- ☒ b. Fall/Autumn ✓
- ☒ c. Summer ✓
- ☐ d. Winter

Your answer is incorrect.
The correct answers are:
Fall/Autumn,
Summer,
Spring,
Winter

An example of All or Nothing Multiple Choice question type

Overview

All-or-nothing multiple choice question type allows students to choose multiple answers. But it differs from the Multiple choice grading method that **partial correct answers will not be allowed**.

What to know

All or nothing multiple choice question type will see the response as correct only when all and only the correct answers are selected. If you lost one correct answer or select one wrong option, you will get 0 for this question though you are partially correct. It's different from the multiple choice question type, where teachers can set different percentages of grades for each answer, and the partially correct answer will get some grades.

Cancel

Step 5: General settings

Set the general information of the question by:

students/attempts.

Number the choices: It changes the number format for each option, such as using the "1, 2, 3..." or "a, b, c..."

Step 6: Answers settings

Set the content, grade and feedback for each choice:

The screenshot displays the 'Answers' configuration panel. It contains two main input areas: 'Choice 1' and 'Feedback'. Both areas feature a rich text editor with a toolbar for text formatting (numbered list, bulleted list, text color, background color, bold, italic, underline, link, unlink, list, list, list, list) and a 'Words:0' character count. The 'Choice 1' section also includes a 'Correct' checkbox.

Choice: It's the place where you can create the answer options. Text, images, audio, video, and other media are supported using the text editor.

Correct: Where you can mark the correct answers for the question.

Feedback: The feedback content for each answer can be the explanation of the option about why it is right or wrong. (Optional)

Tips: If the boxes of the answer options are not enough, please click the button "Blanks for 3 more choices" to add more options:

Blanks for 3 more choices

Step 7: Combined feedback (Optional)

Set the combined feedback for the question, which will be shown as the feedback according to students' responses (there's no partial correct response which is different from the multiple choice question type):

Hint: It is the message you want the students to see when they are wrong. It will help them to select the right answer in the next attempt. You can create more than one hints according to the attempts the quiz allowed.

Hint options: There are some options for automatic response, such as clear incorrect responses and show the number of correct responses.

Step 9: Tags (Optional)

Using tags, you can easily search for the question by the tag in the question bank.
