An example of the Description question

Overview:

This guide will show you how to create a description question type within the Quiz activity.

What to know:

The descriptive question type allows the teacher to put in information (e.g. text, image, audio or video) within the Quiz activity.

Step 5: Configure general settings

Category:

You can choose which category you would like to put your question in from the dropdown menu. If you have not created any category in your question bank, you can put the questions in the default category.

Question name:

The question name is to help you to identify your questions. It is extremely useful when you view your questions in the question bank. It is recommended to put in enough information in the question name to help you to identify your questions quickly, especially in the question bank. A good example will be a question name like "Week1-location of XJTLU". Vague question names like "Q1" should be avoided. This section is mandatory. **Please note, students will not see the question names.**

Question text:

Question text is a place where you can put in the description. This section is mandatory. It is also possible to put images or videos in the question text.
