FILE Gradescope SSO Documentation 26.8 KB PDF document Uploaded 13/03/24, 15:22

Hi Roland,

I'm also following up about the SAML-based SSO integration - I believe mentioned that you were likely interested in adding an SSO integration. I've attached a copy of Gradescope's SSO Documentation, and I've also attached the SAML configuration file for Gradescope. Please let me know if you have any questions or need further assistance.

To get Gradescope or another provider to get your SSO metadata (via a link or file), please also let us know if you have preferred SAML attributes for any of the following user fields (note: these are not required):

- Preferred (or identifying) name/label
- Given name (First Name)
- Surname (Last Name)
- Middle name
- Use NetID name (other shared unique identifier)

Please don't hesitate to reach out if you have any questions or need any other information about the SSO integration.

Thanks,
Kenneth

Adding files to a Learning Mall Core module area

Overview:

This guide will show you how to manually download and migrate module area content from ICE to the Learning Mall Core.

Here is the link to the ICE system: <https://ice.xjtu.edu.cn/login/index.php>

What to know:

The download and migration process can be completed in a few simple steps, and will enable you to quickly get started setting up your new module area on the Learning Mall Core. Please also note that if your existing ICE module area content is very large in size, please make sure you have sufficient space on your computer to store these files temporarily prior to uploading them to the Learning Mall Core platform.

Table of Contents

- [Step 1: Access Your ICE Module Area](#)
- [Step 2: Access the Download Center Link](#)
- [Step 3: Files and Folders List](#)
- [Step 4: Downloading Files and Folders](#)
- [Step 5: Locate the Downloaded ZIP File](#)
- [Step 6: Unzip the ZIP File](#)
- [Step 7: Access the Learning Mall Core](#)

Step 1: Access Your ICE Module Area

Access your ICE module area.

Online Learning and Teaching Technology Support

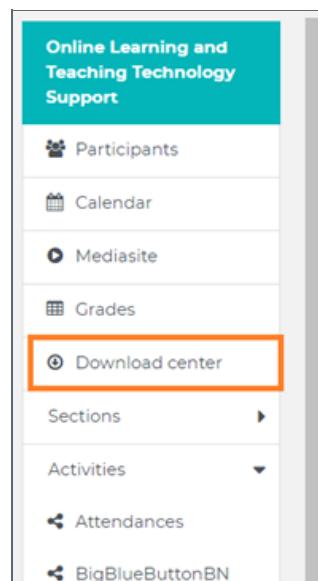

Welcome!

Welcome to Online Learning and Teaching Technology Support - a special area designed to enable teaching staff to quickly access information, resources and training concerning how to use technologies such as ICE, BigBlueButton and Mediasite to facilitate online learning and teaching activities during semester 2 AY2019-20.

Please do note that development of this area has been undertaken in a very short amount of time, with the result that it is definitely a work in progress. However, new content and resources will continue to be added in the coming days and weeks (feel free to add your own suggestions about what could be added [here](#)), so please make sure to check back regularly.

Step 2: Access the Download Center Link

Next, locate and click on the 'Download center' link displayed within ICE's navigation drawer.

Online Learning and Teaching Technology Support

- Participants
- Calendar
- Mediasite
- Grades
- Download center
- Sections
- Activities
- Attendances
- BigBlueButtonBN

Note that if you cannot view the navigation drawer, please click on the "hamburger" button displayed in the top left-hand corner of your module area to make it visible.

- Mediasite

Step 3: Files and Folders List

You now should see a page listing all of the sections, files and folders present within your module, as well as corresponding check boxes.

Online Learning and Teaching Technology Support

Dashboard / My courses / Online Learning and Teaching Technology Support / Download center

WARNING: The Download center enables to download only visible FILES and FOLDERS!

Select All / None
(Show type options)

Welcome!

