videos in the question text.

Default mark:

This is where you put the mark of the question. You can change the mark even during and after the quiz.

The screenshot shows the 'General' settings for a question. The 'Category' field is set to 'Default for Chenhui's Test Module (1)'. The 'Question name' field is empty. The 'Question text' field contains a rich text editor with various formatting options like bold, italic, and underline. The 'Question status' field is set to 'Ready'. The 'Default mark' field is set to '1'. A 'Words:0' counter is visible at the bottom of the text area. A 'Help' button is located in the bottom right corner.

General feedback:

Feedback can be given to your students at different stages of the quiz depends on how the settings are configured.

ID number:

Please leave it blank.

General feedback

The image shows a text editor interface with a toolbar at the top containing various icons for text formatting (bold, italic, underline, etc.) and media (image, video, etc.). Below the toolbar is a large text area with a word count indicator 'Words:0' at the bottom right. A question mark icon is located in the top right corner of the text area.

ID number

A simple input field with a question mark icon in the top right corner.

Step 6: Configure answer settings

Shuffle:

If enabled, the answers will be randomly presented in each attempt, provided that "Shuffle within questions" in the activity settings is also enabled.

Question 1:

Question text is a place where you can put in the question. It is also possible to put images or videos in the question text.

Answer:

This is where you put in the answer. This section is text only.

The image shows the 'Answers' section of the configuration. It includes a 'Shuffle' checkbox (unchecked), a 'Available choices' section with a note about providing at least two questions and three answers, and two text areas: 'Question 1' and 'Answer'. Each text area has its own toolbar and word count indicator ('Words:0').

Step 7: Add tags if needed

You can put in a tag or several tags by key in the tags. Click "x" to delete a tag. Tags can help you to organize your questions in your question bank. Read more about the use of Tag from this article (link). Tags are designed for your question management purpose. It will not be displayed to students

The image shows the 'Tags' section. It displays a list of tags ('week1', 'week2') with a delete 'x' icon. Below the list is a search bar with a dropdown arrow. Red annotations provide instructions: 'Click "x" to delete a tag' points to the delete icon, and 'Key in one tag at a time and press "enter"' points to the search bar.