XJTLU Online Assessment Technologies Guide

XJTLU Code of Conduct for Online Education

XJTLU Code of Practice on Assessment

XJTLU Online Assessment Training Workshops, May 4-8: Descriptions

XJTLU Online Assessment Training Workshops, May 4-8: Schedule

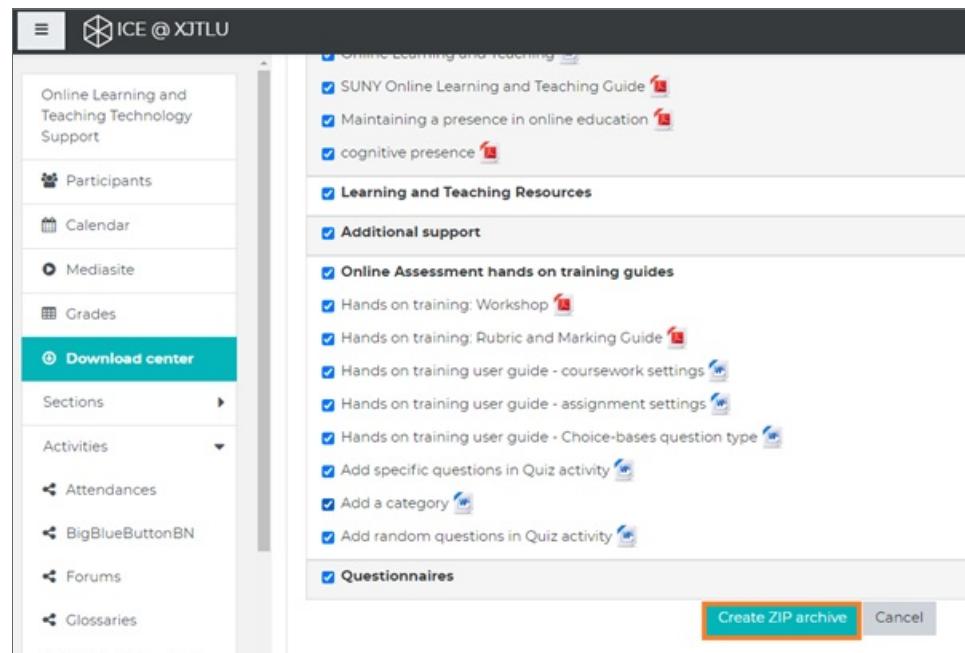

Online Learning and Teaching Technology Support training session and workshop schedule - 17-21/8/2020

Online Learning and Teaching Technology Support training session and workshop schedule - 10-14/8/2020

Note: Only files and folders which are set to be visible (i.e. not hidden from students) will be listed via this page and available for download. Please also note any activities e.g. Assignments, Forums, etc. present within your ICE module area will not be listed, and these will need to be recreated within your Learning Mall Core module area.

Step 4: Downloading Files and Folders

To quickly download all of the files and folders listed, click the 'Create ZIP archive' button displayed near the bottom of the page. Alternatively, please un-check any items listed that you do not wish to download before clicking the 'Create ZIP archive' button.

Create ZIP archive Cancel

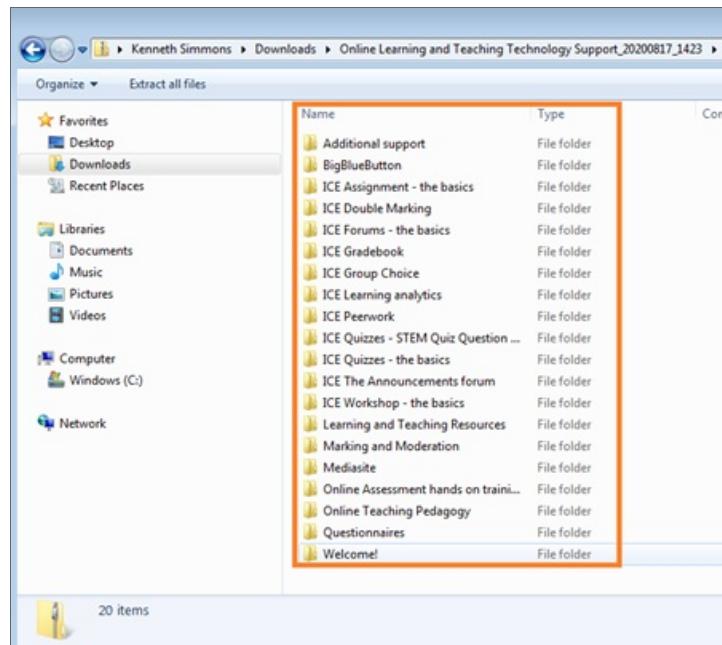

Step 5: Locate the Downloaded ZIP File

You should now find a ZIP file containing all of your selected files and folders has been saved to the Downloads folder on your computer.

Name	Date modified	Type	Size
Online Learning and Teaching Technology Support_20200817_1423	8/17/2020 2:32 PM	Compressed (zipp...)	83,501 KB
questions-Kenny test area-top-20200817-1306	8/17/2020 1:06 PM	XML Document	530 KB
questions-Kenny test area-Category 1 Maths Questions-20200817-1304	8/17/2020 1:04 PM	XML Document	519 KB

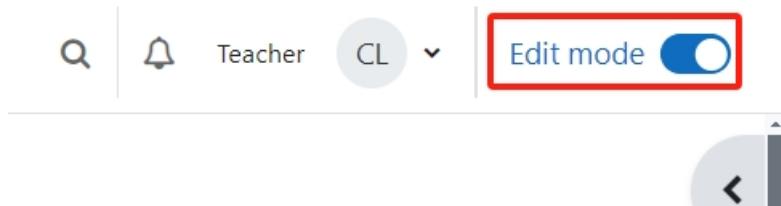

Step 6: Unzip the ZIP File

After unzipping the ZIP file, will find all of your files and folders listed.

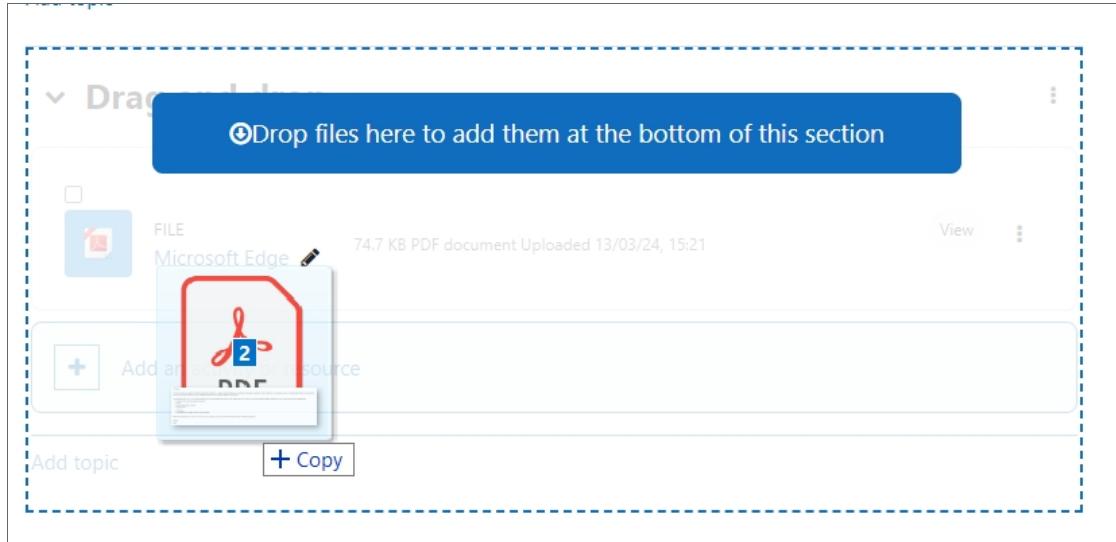

Step 7: Access the Learning Mall Core

Next, within your new Learning Mall Core module area, navigate to the top right hand-corner of the page and enable the 'Edit mode' button.

Step 8: Uploading Files To Your Learning Mall Core Module Area

You can now simply drag-and-drop the files and folders from your unzipped folder into the relevant section of your Learning Mall Core module area. Note that multiple files can be dragged and dropped simultaneously i.e. there is now need to drag-and-drop files one at a time).

Once complete, your files will be available to view within your module area.

Tips: Please note that there is an upload file size limit of 100MB and the speed of the upload may vary depending on the size of your file.
